

OCT 26 2000

Mr. Eugene L. Mitch
Contechem Incorporated
P. O. Box 3255
Portland, Oregon 97208

Attention: Mr. Mitch:

Subject: Revised Labeling for Britewood S. Sapstain Control
EPA Registration Number 57227-1
Response to Agency Letter Dated September 13, 2000
Amended Application Dated September 20, 2000

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. Three copies of the finished labeling must be submitted prior to releasing the product for shipment. A stamped copy is enclosed for your records.

If you have further questions, please contact LaVerne Dobbins at (703) 308-6378.

Sincerely,

Adam Heyward
Product Manager (34)
Regulatory Management Branch II
Antimicrobials Division (7510C)

BRITEWOOD® S

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

For the control of sapstain and mold on green or freshly cut lumber, BRITEWOOD S, is generally effective when used as a 15 second dip at a concentration of 2 fluid ounces per gallon of water. For severe conditions of ambient temperature and humidity, BRITEWOOD S may be used at up to 4 fluid ounces per gallon of water in a dip tank or spray application so as to uniformly wet all surfaces of the wood. Green wood should be treated within twenty-four hours of cutting or sawing.

In order to insure best results, the dipping tank must be protected from rain. The treated lumber should not be allowed to remain unprotected in heavy rains, especially just after treatment. Lumber piles should be roofed and adequate space should be left between boards and stacks. Green lumber should not be used for stickers.

ENVIRONMENTAL HAZARDS

Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your state Water Board or Regional Office of the EPA.

DISCLAIMER

The manufacturer and distributor make no warranty, express or implied, concerning the use of this product other than as directed on the label. This use of this product being beyond the control of the manufacturer or distributor, no warranty, express or implied, is made as to the effects of such or the results to be obtained if not used in accordance with directions or established safe practice. Upon acceptance of delivery of this product, the buyer assumes all responsibility, including injury or damage, resulting from its misuse as such, or in combination with other materials.
