UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

WASHINGTON, DC 20460

OFFICE OF CHEMICAL SAFETY  
AND POLLUTION PREVENTION

JUN 11 2014

Megan E. Pletka  
Technology Sciences Group Inc.  
1150 18<sup>th</sup> Street, Suite 1000  
Washington, DC 20036

Subject: Haviland Consumer Products, Inc.  
Durachlor 3" Tablets  
EPA Reg. No. 57787-15  
Application Date: February 18, 2014  
Receipt Date: February 18, 2014

Dear Ms. Pletka:

The following amendment, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, is accepted.

Label Amendment

- Adding use of recirculating water cooler towers
- Adding use of air washers
- Adding use of evaporative condensers

General Comments

Based on a review of the information submitted, the labeling amendment is acceptable. A stamped copy of the label is enclosed for your records. This labeling supersedes all previously accepted ones on file. The next label printing of this product must use this labeling unless subsequent changes have been approved. You must submit one (1) copy of the final printed labeling before you release this product for shipment bearing the new labeling. In accordance with 40 CFR § 152.130(c), you may distribute or sell this product under the previously approved labeling for up to 18 months from the date of this letter. After 18 months from the date of this letter you may only distribute or sell this product if it bears this new revised labeling of subsequently approved labeling.

Should you have any questions or comments concerning this letter, please contact Wanda Henson via email at [Henson.Wand@epa.gov](mailto:Henson.Wand@epa.gov) or call (703) 308-6345.

Sincerely,

A handwritten signature in black ink, appearing to read "Demson Fuller".

Demson Fuller  
Product Manager (32)  
Regulatory Management Branch II  
Antimicrobials Division (7510P)

Enclosure: Stamped Label

# DURACHLOR 3" TABLETS

[A Concentrate For Continuous Chlorination]

KEEP OUT OF REACH OF CHILDREN

## DANGER

### FIRST AID

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For emergency information call CHEMTREC at 1-800-424-9300.

**If in Eyes:** Hold eye open and rinse slowly and gently with water for 15 - 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

**If on Skin or Clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 - 20 minutes. Call a poison control center or doctor for treatment advice.

**If Inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

**If Swallowed:** Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

**Note to Physician:** Probable mucosal damage may contraindicate the use of gastric lavage.

See additional precautions on [back] [side] panel.

### ACTIVE INGREDIENT

Trichloro-s-triazinetrione.....	99%
OTHER INGREDIENTS.....	1%
TOTAL.....	100%

Contains 90% available chlorine

### Packaged by:

Haviland Consumer Products, Inc.  
421 Ann St. NW  
Grand Rapids, MI 49504

EPA Reg. No. 57787-15

EPA Est. No.

Net Contents: (see container label)

Batch Code # / Lot #: (see container label)

**PRECAUTIONARY STATEMENTS**  
**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**  
**DANGER**

**Corrosive:** Causes irreversible eye damage and skin burns. May be fatal if absorbed through skin. May be fatal if inhaled. Do not breathe dust or spray mists. Irritating to nose and throat. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield, protective clothing and rubber gloves when handling this product. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove contaminated clothing and wash before reuse.

**ENVIRONMENTAL HAZARDS**

*(Containers less than 50 pounds)*

This pesticide is toxic to fish and aquatic organisms.

*(Containers greater than or equal to 50 pounds)*

This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

**PHYSICAL OR CHEMICAL HAZARDS**

**Strong Oxidizing Agent.** Contact with water slowly liberates irritating hazardous chlorine containing gases. Decomposes at temperatures above 464°F with liberation of harmful gases. When ignited, will burn with the evolution of chlorine and equally toxic gases. NEVER add water to product. Always add product to large quantities of water. Use clean, dry utensils. DO NOT add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic material, or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible fire and explosion.

**In Case of Fire or Smoke:** Call the fire department. Do not attempt to extinguish the fire without a self-contained breathing apparatus (SCBA). Do not let the fire burn. Flood with copious amounts of water. DO NOT use ABC or other dry chemical extinguishers since there is a potential for a violent reaction.

**DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

**For control of bacteria and algae (outdoors) in swimming pools operated continuously.**

1. Before bathing, test water pH, chlorine residual and alkalinity using a suitable test kit. Adjust chlorine residual to 1-2 ppm. Use a chlorine stabilizer, especially outdoors to prolong chlorine residual. Maintain pH of water between 7.2 and 7.6 and total alkalinity between 125 and 175 ppm.

- 2. Place tablets in skimmer basket or suitable feeder to maintain chlorine level between 1 to 2 ppm. If chlorine residual is too high or low adjust number of tablets in skimmer basket or make necessary adjustments of feeder to maintain proper level. Under normal conditions 1 or 2 ounces of this product daily for each 10,000 gallons of pool water will maintain proper chlorine level. Do not place any other chemical with this product in the skimmer basket or feeder.
- 3. Weekly, superchlorinate water 5 to 6 ppm using a suitable superchlorinating product. Follow directions of the product label for proper dosage. Avoid use of products such as body lotions that consume chlorine.
- 4. Reentry into treated pool is prohibited above levels of 3 ppm of chlorine.

*{The following uses are intended for products marketed for industrial water treatment}*

**[FOR USE IN INDUSTRIAL RECIRCULATING WATER COOLING TOWERS, AIR WASHERS & EVAPORATIVE CONDENSERS:**

Treatment with this product is an effective way to control the growth of bacteria and algae in industrial recirculating water cooling towers, air washers and evaporative condensers.

- [1.] Badly fouled systems should be cleaned prior to initiating treatment.
- [2.] Initial Dosage – When the system is just noticeably fouled, add 8 oz of this product per 10,000 gallons of water contained in the system. Repeat this dosage, if necessary, until free available chlorine level (FAC) of 0.5 - 1.0 ppm is obtained (as determined by use of a reliable test kit).
- [3.] Maintenance Dosage – To obtain a FAC of 0.5 – 1.0 ppm, add 0.8 – 1.6 oz. of this product per 10,000 gallons of water daily or as needed.
- [4.] This product should be added to the system at a point where adequate flow is maintained. Variations in water temperature, chlorine demand and flow rate will affect the dissolution rate. Warmer seasons may require an upward adjustment of the FAC.

**Air Washers:** For use only in industrial air washer systems that maintain effective mist eliminating components. Hypochlorite controls slime-forming bacteria and fungi in air washer systems. This product may be added to the system either continuously or intermittently or as needed. The frequency of feeding and duration of the treatment will depend on the severity of the problem. Badly fouled systems should be cleaned prior to initiating treatment.

- [1.] Initial Dosage – When the system is just noticeably fouled, add 0.4 – 0.5 lbs. of this product per 10,000 gallons of water contained in the system. Repeat this dosage, if necessary, until a free available chlorine level (FAC) of 0.5 – 1.0 ppm is obtained (as determined by use of a reliable test kit).
- [2.] Maintenance Dosage – To maintain a FAC of 0.5 – 1.0 ppm, add 0.8 – 1.6 oz. of this product per 10,000 gallons of water, daily or as needed.
- [3.] This product should be added to the system at a point where adequate flow is maintained. Variations in water temperature, chlorine demand and flow rate will affect the dissolution rate. Warmer seasons may require and upward adjustment of the FAC.]

**STORAGE AND DISPOSAL**

Do not contaminate water, food, or feed by storage and disposal.

**Pesticide Storage:** Keep this product dry in a tightly sealed container when not in use. Store in a cool, dry, well-ventilated area away from heat or open flame. In case of decomposition, isolate container (if possible) and flood area with large amounts of water to dissolve all material before discarding the container.

**Pesticide Disposal:** Pesticide wastes may be hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

**Container Disposal:** Nonrefillable container. Do not reuse or refill this container. Triple rinse (or equivalent) promptly after emptying. Offer for recycling, if available or reconditioning if appropriate or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

*{The following are optional marketing statements:}*

- [7-Day Slow Dissolving Chlorinating]
- [A Chlorinating Concentrate for Swimming Pools]
- [Concentrated]
- [Concentrated, Stabilized 3" Tablets]
- [Giant 3" Slow-Dissolving Tablets]
- [Sanitizer]
- [Stabilized]
