### USE DIRECTIONS

Apply **FRESH & CLEAN** to walls, floors and other hard surfaces such as tables, chairs and bed frames with a cloth or mop. For heavily soiled areas a preliminary cleaning may be required.

Cross infection is of major housekeeping concern not only in hospitals, but in schools, institutions, and industry. **FRESH & CLEAN** is formulated for this problem area. It both cleans and disinfects effectively and is virucidal when used as directed. Its hard surface disinfecting action will reduce the hazard of cross infection.

Two ounces of **FRESH & CLEAN** per gallon of water will deodorize bathrooms, garbage storage areas, and other areas where bacteria growth can cause nuisances.
