NOTICE OF PESTICIDE: <input checked="" type="checkbox"/> REGISTRATION <input type="checkbox"/> REREGISTRATION (Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended)	NAME OF PESTICIDE PRODUCT hipochlor Tablets 200 g	

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Contract Chemicals  
 dba Patricia A. Associates, Inc.  
 1031 East Taylor Run Parkway  
 Alexandria, VA 22302

**NOTE:** Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7) and 3(c)(8).

1. Submit your data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires it; registrants of similar products to submit such data.

2. You must use "EPA Registration No. 57425-2" on your label when you release the product for shipment.

3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-77 enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 3(e). Your release for shipment of the product constitutes acceptance of these conditions.

A copy of the final label is enclosed for your records.

HYPOCHLOR TABLETS 200 gm

ACTIVE INGREDIENT

CALCIUM HYPOCHLORITE ..... 66%

INERT INGREDIENTS ..... 34%

KEEP OUT OF REACH OF CHILDREN

DANGER

STATEMENT OF PRACTICAL TREATMENT (FIRST AID)

If contact with eyes occurs, flush with cold water for at least 15 minutes. Get medical attention.

If contact with skin, brush off excess chemical and flush skin with cold water for at least 15 minutes. If irritation persists, get medical attention.

If swallowed, feed bread soaked in milk, followed by olive oil or cooking oil. Do not induce vomiting. Call a physician immediately.

(See additional precautions on side panel.)

Manufactured by  
CONTROL CHEMICALS LTD.  
D/B/A DEATRICK AND ASSOCIATES, INC.  
1013 E. Taylor Run Pkwy.  
Alexandria, VA 22302

EPA REG. NO. 57425-

EPA EST. NO. \_\_\_\_\_

Net Contents: 4 lbs. 2 oz. (2 kilograms) 200 gms/tablet

ACCEPTED  
with COMMENTS  
in EPA Letter Dated:

OCT 12 1988

Under the Federal Insecticide,  
Fungicide and Rodenticide Act  
as amended for the purpose of  
registration under FIFRA, the  
above-named pesticide has been  
found to comply with the  
requirements of the Act.

HYPOCHLOR TABLETS 200g

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin, or on clothing. Wear goggles or safety glasses and rubber gloves when handling this product. Irritating to the nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before resue.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not discharge into lakes, streams, ponds or public waterways unless in accordance with a NPDES permit. For guidance, contact the regional office of the U. S. Environmental Protection Agency.

PHISICAL OR CHEMICAL HAZARDS

STRONG OXIDIZING AGENT: Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter or other chemicals will start a chemical reaction and generate heat, chlorine gas, and possible fire or explosion. In case of contamination or decomposition, do not reseal container. If possible, isolate container in open air or well ventilated area. Flood area with large volumes of water, if necessary.

## HYPOCHLOR 200 gm TABLETS

### DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

#### SWIMMING POOL WATER DISINFECTION

For a new pool or spring start-up, superchlorinate by placing 2 to 3 HYPOCHLOR 200 gm (7.14 oz) TABLETS in a floating chlorinator every 4 days for each 10,000 gallons of water to yield 5 to 10 ppm available chlorine. Check chlorine residual with a suitable test kit, and adjust dosage as necessary. Adjust and maintain pool water pH to between 7.2 and 7.6. Adjust and maintain the alkalinity of the pool to between 50 to 100 ppm.

To maintain the pool, add 1 HYPOCHLOR 200 gm TABLET to a floating chlorinator for each 10,000 gallons of water to yield an available chlorine residual between 0.6 to 1.0 ppm. Check the free chlorine with a suitable test kit, to maintain the required chlorine residual. Stabilized pools should maintain a residual of 1.0 to 1.5 ppm available chlorine. Test the pH, available chlorine residual, and alkalinity of the water frequently with appropriate test kits. Frequency of water treatment will depend upon temperature and number of swimmers.

Every 7 days, or as necessary, superchlorinate the pool with 2 to 3 HYPOCHLOR (7.14 oz) TABLETS for each 10,000 gallons of water to yield 5 to 10 ppm available chlorine. Check the level of available chlorine with a test kit. Do not re-enter pool until the chlorine residual is between 1.0 to 3.0 ppm.

At the end of the swimming pool season or when water is to be drained from the pool, chlorine must be allowed to dissipate from treated water before discharge. Do not chlorinate the pool within 24 hours prior to discharge.

WINTERIZING POOLS-While water is still clear and clean, apply 1 HYPOCHLOR 200 gm TABLET per 10,000 gallons, while filter is running to yield approximately 3 ppm available chlorine, as determined by a suitable test kit. Cover pool, prepare heater, filter and heater components for winter by following manufacturer's instructions.
