NOTICE OF PESTICIDE: <input checked="" type="checkbox"/> REGISTRATION <input type="checkbox"/> REREGISTRATION <i>(Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended)</i>	NAME OF PESTICIDE PRODUCT VORTEX WA 32G	

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Vortex Laboratories Inc.
 2079 South 31st Street
 West Allis WI 53217

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

The registrant is advised that the registration of a pesticide is subject to the following conditions:

1. The registrant shall submit to the Agency, at the time of registration/reregistration, the following information: (a) the name of the registrant; (b) the name of the pesticide; (c) the name of the Agency; (d) the name of the registrant's principal office; (e) the name of the registrant's principal office in the State of the registrant; (f) the name of the registrant's principal office in the country of the registrant; (g) the name of the registrant's principal office in the country of the registrant; (h) the name of the registrant's principal office in the country of the registrant; (i) the name of the registrant's principal office in the country of the registrant; (j) the name of the registrant's principal office in the country of the registrant; (k) the name of the registrant's principal office in the country of the registrant; (l) the name of the registrant's principal office in the country of the registrant; (m) the name of the registrant's principal office in the country of the registrant; (n) the name of the registrant's principal office in the country of the registrant; (o) the name of the registrant's principal office in the country of the registrant; (p) the name of the registrant's principal office in the country of the registrant; (q) the name of the registrant's principal office in the country of the registrant; (r) the name of the registrant's principal office in the country of the registrant; (s) the name of the registrant's principal office in the country of the registrant; (t) the name of the registrant's principal office in the country of the registrant; (u) the name of the registrant's principal office in the country of the registrant; (v) the name of the registrant's principal office in the country of the registrant; (w) the name of the registrant's principal office in the country of the registrant; (x) the name of the registrant's principal office in the country of the registrant; (y) the name of the registrant's principal office in the country of the registrant; (z) the name of the registrant's principal office in the country of the registrant.
2. All labels, notices, EPA Registration No. 57583-5 to your label before you place the product on the market or ship it.
3. Submit five (5) copies of your final product labeling to the Agency for review and approval. The Agency will return the labeling to you if it is approved. If the Agency disapproves the labeling, you must submit a new labeling to the Agency within 90 days of the date of the Agency's disapproval. If you do not submit a new labeling within 90 days, the Agency will cancel the registration of the product. You must also submit a copy of the labeling to the Agency at the time of registration/reregistration.

A copy of the labeling accepted in connection with this registration/reregistration is returned herewith.

VORTEX WA826

ACTIVE INGREDIENT:

Potassium dimethyldithiocarbamate 20.0 %

INERT INGREDIENTS 80.0 %

This product contains 1.81 lb. of active ingredient per gallon and weighs 9.05 lb. per gallon.

**KEEP OUT OF REACH OF CHILDREN
DANGER**

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

DANGER: Corrosive. Causes eye and skin damage. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Avoid contamination of food. Wear goggles or face shield and rubber gloves when handling. Wash thoroughly after handling.

STATEMENT OF PRACTICAL TREATMENT: *In case of skin contact*, wash with plenty of soap and water. Remove contaminated clothing and wash before reuse. *If product gets in the eyes*, flush immediately with copious amounts of clean, cool water for at least 15 minutes. Get medical attention immediately. *If product is swallowed*, promptly drink 1 or 2 glasses of water. Contact a physician or Poison Control Center immediately. **DO NOT INDUCE VOMITING.**

Note to physician: Probable mucosal damage may contraindicate gastric lavage.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Do not discharge effluent containing this active ingredient into lakes, streams, ponds, estuaries, oceans, or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

DIRECTIONS

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

VORTEX WA826

recirculating cooling tower systems and indoor air conditioning systems. Prior to the use of VORTEX WA826 in industrial and/or commercial recirculating cooling tower systems, clean to remove algal growth, microbiological slimes, and other deposits. Initial slug addition of 5.7 to 8.6 fl. oz. of VORTEX WA826 per 1000 gal. of water to provide 50 to 100 ppm, based on total weight of solids, until control is evident. Make subsequent slug additions of 17.2 fl. oz. of VORTEX WA826 per 1000 gal. of water (or the relative amount of addition depends upon the relative amount of microbiological problem. Slug additions should be made to the sump or to the recirculating tower systems.

VORTEX WA826

which maintain effective mist-eliminating compounds. Clean to remove bacterial slime and other deposits. Repeat initial dosage until control is evident. Repeat initial dosage every 1 to 3 months. Slug additions may be made to the sump or to the recirculating tower systems.

BEST BY

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal. STORAGE: Do not expose to extreme temperatures. Do not store in drums should be placed in overpack drums for disposal. Spills should be cleaned up and disposed of in a sanitary landfill. Keep container closed when not in use. PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. If these wastes are spilled, or if they are otherwise released, contact your State Pesticide or Environmental Control Agency, or your EPA Regional Office for guidance.

CONTAINER DISPOSAL:
 PLASTIC: Triple rinse (or equivalent). Then offer for recycling or incineration, by incineration, or, if allowed by state and local authorities, by other procedures approved by state and local authorities.
 METAL: Triple rinse (or equivalent). Then offer for recycling or incineration, by incineration, or, if allowed by state and local authorities, by other procedures approved by state and local authorities.
