Pg. 10/4

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

EcoHealth, Inc.
115 Broad Street
Boston, MA 02110

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is now being registered under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) provided in 7 U.S.C. 136.

1. Submit and/or cite all data required for registration of your product under FIFRA and 40 CFR 152.23(a)(5) and all registrations of similar products to which such data apply.

2. Make the labeling changes required by the Administrator and submit the following:

- a. A copy of the original label and a copy of the revised label.
- b. A copy of the original label and a copy of the revised label.
- c. A copy of the front and back panels of the original and revised labels.

- d. Since laboratory rodents are used for various "research" purposes, we suggest you add the following statement under the heading Note:

This product contains a pyrethroid insecticide which the caged animals may ingest or come into dermal contact with. Researchers should consider the possible effects of contact with this insecticide before using this product.

3. Submit five copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely yours,

George T. LaRocca

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Application instructions:

Place treated cotton directly in rodent cage to be treated. Use about 3 cotton balls or 3 inches of cotton for each rodent in the cage. Avoid wetting the cotton; to prevent cage flooding, care should be taken to place cotton away from the water bottle spout. Replace soiled cotton; it is recommended that fresh cotton be added weekly, at the time when other bedding is changed. Continue using the product for four to six weeks, or until mites or their eggs are no longer present in the fur of rodent. As mite eggs are not affected by this treatment, extended use of the product (until eggs are no longer present) will provide greater long-term control and prevent reinfestation.

STORAGE AND DISPOSAL

Store at room temperature. Do not contaminate water, food or feed by storage and disposal.

Unused and soiled cotton is biodegradable and may be safely disposed of with other bedding (such as wood chips, shavings, etc.) or refuse. Soiled cotton may be autoclaved or incinerated.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS & DOMESTIC ANIMALS

Avoid contact with eyes and skin. Chronic exposure to skin may cause dermal irritation or tingling. Wash thoroughly with soap after handling.

ENVIRONMENTAL HAZARDS

This product is extremely toxic to fish. Do not contaminate water by disposal.
