

encompass crack and crevice treatment by applying small amounts of material directly into openings leading to voids and hollow spaces in walls, equipment legs and bases or which occur at points between different elements of construction or between equipment and floors. Equipment capable of delivering a pin stream of insecticide should be used. Repeat treatment as needed but not more often than once every 7 days in restaurants and similar food service establishments or more often than once every 14 days in other types of food handling establishments.

In case of emergency (call back), SECURITY PRO-TECT may be applied after 2 days from the last treatment, but emergency use should be limited to once per month.

APPLICATION OF THIS PRODUCT IN FOOD HANDLING ESTABLISHMENTS OTHER THAN AS A SPOT AND/OR CRACK AND CREVICE TREATMENT IS NOT PERMITTED

FOR CONTROL OF CARPET BEETLES - Thoroughly apply as a spray for spot treatment along baseboards and edges of carpeting, under carpeting, rugs and furniture, in closets and on shelving and wherever else these insects are seen or suspected.

FOR CONTROL OF FLEAS AND BROWN DOG TICKS - Thoroughly apply as a spray for spot treatment to infested areas such as pet beds and resting quarters, nearby cracks and crevices, along and behind baseboards, window and door frames and localized areas of floor and floor covering where these pests may be present. Old bedding of pets should be removed and replaced with clean, fresh bedding after treatment of pet area. **DO NOT TREAT PETS WITH THIS PRODUCT.** Pets should be treated for fleas and ticks with a product registered for animal application to control the source of the flea infestation.

PESTS OUTDOORS

Flies, Mosquitoes, Outdoors - For outdoor use only as an aid in reducing annoyance from these insects. Spray outdoors on walls, curtains, doors, window frames and other places where they may enter the room. Also treat sink, drain and garbage disposal, and other areas and other utility areas with this product. Do not spray on food preparation areas.

Ants, Brown Dog Ticks, Crickets, Fleas and Earwigs Outdoors - For treatment of a pest infestation outdoors, spray on areas where these pests are seen or suspected. Do not spray on food preparation areas. Thoroughly spray and wash down areas after applications as infestation warrants and as infestation subsides.

DISPOSAL

Do not reuse empty container. Wrap container and put in trash collection.

NOTICE: The seller makes no implied warranty of merchantability nor any other warranty with this and beyond the description on this label.

Pro-Tect Home Pest Control

ACTIVE INGREDIENTS:

Chlorpyrifos [0,0-diethyl 0 (3,5,6 trichloro-2-pyridyl) phosphorothioate]*	0 50%
Xylene range aromatic solvent	0 33%

INERT INGREDIENTS:

EPA Reg. No. 769-507	EPA Est. 769 GA 1	Total 100 00%
*U. S. Patent No. 3,244,586		

KEEP OUT OF REACH OF CHILDREN.

CAUTION

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger. Do not give anything by mouth to an unconscious person. Get medical attention.

IF ON SKIN: In case of contact, remove contaminated clothing and immediately wash skin with plenty of soap and water.

IF IN EYES: Flush eyes with plenty of water.

NOTE TO PHYSICIAN: Chlorpyrifos is a cholinesterase inhibitor. Treat symptomatically. Atropine may be indicated as an antidote.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS

Avoid contact with eyes, skin and clothing. Avoid breathing vapors or spray mist. Keep away from food, feedstuffs and domestic water supplies. Wash thoroughly after handling.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not contaminate water by cleaning of equipment or disposal of waste.

PHYSICAL OR CHEMICAL HAZARDS

Do not store below 32°F

USE DIRECTIONS

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

PEST INDOORS

GENERAL INFORMATION: Use SECURITY PRO-TECT to control the pests indicated in the areas listed below by application of the product as an undiluted spray (0.5% chlorpyrifos). Repeat the treatment as needed.

Do not apply sprays of this product in conduits, motor housing, junction and switch boxes or other electrical equipment because of possible shock hazard. Do not allow spray to contact food, feedstuffs and water supplies. Thoroughly wash dishes and food-handling utensils with soap and water if they become contaminated by application of this product. Do not allow children or pets to contact treated surfaces until spray has dried. Remove pets and cover fish bowls (tanks) before spraying.

RESIDENTIAL BUILDING (including homes and apartment buildings and within nonfood areas of industrial, institutional and commercial buildings including hospitals, stores, manufacturing plants and warehouses): **FOR SPOT TREATMENT ONLY** - Apply as a coarse spray or with a paint brush to localized areas where cockroaches (including strains resistant to certain other insecticides), ants, clover mites, crickets, firebrats, silverfish, and spiders are found or normally occur including dark corners of rooms and closets, cracks and crevices in walls, along and behind baseboards, beneath and behind sinks, stoves, refrigerators and cabinets, around plumbing and other utility installations. For ants apply to ant trails, also around doors and windows or wherever else these pests may find entrance.

NOTE: A period of 4 to 7 days is normally required for maximum effect on cockroaches.

FOOD HANDLING ESTABLISHMENTS (places other than private residences in which food is held, processed, prepared or served) including, but not limited to restaurants, grocery stores, bakeries, bottling plants, canneries and grain mills: Use as a spot treatment in and around both food and nonfood areas to control cockroaches (including strains resistant to certain other insecticides), ants, crickets, firebrats, silverfish, spiders and stored product insects such as confused flour beetles, saw toothed grain beetles, Indian meal moths, rice weevils, Mediterranean flour moths and red flour beetles. Apply as a coarse, low-pressure (20 psi or less) spray to localized areas. Do not introduce the spray into the air or allow the spray to contact food or food-contacting surfaces. Areas treated may include dark corners of rooms and closets, along and behind baseboards, beneath and behind stoves, refrigeration units and similar food preparation areas and equipment, floor drains, and around plumbing and the other utility installations. For ants apply to ant trails and wherever these pests may find entrance. Spot treatment may
