Ms. Beverly Randall
Security Products Company of Delaware, Inc.
P.O. Box 59084
Minneapolis, Minnesota 55459

Subject: Revised Labeling
Security Brand Ornamental & Fruit Spray Oil
EPA Registration Number 56644-12
Your Application Dated November 25, 1992

Dear Ms. Randall:

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act as amended, is acceptable provided that you make the labeling change indicated below before you release the product for shipment bearing the amended labeling:

Because the Hazards to Humans and Domestic Animals section includes the sentence "Avoid breathing of spray mist," you must add directions to the Statement of Practical Treatment for "If Inhaled."

Submit five (5) copies of your final printed labeling before you release the product for shipment.

A stamped copy of the labeling is enclosed for your records.

Sincerely yours,

DHE

Dennis H. Edwards, Jr.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed. Avoid breathing of spray mist. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling.

STATEMENT OF PRACTICAL TREATMENT

If Swallowed: Do not induce vomiting. Get medical attention immediately.
If On Skin: Wash area with soap and water. If irritation develops, consult a physician and get medical treatment.
If In Eyes: Flush eyes with large quantities of potable water for at least 15 minutes. If irritation persists, get medical treatment.

FOR EMERGENCY MEDICAL INFORMATION Call 1-800-228-5635, Extension 138.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not apply directly to water. Do not contaminate water when disposing of equipment washwaters.

PHYSICAL OR CHEMICAL HAZARDS

Do not store, use, or spill near heat or open flame.
Do not weld, heat, or drill container. Residue may ignite with explosive violence if heated sufficiently.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

STORAGE: Keep away from sources of heat or flame.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Triple rinse for equivalent. Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

DIRECTIONS

GROWING SEASON SPRAYS: ORNAMENTALS AND SHADE TREES-On Aucuba, Azalea, Camellia, Crabapple, Dogwood, Elm, Flowering Peach, Gardenia, Hemlock, Holly, Lilac, Ligustrum, Magnolia, Oak, Pine (except white pine), Sasanqua, Spruce (except Blue Spruce), Viburnum and Willow to control Scale Insects, Mealybug, Whiteflies, Mites and Pine Bark Aphids, apply at the rate of 3 tablespoonfuls to 1 gallon of water. Make applications during periods of moderate temperatures (40 degrees to 85 degrees F), preferably in Spring or Fall. Applications under other temperature conditions may result in injury. Spray for thorough coverage so that insect pest to be controlled is covered with the spray.

CAUTION: Do not spray again with oil for at least a month. Do not spray drought injured or Winter burned plants. Do not apply oil spray within 30 days of sulphur applications. Injury may result if oil sprays are used on ferns, palms, hibiscus, certain conifers, including blue spruce, white pine, arborvitae and junipers, and certain deciduous trees such as Japanese Maple, beech, hickory, walnut, and butternut.

DORMANT SEASON SPRAYS: ORNAMENTALS AND SHADE TREES- On Aucuba, Azalea, Camellia, Crabapple, Dogwood, Elm, Flowering Peach, Gardenia, Hemlock, Holly, Lilac, Ligustrum, Magnolia, Oak, Pine (except white pine), Sasanqua, Spruce, (except Blue Spruce) Viburnum and Willow to control scale insects including San Jose, Forbes and White Peach Scale, use 6 tablespoonfuls to 1 gallon of water and spray during the dormant period. Make no application if freezing temperatures are expected within 4 hours. Do not follow a dinitro spray with oil under 2 weeks or bud injury may result.

APPLES - Use at the rate of 6 tablespoonfuls to 1 gallon of water when trees are dormant or as a delay dormant spray. Where scurfy scale is a problem, increase the rate by 50% and apply in the delayed dormant spray, when buds first show green but before leaves separate from buds.

PEACHES - Use at the rate of 6 tablespoonfuls to 1 gallon of water and apply during the dormant period. If White Peach Scale is a problem, two applications should be made at two week intervals.

COMBINATION LIME SULPHUR PLUS OIL DORMANT (WINTER) SPRAY: FRUIT TREES, ROSES AND ORNAMENTALS (Dormant Deciduous (without leaves) only) - To control scale insects, overwintering insect eggs and many overwintering fungus spores of plant diseases listed for each crop in other sections of this label, apply 5 tablespoons of Security Lime Sulphur plus 5 tablespoons of Security Dormant Oil in 1 gallon of water. Spray plants thoroughly, keeping mixture well agitated (mixed) during spraying. Do not apply dormant spray to peaches immediately after or during periods of 5 days or more of unseasonably high temperatures if sufficient number of dormant hours have occurred.

NOTICE: Agitate contents before withdrawing oil. Spray for thorough coverage so that insect pest to be controlled is covered with the spray.

Warranty and Limitation of Damages

Seller warrants that this material conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with directions under normal conditions of use and Buyer assumes the risk of any use contrary to such directions. Seller makes no other express or implied warranty, including any other express or implied warranty of Fitness or of Merchantability, and no agent of Seller is authorized to do so except in writing with a specific reference to this warranty. In no event shall Seller's liability for any breach of warranty exceed the purchase price of the material as to which a claim is made.
