COMBAT 300

Under the Federal Insecticide,
Fungicide, and Rodenticide Act
as amended, for the pesticide
registered under EPA Reg. No.

57787-21

ACTIVE INGREDIENT:

Poly(oxyethylene(dimethyliminio)ethylene-
(dimethyliminio)ethylene dichloride) 30.0 %

INERT INGREDIENT 70.0 %

This product contains 2.67 lb. of active ingredient per gallon and weighs
8.9 lb. per gallon.

KEEP OUT OF REACH OF CHILDREN

CAUTION

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed. Avoid breathing vapors. Avoid contact with skin, eyes, or clothing.

FIRST AID: If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution, or, if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Keep out of lakes, streams, or ponds. Permits may be required for discharges containing this pesticide into lakes, streams, ponds, or public water. For guidance, contact the regional office of the Environmental Protection Agency.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
COMBAT 300

is used to control the growth of algae in swimming pools, exterior spas, whirlpools, hot tubs, decorative fountains, and ponds that do not contain fish. For maximum effectiveness pools, spas, whirlpools, hot tubs, decorative fountains, and ponds containing heavy growth of algae should be cleaned prior to using COMBAT 300.

For pools having just visible algae growth add an initial dose of 24 to 36 fluid ounces of COMBAT 300 per 10,000 gallons of water and remove settled algae debris by cleaning. For treatment of a freshly cleaned and filled pool add initially 13 to 24 fluid ounces of COMBAT 300 per 10,000 gallons of water. Subsequent additions of 4 to 9 fluid ounces of COMBAT 300 per 10,000 gallons of water should be made every 5 to 7 days after initial treatment for maintenance.

Spas, whirlpools, hot tubs, decorative fountains, and ponds having just visible algae growth require an initial dose of 2 to 4 fluid ounces of COMBAT 300 per 1000 gallons of water. For treatment of a freshly cleaned spa, whirlpool, hot tub, decorative fountain, or pond, add initially 1 to 2 fluid ounces of COMBAT 300 per 1,000 gallons of water. Subsequent additions of 0.5 to 0.8 fluid ounces of COMBAT 300 should be made every 5 to 7 days after initial treatment for maintenance.

COMBAT 300 will prevent growth of most algae during the off-season winter months when pools are not in use. For pools which have been properly treated during the swimming season and are free of visible algae, add 13 to 21 fluid ounces of algacide per 10,000 gallons of water. If at the end of swimming season pools have some visible algae growth, add 25 to 37 fluid ounces per 10,000 gallons. It is necessary that a uniform distribution of algacide throughout the water and the pool be made for maximum effectiveness. If pool is not covered, it may be necessary to repeat the treatment one or more times during the season.

COMBAT 300 is compatible with those chemicals normally used to treat pools and spas and is effective at both acid and alkaline pH. COMBAT 300 can be used in pools and spas treated with chlorine chemicals and may reduce the amount of those chemicals normally required. However, do not mix COMBAT 300 with concentrated dry or liquid chlorine products.

STORAGE & DISPOSAL

STORAGE: Do not contaminate water, food, or feed by storage or disposal. Keep container closed when not in use. Leaking or damaged containers should be placed in a plastic bag and discarded in trash. Mop up spills with clear water. All pesticides should be kept out of reach of children and stored away from food.
DISPOSAL: Do not reuse empty container. Wrap container and place in trash.
