MAR 24 1993

Ms. Beverly Randall Security Products Co. P.O. Box 59084 Minneapolis, MN 55459

Dear Ms. Randall:

Subject: Amendment - Change to "Caution" Formula

Diazinon 2-EC

EPA Reg. No. 56644-14

Your submission dated July 10, 1992

The amendment referred to above, submitted in connection with a registration under the Federal Insecticide, Fungicide, and Rodenticide Act is acceptable provided the following revisions are made prior to release for shipment under the amended labeling:

- 1) In item "3" of the "Motes" under the heading General Information on the container label, revise "garden" to "gardenia,".
- 2) On page 2 of the booklet label, revise the end of item "5" in the "Motes" under the heading "General Information" to read: "... in greenhouses.", rather than "... in green houses.".

A stamped copy of the label is enclosed for your records. The replacement Confidential Formula (CSF) dated July 10, 1992 is acceptable and has been added to this product's registration file.

MOTE - The label and associated Confidential Statement of Formula accepted at this time supersede all previous labels and formula statements on file for this product.

Sincerely,

George T. LaRocca Product Manager (13) Insecticide Rodenticide Branch Registration Division (H7505C)

DIAZINON 2-EC

This product must not be used on golf courses and sod farms.

For outdoor use on the home lawn and the home garden only.

Spray concentrate. Contains diazinon insecticide.

ONE PINT Net Contents ACTIVE INGREDIENT:
Diazinon: 0,0-Diethyl
0-(2-isopropyl-6methyl-4-pyrimidinyl)
phosphorothioate 25.0%

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

FAILURE TO FOLLOW THE DIRECTIONS FOR USE AND PRECAUTIONS ON THIS LABEL MAY RESULT IN POOR INSECT CONTROL, CROP INJURY, OR ILLEGAL RESIDUES.

General Information

Diazinon 2-EC is an emulsifiable concentrate product which must be diluted with water before application. This product kills many outdoor pests which damage lawns, roses, flowers, trees, shrubs, vegetables and fruits and insects which annoy pets and people.

SEE THE BOOKLET UNDER CAP FOR COMPLETE DIRECTIONS FOR USE AND PESTS CONTROLLED.

Motes: (1) USE CONTENTS WITHIN 6 MONTHS AFTER OPENING. SEE STORAGE AND DISPOSAL DIRECTIONS. (2) Do not use in the home. (3) Do not use on fern, poinsettia, hibiscus, papaya, pilea, garden or orchids since plant injury may occur. (4) Use this product on succulent peas and beans only. Do not use on dried pea or bean varieties. (5) Do not apply to food crops grown in greenhouses.

After spraying, wait the following number of days before harvesting fruits, nuts, or vegetables:

1 day	Tomatoes
3 days	Melons, Winter Squash
5 days	Peppers, Strawberries
7 days	Beans, Broccoli, Blackberries, Boysenberries, Caulillower, Cucumbers, Dewberries, Loganberries, Peas, Raspberries, Summer Squash, Sweet Corn
10 days	Chinese Broccoli, Chinese Cabbage, Collards, Kale
14 days	Carrots, Endive (Escarole), Lettuce, Onions (Bulb and Green), Parsnips, Radishes, Spinach Turnips
21 days	Apricots, Cabbage, Cherries, Nectarines, Peaches, Plums, Prunes
28 days	Grapes
35 days	Potatoes (Irish)
45 days	Walnuts
•	Almonds (one dormant spray only)

Precautions: (1) Wear a long-sleeved shirt and long-legged pants when spraying. (2) Spray with the wind to your back. (3) Do not spray on windy days. (4) If clothing becomes wet from spray during use, remove clothing after spraying, wash affected body areas thoroughly with soap and water and launder clothing before wearing again.

^{*}This table is only a partial listing of the pests controlled by this product. See booklet under cap for complete directions for use and pests controlled.

Problem Area	Pests*
Nuisance Pests in Outside Areas	Ants, Brown Dog Ticks, Chiggers, Cockroaches, Crickets, Fleas, Fire Ants, Spiders and others
Lawns	Chinch Bugs, Ants, Sod Webworms, Brown Dog Ticks, Fleas, White Grubs, Lawn Billbugs and others"
Vegetables: Foliar App	lication
Beans, Peas (except dried varieties)	Aphids, Cucumber Beetles, Grasshoppers, Leathoppers, Mexican Bean Beetles. Spider Mites
Broccoli, Chinese Broccoli, Cabbage, Chinese Cabbage, Cauliflower, Collards, Kale	Aphids, Flea Bertles, Dipterous Lealminers, Diamondback Moths, Imported Cabbageworms

Storage and Disposal

Sterage

Poplar, Rhododendron, Soruce, Willow

Do not store near heat or open flame. Store in original container in an area inaccessible to children or pets. USE CONTENTS WITHIN 6 MONTHS AFTER OPENING.

Disposal

Do not reuse empty container. Thoroughly rinse container, securely wrap in several layers of newspaper, and discard in trash. If disposal of a partially full container is necessary, make sure cap is tightly closed, securely wrap the container in several layers of newspaper and discard in trash.

Precautionary Statements

Hazards to Humans and Domestic Animals CAUTION

Harmful if swallowed, inhaled, or absorbed through skin. Causes moderate eye injury. Avoid breathing spray mist. Avoid contact with eyes, skin, or clothing. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse. Do not use inside the home. Avoid contamination of feed and foodstuffs. Do not use on household pets or humans. Do not allow children or pets to go onto a treated area until the treated area, such as grass or soil, has dried. Do not contaminate ornamental fish ponds. Food utensits such as spoons and measuring cups must not be used for food purposes after use in measuring pesticides.

Statement of Practical Treatment

If swallowed: Call a physician immediately. DO NOT INDUCE VOMITING UNLESS NO OTHER TREAT-MENT IS AVAILABLE. Vomiting may cause aspiration pneumonia. If it is necessary to induce vomiting, give victim one or two glasses of water and insert finger in back of throat. Do not induce vomiting or give anything by mouth if person is unconscious or convulsing.

If Inhaled: Remove victim to fresh air and apply artificial respiration if Indicated, Get medical attention.

If on skin: Wash promptly with soap and water. Rinse thoroughly. Get medical attention.

If in eyes: Rinse eyes with plenty of water and call a physician immediately.

Note to Physician: This product is an organophosphate insecticide. If symptoms of cholinesterase inhibition are present, atropine sulfate by injection is antidotal. 2-PAM is also antidotal and may be administered, but only in conjunction with atropine. This product contains aromatic petroleum distillates which may present an aspiration hazard. Gastric lavage may be indicated if product was taken internally.

Environmental Hazards

This product is highly toxic to birds, fish, and other wildlife, Birds, especially waterfowl, feeding or drinking on treated areas may be killed. Because of the migratory habits of certain Atlantic Coast waterlowl. do not apply this product to lawns in Nassau County, New York, between November 1 and May 20. Do not exceed maximum permitted label rates. Application rates above those recommended significantly increase potential hazards to birds and waterfowl. Avoid overlapping of sprays. For lawns, where irrigation (watering) is recommended in the directions, or if waterfowl, i.e., ducks or geese, can be expected in the treated area after treatment (except spot treatment), apply at least ¼ inch of water immediately after spraying this product, however, stop watering before puddling occurs. Keep out of lakes, streams, ponds, tidal marshes and estuaries. Do not apply directly to water, to areas where surface water is present, or to intertidal areas below the mean high water mark. Runoff may be hazardous to aquatic organisms in neighboring areas. Shrimp and crab may be killed at application rates recommended on this label. Do not apply where fish, shrimp, crab, and other aquatic life are important resources. Do not contaminate water by cleaning of equipment or disposal of equipment wash waters.

This pesticide is highly toxic to bees exposed to direct treatment or to residues on blooming crops or weeds. Do not apply this pesticide or allow it to drift to blooming crops or weeds if bees are visiting the treatment area.

Physical or Chemical Hazards

Do not use, pour, spill, or store near heat or open flame.

SURECTIONS FOR USE AND CONDITIONS OF SALE AND WARRANTY

POSTANT: Read the entire Directions for Use and the Conditions of Sale o try before using this product. If forms are not acceptable, return the unopened to extrate a face of the common of -

Conditions of Sale and Warrenty

The Directions for the of this product reflect the opinion of experts based on field use and tests. The directions are believed to be reliable and should be followed carefully. However, it is impossible to eliminate all risks inherently associated with use of this product. Crop injury, ineffectiveness, or other unintended consequences may result because of such factors as unather conditions, presence of other enterials, or the manner of use or application all of which are beyond the control of Security Products Co. of Belamare, inc., or the Sellor. All such risks shall be assumed by the Bayer.

Security Products Co. of Beloware, Inc. unreants that this product conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the Birections for the subject to the inherent risks referred to above. Security Products Co. of Belomare, Inc. outes no other express or suplied unreanty. In ne case shell Security Products Co. of Beloware, Inc. or the Seller be liable for consequential, special, or indirect damages resulting from the use or handling of this product. Security Products Co. of Beloware, Inc. ond the Seller offer this product, and the layer and user accept it, subject to the foregoing Conditions of Sales and thereasty, which may be varied only by agreement in writing signed by a duly authorized representative of Security Products Co. of Beloware, Inc.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

FAILURE TO FOLLOW THE DIRECTIONS FOR USE AND PRECAUTIONS ON THIS LABEL MAY RESULT IN POOR INSECT CONTROL, CROP INJURY, OR ILLEGAL YES.

General Information

Diazinon 2-EC is an emulsifiable concentrate product which must be diluted with water before application. Refer to the section New to Mix and Apply. This product kills many outdoor insects which damage lawns, roses, flowers, troos, shrubs, vegetables, fruits and nuts, and insects which annoy pets and people. Contains diazinon insecticide which provides positive control of many "hard-to-kill" sucking and chewing insects. Diazinon 2-EC works fast and applications should be repeated only as directed to maintain control.

Notes: (1) USE CONTENTS WITHIN 6 MONTHS AFTER OPENING. SEE STORAGE AND DISPOSAL DIRECTIONS. (2) Do not use in the home. (3) Do not use on ferns, pomeette, hibiscus, papeya, pilea, gerdeniz or orchids since injury mey occur. (4) Use this product on succulent peas and beans only. Do not use on dried pea or bean variaties. (5) Do not apply to food crops grown in green houses.

Precautions: (1) Wear a long-sleeved shirt and long-legged pants when spraying. (2) Spray with the wind to your back. (3) Do not spray on windy days. (4) If clothing becomes wet from sprey during use, remove clothing efter spreying, wash affected body areas thoroughly with soap and water, and launder clothing before wearing again.

Step #1: Determine size of apraying job. For lawns and vegetables, massure the area to be sprayed. For all other applications, apply as a thorough cover apray, Make applicaben insects first appear. Applications should be repeated only as directed to a control.

Step #2: Use clean sprayer. Carefully measure and mix the amount of Biazinon 2-EC and water as suggested in the rate chart.

Step #3: Spray as directed in rate chart. Thorough coverage is important. Flush sprayer with clean water after each use.

See chart for complete list of use sites, crops, and insects controlled. Use the rate ν given in the chart for the type of insect you want to control on the site or crop you are spraying.

Lown Past Control

Preceutions: Birds, unpecially waterland, leading or drinking on treated areas may be killed. Apply this product only as specified on this label. Because of the migratory habits flowl, do not apply in Nessau County, New York, between November 1 and May 21° Do not exceed measurum permitted lebel retes, since rates above those recommended significantly increase potential hezards to birds and waterload. Avoid everhapping of aprays. Where irrigation (watering) is recommended in the circotions, of it wateriors, i.e., ducting a goods, can be expected in the expected area what examined famous aport treatment), water form with at least 16 Inch of water immediately after apraying this product; however, step watering before pushling ecours.

Use on Bart, Bernutz, Bhastree, Dichondre, Fescus, Marien and St. Augustineons To control posts listed below, apply recommended rates.

	Rel	•	
Pests	D•z•n	Water	Remarks
Lawn Chinch Bugs	1 Vz tablespoons per 125 sq. ft.	3 gels.	Thoroughly wel down grace a few hours before applying.
	6ff. cz. per 1,000 sq. ft.	24 gels.	In the North, if Chinch Bugs are the only prob- lem, a lower rate of application can be used: 3 teespoons in 3 gais, of water covers 125 sq. R. or 4 fl. oz. in 24 gais, of water per 1,000 sq. R.
Ants, Armyworms, Bermudagrass Mises, Clover	1 1/2 tablespoons per 125 sq. ft. or	3 gals.	Thoroughly wet down grass a few hours before applying.
Mites, Springtails (Collembote), Crickets, Cutworms, Digger Wasps, Earwigs, Frit Files, Lawn Billbugs, Leafhoppers,	6 ff. oz., per 1,000 sq. ft.	24 gals.	For ants and digger wasps, spot spray ant hills and wasp ground nest openings. For digger wasps, apply at dusk, when wasps are not acrive.
Sod Webworms (Lawn Moths), Sowbugs (Pillbugs)			Billibug control: Apply when activity is first observed or when chewed or brown grass is present indicating damage from the insect.
			For frit flies, m., / grass and water thoroughly before treatment, but delay application until grass is dry.
Brown Dog Ticks, Chiggers, Fleas	1 V2 tablespoons per 125 sq. ft. or	3 gals.	NOTE: Do not apply this product to animals.
	6 ff. oz. per 1,000 sq. ft.	24 gais	For brown dog ticks, spray grass and under shrubbery, particularly near house.
Hyperodes Weevil	1 1/2 tablespoons per 125 sq. ft. or	3 gats.	Treat problem areas in mid-April and again in mid-May. Water grass
	6 fl. oz. per 1,000 sq. fl.	24 gals.	thoroughly after application.
Millipedes	11/2 tablespoons per 125 sq. ft. or	3 gais.	Thoroughly wet grass a few hours hefore applying.
	6 fl. oz. per 1,000 sq. R.	24 gals.	
Rhodesgrass Scales	1 1/2 tablespoons per 125 sq. ft. or	3 gels.	Apply when crawlers first emerge.
	6 fl. az. per 1,000 sq. ft.	24 gals	
White Grubs of Japanese Bootle, European Chaler,	1 1/2 tablespoons per 125 sq. ft. or	3 gels	Apply any time between late July and early , October Weter grass
Southern Chaler	6 fl. oz. per 1,000 sq. fl.	24 gals	shoraughly after authoracy

* Nulsance Pasts Outside the Home

Arts, Bendder Bugs, Brown Dag Tiste, Chippers, Clever Miss, Cockessine, Cristots, Earwigs, Pleas, Files, Millipedes, Scribugs (Pilbugs), Spiders, Springtells	Mix 6 ft. ex, in 3 gats, of water and thereughly spray window and deer screens, alls, foundations, perch and patie walls, encounseways, walls, garbage cans, tree trunks, and into cracks and other places where insects can hide.
(Calambola)	To prevent entry into houses, apray a five-foot band of soil around the house next to the foundation and apray the foundation of the house to a height of 2-3 fest. Report application as necessary.
	Do not treet enimals with this product, Do not treat plants (other then tree trunks) at this nulsance past rate.
Fire Ants	To aid in the control of fire arts in home lewns and other outdoor home recreation areas, apply 2 tablespoons in a minimum of 1 gal, of water as a drench. Apply over and 6 inches around each mound. Apply gently to avoid disturbing arts. Reapply as necessary. Larger quantities of solution can be prepared for multiple mound treatments. Use equipment capable of delivering the diluted product as a gentle rain at the rate of 1 gal, per mound. High pressure sprays may disturb the arts and cause migration, reducing product effectiveness.
)	NOTE: For best results, apply in cool weather 65-80°F, or in early morning or late evening hours. Treat new mounds as they appear.

Insect Control on Ornamental Trees, Shrubs and Flowers

Trees and Shrubs Arborvitae, Azaleas, Birch, Boxwood, Camellies, Douglas Fiz, Elm, Herwhyrn, Holly, Junipar, Lifac, Locust, Maple, Mimoso, Oelt, Pine, Ornamental Plum, Popter, Rhododengron, Spruce, Willow	Insects Aphids.
