NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) provided that you:

1. Submit/cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.

2. Make the labeling changes listed below before you release the product for shipment:

a. Add the phrase "EPA Registration No. 56820-12."

b. You must provide the following information:

- (1) Density of product.
- (2) The certified limits for the bulking agent and for each. Reduce the range of these limits.
- (3) On the data matrix requirements, you must submit the Certification of Limits for the upper and lower limits of each individually added inert component.

- c. Within 14 months from this Notice, you must submit storage stability data on the formulated product, which must be analyzed for its active ingredient at time zero and during 1 year of storage. Note: For the storage stability study you cannot reference the concentrate you are using to formulate your product.
 - d. Change active ingredients to singular.
 - e. Your company street address should be included in your address on the labeling.

3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 5(a). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

~~WARNING:~~ May be fatal if inhaled. Harmful if absorbed through skin. Avoid inhalation of dust. Avoid contact with skin or eyes. Wash after handling and before eating or smoking.

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: Call a physician or Poison Control Center Immediately. Drink one or two glasses of water and induce vomiting by touching the back of throat with finger. Repeat until vomit fluid is clear. Do not induce vomiting or give anything by mouth to an unconscious or convulsing person.

IF INHALED: Remove victim to fresh air. Apply artificial respiration if necessary.

IF IN EYES: Flush with plenty of water. Get medical attention if irritation persists.

IF ON SKIN: Wash with soap and water. Remove contaminated clothing.

NOTE TO PHYSICIAN: If symptoms of cholinesterase inhibition are present, atropine sulfate is antidotal. 2-PAM is also antidotal and may be administered in conjunction with atropine.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds and other wildlife. Do not apply directly to water. Do not contaminate water by cleaning equipment or disposal of wastes. Apply this product only as specified on this label.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Shake well before using. Open nozzle by turning tip up. Keep nozzle closed when not in use. Squeeze container to expel dust in short, light cloud. Hold nozzle 2 to 4 inches from area to be treated.

SCREWORM TREATMENT: Treat infested wounds with light but thorough coverage. Be sure all parts of wound are completely coated. New wounds from docking, dehorning, etc. should be dusted at once with light uniform coat to avoid infestation. Repeat as necessary.

EAR TICK TREATMENT: Dust into ear and also treat the adjacent head area. Use short, sharp pressure on container. Repeat as necessary.

For external insecticidal use only on above-specified animals. Do not contaminate feed, troughs, water, or water utensils. Provide thorough ventilation while dusting. Use caution when dusting in area of face to avoid exposure to eyes.

STORAGE & DISPOSAL

Do not contaminate food, feedstuffs or water during storage. Store in original container, in cool locked storage area. Do not reuse container. Wrap container and dispose in trash collection.
