US ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (75-767) WASHINGTON, DC 20460	EPA REGISTRATION NO. 57314-12	DATE OF ISSUANCE SEP 30 1988
	TERM OF ISSUANCE Until Reregistration	
	NAME OF PESTICIDE PRODUCT Ready-To-Use Residual Contact Spray II	
	NOTICE OF PESTICIDE: <input type="checkbox"/> REGISTRATION <input type="checkbox"/> REREGISTRATION (Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended)	

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

☐ INDUSTRIAL CHEMISTRY, Inc.
P.O. Box 13204
Nashville, TN 37207

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

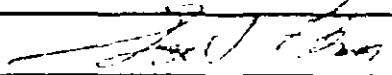

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) provided that you:

1. Submit/site all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Make the labeling changes listed below and not release the product for sale:
 - a. Add the phrase "EPA Registration No. 57314-12."
 - b. Delete the term "Professional Use Only." To avoid any implication of a higher concentration or greater potential of active ingredient not acceptable.
 - c. Since your data does not give a high rate breakdown value, you must add the following to the use directions:

Do not use this product in or near water.
Do not use this product in or near fish ponds.

- d. Add the following statement to the precautionary section of the labeling:

Do not use in commercial food processing preparation, food storage, or serving areas. In the home, all food processing surfaces and utensils should be covered during treatment or thoroughly washed before use. Exposed food should be covered or removed.

- e. Add a Storage and Disposal section as follows:

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

STORAGE: Store upright at room temperature. Avoid exposure to extreme temperatures. Keep out of reach of children.

PESTICIDE DISPOSAL: Securely wrap original container in several layers of newspaper and discard in trash.

CONTAINER DISPOSAL: Do not reuse empty container. Wrap container and place in trash collection.

- f. Under Directions for Use "General" add "For spot application only. Do not use as a space spray."

3. Based on the current Confidential Statement of Formula (CSF), dated December 14, 1987, your product will not meet the label claim for the active ingredient. Provide the upper and lower certified limits based on the pure active ingredients rather than the technical or concentrate. Note that the lower limit of the active must be the same as the label claim in pure active form. Please revise the label or CSF so the information agrees.

4. You indicate this product is ready to use. How does one apply the product? Is there a pump spray attachment that fits on the container head? Products intended for homeowner use should be marketed with some sort of pump spray attachment or reference should be made on the labeling informing the user of certain pump spray trigger heads that can be used with this product.

5. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

21/6

-3-

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals**CAUTION**

May be harmful if swallowed, inhaled or absorbed through skin. Avoid breathing spray mist and provide adequate ventilation of area being treated. Avoid contact with skin, eyes and clothing. In case of contact immediately flush skin and eyes with plenty of water. Wash thoroughly with soap and water after handling. If poisoning occurs, get prompt medical aid.

In the home do not spray food handling surfaces.

Remove pets, birds and cover fish aquariums before spraying. Do not allow humans or pets to contact treated surfaces until spray has dried.

Physical Hazards

Do not use or store near heat or open flame. /

DIRECTIONS FOR USE

SHAKE WELL BEFORE USE

It is a violation of Federal law to use this product

Do not use this product in a manner inconsistent with its labeling.

Do not use this product in or on electrical equipment due to the possibility of shock hazard.

General: Use this residual spray as a spot or crack and crevice treatment to control cockroaches, waterbugs, silverfish, ticks, fleas and other insects listed below. Apply this product as a coarse spray to localized areas where pests are found or may occur. Spray surfaces until wet. Repeat as needed.

FOR SPOT TREATMENT:

To Kill Ants, Cockroaches, Crickets, Silverfish, Spiders, Sowbugs, Carpet Beetles, Scorpions and Black Widow Spiders: Spray areas where these pests are found or may hide, including dark corners of rooms and closets; cracks and crevices in walls; along baseboards and door and window frames; behind and beneath sinks, stoves, refrigerators, and cabinets and around garbage cans, plumbing and other utility installations. Pests driven out of hiding places should be sprayed directly. For ants, apply to ant trails, also around doors and windows and wherever else these pests may find entrance. Repeat as necessary.

To Kill Brown Dog Ticks and Fleas: Thoroughly apply as a spot treatment to infested areas such as pet beds and resting quarters, nearby cracks and crevices, along and behind baseboards, window and door frames and localized areas of floor and floor coverings where these pests may be present. Old bedding should be removed and replaced with clean, fresh bedding after treatment. Do Not Spray Pets With This Product. Pets should be treated with a registered flea and tick product before reentering area.

FOR CRACK AND CREVICE:

To Kill Ants, Cockroaches, Crickets, Silverfish, Sowbugs, Spiders, Earwigs, Brown Dog Ticks, Fleas, Carpet Beetles, Dermestids, Scorpions, and Black Widow Spiders:
Apply spray in small amounts directly into cracks and crevices. A stream-like spray should be used in points between different elements of construction, between appliances and floors, openings leading to voids and hollow spaces in walls, equipment legs and bases where the above listed insects hide.

Care should be taken to avoid introducing the material into the air. Avoid contamination of food or food processing surfaces.

OUT OF DOORS:

Flies and Mosquitoes: Use only out of doors as an aid in reducing annoyance from these insects. Spray outside surfaces of window and door frames as well as other areas where these pests may enter the home. Also spray dark corners and localized resting places (such as under eaves) or porches, patios and garages where these insects may congregate. Flies and mosquitoes coming to rest on treated surfaces will be killed. Repeat treatment as necessary.
