Diana Williams Agent Eau Claire Co-Op Oil Co. 10680 Hampshire Ave. S. #228 Bloornington, MN 55438

Dear Ms. Williams:

Subject: Notification of the alternate brand name "AWARD Turf Fertilizer with 0.067% Acelepryn" and of minor labeling changes Acelepryn Insecticide Plus AWARD Turf Fertilizier EPA Registration No. 57131-2 Submission Date: April 12, 2012

The Agency is in receipt of your Application for Pesticide Notification under Pesticide

Registration Notice (PRN) 98-10 dated April 12, 2012, for the product Acelepryn Insecticide Plus

AWARD Turf Fertilizier, EPA Reg. # 57131-2. The Registration Division (RD) has conducted a review

of this request for its applicability under PRN 98-10 and finds that the action requested falls within the

scope of PRN 98-10. The label submitted with the application has been stamped "Notification" and will

be placed in our records.

If you have any questions, please call me directly at 703-347-0156 or urbanski.jennifer@epa.gov.

Sincerely yours,

Jennifer Urbanski, Ph.D. Insecticide-Rodenticide Branch Registration Division (7505P)

Diana Williams Regulatory Consulting

April 12, 2012

Ms. Venus Eagle Product Manager 1 Insecticide-Rodenticide Branch Registration Division (7504P) Document Processing Desk (NOTIF) U.S. EPA – OPP 1200 Pennsylvania Ave. NW Washington, DC 20460

Subject:

Acelepryn® Insecticide Plus AWARD Turf Fertilizer EPA Reg. No. 57131-2 Notification of Alternate Brand Name, Removal of Redundant Statements, and Simplification of Fertilizer Analysis Placeholder

Enclosed are a Notification of Amendment to the subject Eau Claire Co-Op Oil Company • registration, one copy of revised labeling with revisions highlighted and one copy of revised labeling with the highlights removed.

We are proposing an alternate brand name of "AWARD Turf Fertilizer with 0.067% Acelepryn®", for the subject product. The alternate brand name has been placed in brackets on the enclosed labeling, next to the primary brand name. We are also proposing the alternate use of the term "this product" in place of the product name, within the body of the label. "This product" has also been noted, in brackets, on the enclosed labeling.

We have also taken this opportunity to remove the following redundant statements from the label:

• The "Group 98 Insecticide" notation that appeared on the front panel. That information is repeated in a paragraph on page 4 of the label.

• The "Restriction" statements that appeared above and below Table 1 and below Table 2, but which also appeared within the list of Restrictions on page 7 of the label. (Please note that one of the restrictions that appeared below Table 1, "Do not apply more than 300 lbs. per acre in a single application" was missing "on sod farms" at the end of the sentence. The correctly stated sod farm restriction appeared in the original list of Restrictions on page 7 and has been left there.)

• The words "Spreaders and setting" from the second line of the Spreader Settings box on page 6 of the label, since that is essentially what the box heading says.

To keep all the Restrictions together, we moved the restriction "The maximum yearly use on lawns, golf course, turfgrass and sod farms is 750 pound per acre" from beneath Table 1 to the list of Restrictions on page 7.

> 10680 Hampshire Avenue South, # 228, Bloomington, MN 55438 Phone: 425-293-8879 Email: dgwregcons@yahoo.com

Ms. Venus Eagle

Page 2 of 2

We added the note "Hot Line Number" to the label section on page 2 that will list an 800 number for emergencies and also inserted the word "product" before "container" and inserted a "for" before "emergency" to correct the grammar. We also corrected the grammar in the last statement of the New York State restrictions by removing the first "a" from the sentence that read: "Do not apply this product within a 100 feet of a water body ...". We corrected a typographical error in Table 1 by changing the "0.15 to 0.3" Lb. AI per Acre for Annual bluegrass weevil and spittlebugs to "0.15 to 0.2" Lb. AI per Acre.

We moved the fertilizer analysis statement section from the back panel to the front panel and also simplified the information in the fertilizer analysis placeholder box. The analyses will vary depending upon the nutrients selected for inclusion, which will then be appropriately noted in a manner as regulated by State agencies.

We also noted that the Batch Code will appear either on the product label or elsewhere on the product's container.

No other revisions were made to the labeling as originally accepted by the Agency on April 27, 2011.

If there are any questions regarding this Notification, please do not hesitate to contact me.

Sincerely,

Deana Willeam

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION! Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or using tobacco.

	FIRST AID
lf In Eyes:	 Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
et in the second	Call a poison control center or doctor for treatment advice.
center or	Number: Have the product container or label with you when calling a poison control doctor, or going for treatment. You may also contact 1-800-xxx-xxxx for emergency information.

PERSONAL PROTECTIVE EQUIPMENT

Applicators and other handlers must wear:

- Long-sleeved shirt and long pants
- Shoes plus socks

After the product has been loaded into properly calibrated application equipment, shirt, pants, socks, and shoes are sufficient Personal Protective Equipment. Follow manufacturer's instructions for cleaning/maintaining personal protective equipment (PPE). If no such instructions for washables are available, use detergent and hot water. Keep and wash PPE separately from laundry.

USER SAFETY RECOMMENDATIONS

USERS SHOULD: Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to aquatic invertebrates, oysters and shrimp. Do not apply directly to water. Drift and runoff may be hazardous to aquatic organisms in water adjacent to use sites. Surface Water Advisory: This product may impact surface water quality due to runoff of rain water. This is especially true for poorly draining soils and soils with shallow ground water. This product is classified as having a high potential for reaching surface water via runoff for several months or more after application. A level, well-maintained vegetative buffer strip between areas to which this product is applied and surface water features such as ponds, streams, and springs will reduce the potential loading of chlorantraniliprole from runoff water and sediment. Runoff of this product will be reduced by avoiding applications when rainfall is forecasted to occur within 48 hours.

Ground Water Advisory: This chemical has properties and characteristics associated with chemicals detected in ground water. This chemical may leach into ground water if used in areas where soils are permeable particularly where the water table is shallow.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Read and understand the entire label before using this product.

Acelepryn® Insecticide Plus AWARD Turf Fertilizer [AWARD Turf Fertilizer with 0.067% Acelepryn®] [This product] must be used only in accordance with specifications on this label or in separate supplemental labeling that may be made temporarily available through Eau Claire Co-op Oil Co., as a result of new EPA approvals.

AGRICULTURAL USE REQUIREMENTS

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR part 170. This standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on the label about personal protective equipment, restricted-entry interval, and notification to workers (as applicable).

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the State or Tribal agency responsible for pesticide regulation.

Do not enter or allow worker entry into treated areas during the restricted entry interval (REI) of 4 hours. 'For early entry into treated areas that is permitted under the Worker Protection Standard and that involve contact with anything that has been treated, such as plants, soil, or water, wear:

Long-sleeved shirt and long pants

Shoes plus socks

NON-AGRICULTURAL USE REQUIREMENTS

The requirements in this box apply to uses of this product that are not within the scope of the Worker Protection Standard for agricultural pesticides, 40 CPR part 170. The WPS applies when this product is used to produce agricultural plants on farms, forests, nurseries or greenhouses.

Professional applications to golf courses, residential, industrial and commercial lawns and sports fields are not within the scope of the Worker Protection Standard.

Do not allow other workers to enter the treated area while application is in progress.

PRODUCT INFORMATION

Acelepryn® Insecticide Plus AWARD Turf Fertilizer [AWARD Turf Fertilizer with 0.067% Acelepryn®] may be applied for the control of white grubs and other listed pests infesting

33333 33333 33333

0.0

landscape and recreational turfgrass (including golf courses) as well as landscape ornamentals and interior plantscapes.

Acelepryn® Insecticide Plus AWARD Turf Fertilizer [AWARD Turf Fertilizer with 0.067% Acelepryn®] [This product] may be used on plants or on turfgrasses that are being grown for aesthetic or recreational purposes or climatic modification in or around home lawns, commercial lawns, industrial facilities, residential dwellings, business and office complexes, shopping complexes, multifamily residential complexes, institutional buildings, airports, cemeteries, interior plantscapes, ornamental gardens, parks, wildlife plantings, playgrounds, schools, day-care facilities, golf courses (tee box areas, roughs, fairways, greens, collars, etc.), athletic fields, sod farms and other landscaped areas.

Do not apply Acelepryn® Insecticide Plus AWARD Turf Fertilizer [AWARD Turf Fertilizer with 0.067% Acelepryn®] [this product] when the soil is saturated with water because adequate distribution of the active ingredient vertically in the soil profile cannot be achieved under this condition.

Acelepryn® Insecticide Plus AWARD Turf Fertilizer [AWARD Turf Fertilizer with 0.067% Acelepryn®] [This product] is in GROUP 28 of the EPA's Insecticide and Acaricide Groups Based on Target Site of Action (EPA PR Notice 2001-5) and may be used in rotational resistance management programs. Consult your local Eau Claire Coop Oil Co. products representative, Cooperative Extension Service specialist or pest control advisor for regionally specific information regarding application timing.

APPLICATION EQUIPMENT

Apply Acelepryn® Insecticide Plus AWARD Turf Fertilizer [AWARD Turf Fertilizer with 0.067% Acelepryn®] [this product] with drop-type, rotary-type or hand-held application equipment. The application equipment must be properly calibrated according to the manufacturer's directions to ensure uniform coverage over the treated area. During application, check equipment periodically to confirm that it is working properly and that the granules are being uniformly distributed. See Granules Spreader Settings Section.

APPLICATION TIMING

<u>White Grubs:</u> Apply Acelepryn® Insecticide Plus AWARD Turf Fertilizer [AWARD Turf Fertilizer with 0.067% Acelepryn®] [this product] from early April to early September for preventative and early curative control of all of the major white grub species infesting turfgrass. The need for an application may be based on historical monitoring of the site, previous records or experiences, current season adult trapping or other methods. The higher rate listed for white grub control in Table 1 may be required [for early season (April and May) applications where a long residual is required] or in late August or early September when less sensitive mid-instar grubs are present at the time of application. Irrigate turf immediately after application or allow rainfall to move the product into the soil.

Annual Bluegrass Weevil: Apply Acelepryn® Insecticide Plus AWARD Turf Fertilizer [AWARD Turf Fertilizer with 0.067% Acelepryn®] [this product] when overwintered adult annual bluegrass weevils are observed in late April or early May to prevent damage from first generation larvae in late-May and June. An application of Acelepryn® Insecticide Plus AWARD Turf Fertilizer [AWARD Turf Fertilizer with 0.067% Acelepryn®] [this product] at this time will also provide white grub control. The higher rates listed in Table 1 may be required for applications made after mid-May.

<u>Billbugs:</u> Apply Acelepryn® Insecticide Plus AWARD Turf Fertilizer [AWARD Turf Fertilizer with 0.067% Acelepryn®] [this product] when overwintered adult bill bugs are first observed. This will

usually occur in late April or early May in regions with cool-season turfgrasses. An application at this time will also provide white grub control. The higher rates listed in Table 1 may be required for applications made after early May or when billbug species other than bluegrass billbug are present.

<u>European Crane Fly:</u> Apply Acelepryn[®] Insecticide Plus AWARD Turf Fertilizer [AWARD Turf Fertilizer with 0.067% Acelepryn[®]] [this product] between September and November to control European crane fly larvae in turfgrass. The higher rate listed in Table 1 may be required to achieve control when applications are made in November.

<u>Spittlebugs:</u> Acelepryn® Insecticide Plus AWARD Turf Fertilizer [AWARD Turf Fertilizer with 0.067% Acelepryn®] [This product] will provide control of two-lined spittlebug when applications are made in spring or summer.

<u>Turf Caterpillars:</u> Acelepryn® Insecticide Plus AWARD Turf Fertilizer [AWARD Turf Fertilizer with 0.067% Acelepryn®] [This product] will provide curative caterpillar control in turfgrass. If the area being treated is maintained at a mowing height of greater than one inch, then the higher rate listed in Table 1 may be required during periods of high pest pressure.

<u>Chinch Bugs</u>: For suppression of chinch bugs, apply Acelepryn® Insecticide Plus AWARD Turf Fertilizer [AWARD Turf Fertilizer with 0.067% Acelepryn®] [this product] before eggs hatch.

APPLICATION RATES FOR LAWNS, GOLF COURSES AND OTHER RECREATIONAL TURFGRASS AREAS, INCLUDING SOD FARMS.

Table 1 provides the application rates that will control the listed turfgrass pests. For maximum residual effectiveness or for optimal control of large pest infestations, apply Acelepryn® Insecticide Plus AWARD Turf Fertilizer [AWARD Turf Fertilizer with 0.067% Acelepryn®] [this product] at up to 500 pounds per acre (0.33 lb. A.I. / A to control any of the pests listed in Table 1. Restriction: Do not apply more than 750 pounds (equivalent to 0.5 lb. of active ingredient) of product per acre, per year in broadcast applications to turfgrass.

Target Pest	Product per Acre	Product per 1,000 sq. ft.	Lb. A.I. per Acre
White Grubs (including <i>Aphodius</i> spp., Asiatic garden beetle, Black turfgrass ataenius, European chafer, green June beetle, Japanese beetle, May/June beetles (<i>Phyllophaga</i> spp.), northern masked chafer, oriental beetle and southern Masked chafer) Billbugs European Crane Fly Turf caterpillars,(including armyworms, cutworms and sod webworms)	150 to 300 pounds	3.44 to 6.88 pounds	0.1 to,0:2°,
Annual bluegrass weevil Spittlebugs	225 to 300 pounds	5.17 to 6.88 pounds	0.15 to 0.3 0.2
Chinch bugs (suppression	150 to 300 pounds	3.44 to 6.88 pounds	0.1 to 0.2

TABLE 1: TURFGRASS APPLICATION RATES

only)			
Restriction: Do not apply m	pre than 300 lbs per	cacre in a single applica	tion The maximum

yearly use on lawns, golf courses, turfgrass and sod farms is 750 pounds per acre.

APPLICATION RATES FOR ORNAMENTAL PLANTS

TABLE 2 provides the application rates that will control the pests of landscape ornamentals and interior plantscapes. Before application, remove black plastic or other weed barrier materials that are impermeable to water. For maximum residual effectiveness or for optimal control of large pest infestations, Acelepryn® Insecticide Plus AWARD Turf Fertilizer [AWARD Turf Fertilizer with 0.067% Acelepryn®] [this product] may be applied at up to 500 pounds per acre (0.33 lb A.I. per Acre) to control any of the pests listed in Table 2.

TABLE 2: ORNAMENTAL TREE & SHRUB (INCLUDING EVERGREENS), FLOWER, FOLIAGE PLANTS AND GROUNDCOVER APPLICATION RATES

Target Pest	Product per Acre	Product per 1,000 sq. ft.	Lb. A.I. per Acre
White Grubs (Asiatic garden beetle, European chafer, green June beetle, Japanese beetle, May/ June beetles (Phyllophaga spp.), northern masked chafer, oriental beetle and southern Masked chafer)	150 to 300 pounds	3.44 to 6.88 pounds	0.1 to 0.2

Restriction: Do not apply more than 750 pounds (equivalent to 0.5 lb. of active ingredient) of product per acre per year in broadcast applications to ornamental plants.

[Following are optional referral statements for Florida BMP information sources] [In the State of Florida, it is recommended that the user of this product follow the Green Industries and Golf Course Best Management Practices Found at: 2000 http://.www.dep.state.fl.us/water/nonpoint/docs/nonpoint/BMP Book final.pdf http://www.dep.state.fl.us/water/nonpoint/docs/nonpoint/glfbmp07.pdf]

CLEANING APPLICATION EQUIPMENT

Thoroughly clean all application equipment after use to reduce the risk of forming hardened deposits that might become difficult to remove. Thoroughly rinse application equipment with clean water. Clean all other associated application equipment. Take all necessary safety precautions when cleaning equipment. Do not clean equipment near wells, or other water sources. Dispose of waste rinse water in accordance with local regulations.

2222

INTEGRATED PEST MANAGEMENT (IPM) PROGRAMS

Acelepryn® Insecticide Plus AWARD Turf Fertilizer [AWARD Turf Fertilizer with 0.067% Acelepryn®] [This product] is recommended for IPM programs on turf and landscape ornamentals because it does not directly impact natural arthropod predator and parasitoid populations including ladybird beetles, lacewings, minute pirate bugs and predatory mites. The feeding behavior of beneficial arthropods will aid in extending natural control of other insect and mite pests and will reduce the possibility of secondary pest outbreaks. Acelepryn® Insecticide Plus AWARD Turf Fertilizer [AWARD Turf Fertilizer with 0.067% Acelepryn®] [This product] will reduce the target pest species that may serve as a food source for beneficial arthropods.

RESISTANCE MANAGEMENT

Some insects are known to develop resistance to products used repeatedly for control. When this occurs, the labeled dosages fail to suppress the pest population below threshold levels. Because the development of resistance cannot be predicted, the use of this product should conform to resistance management strategies established for the use area. These strategies may include incorporation of cultural and biological control practices, alternation of active classes of insecticides on succeeding generations and targeting the most susceptible life stage. Consult your Eau Claire Co-op Oil Co. representative, or a Cooperative Extension Service Specialist pest control advisor for the latest information on resistance management in your area.

RESTRICTIONS

- Not for use on plants (except turfgrass on sodfarms) being grown for sale or other commercial use, or for commercial seed production
- Do not formulate this product into other end-use products without the written permission from Eau Claire Co-op Oil Company
- Do not apply this product in commercial nurseries and greenhouses
- Do not apply more than 750 pounds (equivalent to 0.5 lb. of active ingredient) of product per acre per year in broadcast applications to turfgrass or landscape ornamental plants

• Do not apply more than 300 pounds (equivalent to 0.2 lb. of active ingredient) of product per acre in a single application on sod farms. The maximum yearly use on lawns, golf courses, turfgrass and sod farms is 750 pounds per acre.

- Wait a minimum of 7 days to re-treat.
- Do not apply by air.

• The following restrictions are required to permit use of Acelepryn® Insecticide Blus AWARD Turf Fertilizer [AWARD Turf Fertilizer with 0.067% Acelepryn®] [this product] in the State of New York:

Golf courses:

Greens, tee boxes: Do not apply this product within 25 feet of a water body, (lake, pond, river, stream, wetland, or drainage ditch)

100000

0000

00

0000 0 0000

000000

Fairways: Do not apply this product within 50 feet of a water body (lake, pond, river, stream, wetland, or drainage ditch)

All other sites: Do not apply this product within a 100 feet of a water body, (lake, pond, river, stream, wetland, or a drainage ditch)

Regional Soil N-P-K fertilizer needs and requirements often vary when based on soil tests and analyses. This AWARD fertilizer product will be varied to supply those N-P-K needs.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal. **PESTICIDE STORAGE:** Store product in original container only in a location inaccessible to

children and pets. Do not contaminate water, other pesticides, fertilizer, food or feed in storage. Not for use or storage in or around the home.

PESTICIDE DISPOSAL: Do not contaminate water, food or feed by storage or disposal. Wastes resulting from the use of this product must be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available. Completely empty bag into application equipment. Then dispose of empty bag in a sanitary landfill or by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

NOTICE TO BUYER: Purchase of this material does not confer any rights under patents of countries outside of the United States. Acelepryn® is a trademark or registered trademark of E. I. Du Pont de Nemours and Company.

LIMITATION OF WARRANTY AND LIABILITY

NOTICE: Read this Limitation of Warranty Before buying or using this product. If the terms are not acceptable, return the product at once, unopened, and the purchase price will be refunded.
