**Note:** Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data, required for registration/ reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.
2. Make the following label changes:
  - a. Revise the EPA Registration Number to read, "EPA Reg. No. 56575-11".
  - b. Remove the "Hours of Protection" statement from the label. Replace it with "Two Hours of Protection" as specified by the DEET standard.
  - c. Signal Word: WARNING

Signature of Approving Official:

*M. J. [Signature]* / PM/EB/RD

Date:

DEC 22 1998

d. As directed by PR Notice 91-4, please add the statement: "Do not spray in enclosed areas."

4. Submit two copies of the revised final printed label for the record.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

Additionally, the eye irritation study dated December 1, 1997 is acceptable and is tox category I. However, the Agency will allow the signal word "Warning" to be used on the label based on the tox category II results of the second eye irritation study dated February 26, 1998.

A stamped copy of the label is enclosed for your records.

Sincerely,

A handwritten signature in black ink, appearing to read "M. Johnson, Jr.", with a long horizontal flourish extending to the right.
