Subject: Label Amendment – Polixetonium Chloride (Busan 77)
Registration Review Interim Decision Risk Mitigation
Product Name: Winterizer
EPA Registration Number: 57787-11
Received Date: 10/25/2021
Decision Number: 579268

Dear Tyler Thoms:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

The Agency, in accordance with the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, has completed reviewing all of the information submitted with your application to support the Registration Review of the above referenced product in connection with the Polixetonium Chloride (Busan 77) Interim Decision, and has concluded that your submission is acceptable.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling and must be used at your next label printing. Pursuant to 40 CFR 156.10(a)(6) you must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 12 months from the date of this letter. After 12 months, you may only distribute or sell this product if it bears this new revised

labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the Agency. See FIFRA section 2(p)(2). If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process, FIFRA section 12(a)(1)(B). Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, please contact Jessie Bailey by phone at 202-566-0605, or via email at bailey.jessica@epa.gov.

Sincerely,

Eric Miederhoff
Chief, Reevaluation Branch
Antimicrobials Division
EPA Office of Pesticide Programs

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION. Harmful if swallowed or absorbed through skin. Causes moderate eye irritation. Avoid contact with eyes, skin, or clothing. Wear long sleeved shirt and long pants, socks, shoes and chemical resistant gloves. When applying this product to [pools], [spas], or [hot tubs]. Waterproof gloves are suggested, relevant types include Butyl and Nitrile.

FIRST AID

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For emergency information call CHEMTREC at 1-800-424-9300.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice.

Note to Physician: Probable mucosal damage may contraindicate the use of gastric lavage.

{For Industrial Use Only}

User Safety Recommendations:

User should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. User should remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Users should remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, aquatic invertebrates, and clams.

DISCHARGE DIRECTIONS FOR COMMERCIAL AND RESIDENTIAL POOL, SPA, AND HOT TUB USES - Before draining a treated pool, spa, or hot tub, contact your local sanitary sewer and storm drain authorities and follow their discharge instructions. Do not discharge treated pool or spa water to any location that flows to a gutter, storm drain or natural water body unless discharge is allowed by state and local authorities.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Winterizer
MASTER LABEL

EPA Reg. No. 57787-11

{Optional intro statement 1 – when directions for swimming pool, spa, and closing use are on product.}

[Winterizer] or [This product] is used to control the growth of all types of algae in swimming pools, spas, whirlpools, hot tubs, and decorative fountains. Using [Winterizer] or [this product] weekly prevents algae outbreaks from occurring. This formula is non-foaming and is the preferred choice for use in fountains, stand alone spas, or spas attached to swimming pools. [Winterizer] or [This product] is compatible with pools or spas that are sanitized with chlorine or bromine. Continued use of [Winterizer] or [this product] may reduce the amount of chemicals normally required to maintain your pool, spa, hot tub, or fountain. For maximum effectiveness pools, spas, whirlpools, hot tubs, and decorative fountains containing heavy growth of algae must be cleaned prior to using this product. [Winterizer] or [This product] can be used during the colder months when swimming pools are covered or no longer in use.

{Optional intro statement 2 – when directions for swimming pool use only are on product}

[Winterizer] or [This product] is used to control the growth of all types of algae in swimming pools. Using [Winterizer] or [this product] weekly prevents algae outbreaks from occurring. This formula is non-foaming and compatible with pools that are sanitized with chlorine or bromine. Continued use of [Winterizer] or [this product] may reduce the amount of chemicals normally required to maintain your pool. For maximum effectiveness pools containing heavy growth of algae must be cleaned prior to using this product.

{Optional intro statement 3 – when directions for spa use only are on product.}

This product is used to control the growth of all types of algae in spas, whirlpools, hot tubs, and decorative fountains. Using this product weekly prevents algae outbreaks from occurring. This formula is non-foaming and is the preferred choice for use in fountains, stand alone spas, or spas attached to swimming pools. This product is compatible with spas that are sanitized with chlorine or bromine. Continued use of this product may reduce the amount of chemicals normally required to maintain your spa, hot tub or fountain.

{Optional intro statement 4 – when directions for swimming pool, off season use only are on product.}

[Winterizer] or [This product] must be used during the colder months when swimming pools are covered or no longer in use. [Winterizer] or [This product] is used to control the growth of all types of algae in swimming pools. [Winterizer] or [This product] is compatible with pools that are sanitized with chlorine or bromine. For maximum effectiveness pools containing heavy growth of algae must be cleaned prior to using this product.

Swimming Pools:

When using other products in conjunction with this product, follow the instructions on those products. NEVER mix different products together in the same bottle or pail. Always add this product directly to water with the pool pump on. Clean the pool filter as necessary following the

Winterizer
MASTER LABEL

EPA Reg. No. 57787-11
01/08/2026

manufacturer's instructions for backwashing or using a filter cleaning solution. Adjust pH of pool water to the ideal range of 7.4 – 7.6. In pools sanitized with chlorine, adjust stabilizer levels to 30 – 50 ppm. Maintain available chlorine levels in the range of 1 – 3 ppm. For treatment of freshly filled, clean, or restored pools, add 18 to 28 fluid ounces of [Winterizer] *or* [this product] per 10,000 gallons of water directly into the pool. Maintenance additions of 8 to 12 fluid ounces of [Winterizer] *or* [this product] per 10,000 gallons of water must be made every 5 to 7 days after initial treatment. After heavy rain, add an additional 6 fluid ounces per 10,000 gallons of water.

Prior to using this product, pools with heavy algae growth, must be vacuumed. If the pool is properly equipped, the vacuumed algae growth must be vacuumed directly out of the pool to waste. For pools having light to medium algae growth, add 32 to 42 fluid ounces of [Winterizer] *or* [this product] per 10,000 gallons of water directly to the pool. Brush pool to increase circulation and to remove algae from pool walls and bottoms. Pool use may resume 15 minutes after applying this product to the water.

Spas:

When using other products in conjunction with this product, follow the instructions on those products. Never mix different products together in the same bottle or pail. Always add this product directly to water with the circulation pump on. Clean the spa filter as necessary using a filter cleaning solution. Adjust pH of spa water to the ideal range of 7.4 – 7.6. Maintain available chlorine levels in the range of 1 – 3 ppm. For treatment of a freshly cleaned, filled, or restored spa, whirlpool, hot tub, or decorative fountain, add 6 to 9 fluid ounces of this product per 500 gallons of water directly into the water. Maintenance additions of 1 fluid ounce of this product per 500 gallons of water must be made every 5 to 7 days after initial treatment.

For spas, whirlpools, hot tubs, and decorative fountains having light to medium algae growth, add 6 to 9 fluid ounces of this product per 500 gallons of water directly into the water. Brush spa to increase circulation and to remove algae from spa walls and bottoms. Spa use may resume 15 minutes after applying this product to the water. If algae growth is excessive, drain, clean, and refill the spa prior to treatment.

Swimming Pools (Off-Season Winter Months):

When using other products in conjunction with this product, follow the instructions on those products. NEVER mix different products together in the same bottle or pail. Clean the pool filter as necessary, following the manufacturer's instructions for backwashing or using a filter cleaning solution. Prepare your pool for the closing season by adjusting pH of pool water to the ideal range of 7.4 – 7.6. [Winterizer] *or* [This product] will prevent growth of algae during the off-season winter months when pools are not in use. When pool is balanced and free of visible algae, add 48 to 64 fluid ounces of algaecide per 10,000 gallons of water. If pool has some visible algae growth, add 96 to 128 fluid ounces of this product per 10,000 gallons of water. Add this product with the pump running before draining to desired winter levels and placing winter cover. It is necessary that a uniform distribution of algaecide throughout the pool be made for maximum effectiveness. If pool is

not covered, it may be necessary to repeat the treatment additional times during the season, consult your dealer.

STORAGE AND DISPOSAL

(Household / Residential Use)

Nonrefillable container. Do not reuse or refill this container. Securely wrap original container in several layers of newspaper and discard in trash or offer for recycling if available.

(Commercial / Industrial / Institutional Use)

Do not contaminate water, food, or feed by storage and disposal.

Pesticide Storage: Keep container closed when not in use. Leaking or damaged containers should be placed in a plastic bag and discarded in trash. Mop up spills with clear water. All pesticides should be kept out of reach of children and stored away from food.

Pesticide Disposal: Pesticide wastes may be hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

Container Handling: Nonrefillable container. Do not reuse or refill this container. Triple rinse (or equivalent). Then offer for recycling if available or puncture and dispose of in a sanitary landfill, or by incineration, or, if allowed by state and local authorities, by burning. If burned stay out of smoke.
