US ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (TS-767) WASHINGTON, DC 20460	EPA REGISTRATION NO.	DATE OF ISSUANCE
	56985-3	
	TERM OF ISSUANCE	
NOTICE OF PESTICIDE: <input checked="" type="checkbox"/> REGISTRATION <input type="checkbox"/> REREГИSTRATION (Under the Federal Insecticide, Fungicide and Rodenticide Act, as amended.)	NAME OF PESTICIDE PRODUCT DISINFECTANT	
	NAME AND ADDRESS OF REGISTRANT (Include ZIP Code)	
[] [] [] []		
NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.		
On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.		
A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.		
Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.		
This product is conditionally registered in accordance with all the provisions of (7)(C) provided that you:		
1. Submit/date all data required for registration/reregistration of your product under FIFRA section 3(c)(5) (even the Agency requires of registrants of similar products to submit such data).		
2. Add the phrase "EPA Registration No. 56985-3" to your label before you release the product for shipment.		
3. Submit five (5) copies of your label printed in ink before you release the product for shipment. Refer to the 4-73 label for information regarding the final printed labeling.		
If the registrant is not an individual, the registrant shall submit to the Administrator a special label with the name of the registrant and the name of the person to whom the special label is to be submitted.		
Submitting a label to the Administrator is not a condition of registration.

AQUA-GUARD D20

ACCEPTED
STATEMENTS
Date: 02 1987

ACTIVE INGREDIENT:

Potassium dimethyldithiocarbamate

INERT INGREDIENTS

This product contains 1.81 lb. of active ingredient per gallon and weighs 9.05 lb. per gallon.

EPA Reg. No. 56985-3 20.0% 80.0%

KEEP OUT OF REACH OF CHILDREN
DANGER

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Corrosive. Causes eye and skin damage. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Avoid contamination of food. Wear goggles or face shield and rubber gloves when handling. Wash thoroughly after handling.

STATEMENT OF PRACTICAL TREATMENT: In case of skin contact, wash with plenty of soap and water. Remove contaminated clothing and wash before reuse. If product gets in the eyes, flush immediately with copious amounts of clean, cool water for at least 15 minutes. Get medical attention immediately. If product is swallowed, promptly drink 1 or 2 glasses of water. Contact a physician or Poison Control Center immediately. DO NOT INDUCE VOMITING.

Note to physician: Probable mucosal damage may contraindicate gastric lavage.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Do not apply in marine and/or estuarine oil fields. Do not discharge effluent containing this active ingredient into lakes, streams, ponds, estuaries, oceans, or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

AQUA-GUARD D20 is used in industrial cooling tower systems and industrial air-washing systems. Prior to the use of AQUA-GUARD D20 in recirculating cooling tower systems, systems should be cleaned to remove bacterial slime and other deposits. Then make 8.6 fl. oz. of AQUA-GUARD D20 per 100 gal. of water (15 to 45 ppm AQUA-GUARD D20) for 30 to 45 days or as needed. The frequency of addition depends on the severity of the microbiological problem in the sump of recirculating cooling tower systems.

AQUA-GUARD D20 is used in industrial water systems to maintain effective mist-eliminating components. Prior to the use of AQUA-GUARD D20 to clean to remove bacterial slime and other deposits from the sump of recirculating cooling tower systems, systems should be cleaned to remove bacterial slime and other deposits. Then make 17.2 fl. oz. of AQUA-GUARD D20 per 100 gal. of water (10.0 to 17.2 fl. oz. of AQUA-GUARD D20 per 100 gal. of water) for 1 to 5 days, or as needed. Repeat initial dosage until control is effected. Additions may be made to the sump or the water column.

AQUA-GUARD D20 is used to control bacteria, including sulfate-reducing organisms, in waterflooding operations. In systems fouled with microorganisms, AQUA-GUARD D20 should be added as a slug treatment (20 to 40 ppm (2.38 to 4.76 fl. oz. per 100 gal. of water treated). This should be followed by a continuous concentration of 20 ppm, based on total weight of water, employing a chemical feed system and continuous addition of AQUA-GUARD D20 to the heater-treater dump, gathering lines, or receiving tank upstream to the filter.

AQUA-GUARD D20 is also used to control bacteria in water-based drilling muds, completion fluids, based drilling fluids containing starch, gums, sugars, and other solids. For these purposes AQUA-GUARD D20 is added at a rate of 0.17 to 0.29% (0.17 to 0.29 gal per 100 barrels of fluid).

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal. STORAGE: Do not expose to extreme temperatures. Do not stack drums should be placed in overpack drums for disposal. Spills should be cleaned up and disposed of in a sanitary landfill. Keep container closed when not in use.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Do not reuse or reuse in a violation of Federal Law. If these wastes cannot be disposed of by the above procedures, contact your State Pesticide or Environmental Control Agency or your EPA Regional Office for guidance.

CONTAINER DISPOSAL:

- PLASTIC: Triple rinse (or equivalent). Then offer for recycling or reuse, or for disposal in a sanitary landfill, by incineration, or, if allowed by state and local authorities, by other procedures approved by state and local authorities.
- METAL: Triple rinse (or equivalent). Then offer for recycling or reuse, or for disposal in a sanitary landfill, or by other procedures approved by state and local authorities.
