UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

MAY 24 2007

Mr. Richard Westman
Haviland Consumer Products, Inc.
421 Ann Street, NW
Grand Rapids, MI 49504

SUBJECT: Algae Kill
EPA Registration No.: 57787-5
Amendment Date: February 20, 2007
EPA Receipt Date: February 27, 2007

Dear Mr. Westman,

The following amendment submitted in connection with registration under FIFRA, as amended, is acceptable with the conditions listed below.

- Change Primary Brand Name
- Update the Company Name and Address

Conditions

Revise the label as follows:

- 1) Revise the heading, "Directions," to state "Directions For Use."
- 2) Revise step 2 of the directions by indicating the specific algae species; such as *Cholera pyrendosa* (green algae) and *Lyroba versicolor* (blue-green algae).
- 3) Revise steps 3 and 4 of the directions by deleting the term "recycled" and state "filtered."
- 4) The heading, "Precautionary Statements" must precede the signal word "Danger" which appears after the Environmental Hazard Statements. Revise the "Precautionary Statements to read as follows:

Precautionary Statements

Hazard to Humans and Domestic Animals

Corrosive. Causes irreversible eye damage and skin burns. Do not get in eyes, on skin, or on clothing. Wear goggles or faceshield, protective clothing, and rubber gloves.
Harmful if swallowed. Wash thoroughly with soap and water after handling and before

eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse.

5) According to PR Notice 2001-1, the the "first Aid" statements must be reorganized with the severest route of exposure determined by toxicity category listed first. Therefore, you must rearrange the statements to read: "If in Eyes, If on Skin, If Swallowed, and If Inhaled.

6)The Agency has mandated registrants adopt the "Master Label" which contain all the claims, use sites, directions, storage/disposal statements, and environmental hazard statements on one label. Therefore, your label must support the following directions:

Environmental Hazards (Containers less than 5 gallons)

This pesticide is toxic to fish.

Environmental Hazards (Containers greater than or equal to 5 gallons)

This product is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

Storage and Disposal (Containers less than equal to 1 gallon)

Pesticide Storage: Store in original containers and place in locked storage area inaccessible to children and individuals unfamiliar with its use. Keep from freezing.

Disposal: If empty: Do not reuse container. Place in trash or offer for recycling.

If partially filled: Call your local Solid Waste Agency or (add phone number) for toll free instructions. Never place unused product down an indoor or outdoor drain.

Storage and Disposal (Containers greater than 1 gallon)

Do not contaminate water, food, or feed by storage and disposal

Pesticide Storage: Store in original containers and place in locked storage area inaccessible to children and individuals unfamiliar with its use. Keep from freezing.

Pesticide Disposal: Pesticide Wastes are acutely hazardous. Improper disposal of excess pesticide, spray, or mixture of rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

Container Disposal: Do not reuse empty container. Triple rinse(or equivalent). Then offer for recycling or reconditioning or puncture and dispose of in a sanitary landfill, or

incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.

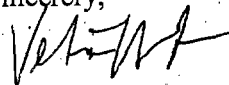

General Comments

The proposed primary brand name, Algae Kill 10, is acceptable

A stamped copy of the labeling accepted with conditions is enclosed. Submit three (3) copies of your final printed labeling before distributing or selling the product bearing the revised labeling.

Should you have any questions or comments concerning this letter, please contact Jacqueline McFarlane at (703) 308-6416.

Sincerely,

Velma Noble
Product Manager (31)
Regulatory Management Branch I
Antimicrobials Division (7510C)

The presence of algae in outdoor swimming pools is objectionable because of the color, cloudiness, odor, and increased chlorine demand of the water. The use of Algae Kil 10 is compatible with the usual water treatment chemicals. By controlling algae growth with Algae Kil 10 the chlorine demand of the pool may be significantly reduced.

DIRECTIONS

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

1. In freshly filled pools or pools showing no visible algae growth add one gallon Algae Kil 10 per 50,000 gallons of water to prevent algae growth. Apply by adding directly to the pool water.
2. If algae growth is observed, add one gallon Algae Kil 10 for each 20,000 gallons of water to kill and control these algae species most commonly found in swimming pools. When existing growth is dead, clean the pool, drain and refill if necessary and add one gallon Algae Kil 10 per 50,000 gallons of water. Apply by adding directly to the pool water.
3. If the pool water treated as in (1) or (2) is recycled, add one gallon of Algae Kil 10 per 50,000 gallons of water every five to seven days to maintain between two and five parts per million of active ingredient. Apply by adding directly to the pool water. See serviceman for test kit.
4. If the pool water treated as in (1) or (2) above is not recycled or not filtered it should be tested periodically to determine the active ingredient content. When necessary, one gallon Algae Kil 10 per 50,000 gallons of water should be added directly to the pool water to maintain two to five parts per million of active ingredient.

ENVIRONMENTAL HAZARD

THIS PESTICIDE IS TOXIC TO FISH. Do not discharge into lakes, streams, acturaries, oceans, or public waters unless this product is specifically identified and addressed in a NPDES permit. Do not discharge effluent containing this product into sewer systems without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

DANGER

Keep Out of Reach of Children. Corrosive. Causes eye damage and skin irritation. Do not get in eyes, on skin or on clothing. Wear goggles or face

shield and rubber gloves when handling. Harmful or fatal if swallowed. Avoid contamination of food.

FIRST AID

If swallowed: Call a poison control center or doctor immediately for treatment advice. Chemtrec 1-800-424-9300. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. Chemtrec 1-800-424-9300.

If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice. Chemtrec 1-800-424-9300.

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. Chemtrec 1-800-424-9300.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

STORAGE AND DISPOSAL

STORAGE: Do not contaminate water, food or feed by storage or disposal. Wastes resulting from use of this product must be disposed of according to applicable Federal, State and local procedures.

DISPOSAL: Do not reuse empty container. Disposal Instructions: Call your local solid waste agency or 1-800-CLEANUP (253-2687) for proper disposal of empty containers and unused product.
