

U.S. ENVIRONMENTAL PROTECTION AGENCY
 Office of Pesticide Programs
 Registration Division (H7505C)
 401 "M" St., S.W.
 Washington, D.C. 20460

EPA Reg. Number:
 57787-19

Date of Issuance:
 MAR 21 1997

NOTICE OF PESTICIDE:
 Registration
 Reregistration

Term of Issuance:
 Conditional

Name of Pesticide Product:
 Super 90 Trichloro Granules

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

Haviland Products, Inc.
 1855 Turner N.W.
 Grand Rapids, MI 49504

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/ reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.
2. Change the label by revising the EPA Registration Number to read, "EPA Reg. No. 57787-19".
3. Submit two copies of the revised final printed label for the record.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

STATEMENT OF PRACTICAL TREATMENT
(FIRST AID)

IN CASE OF CONTACT: Immediately flush eyes or skin with plenty of water for at least 15 minutes. Call a physician immediately. Remove contaminated clothing promptly and wash before reuse.

IF SWALLOWED: Give large quantities of water. Give at least 1 ounce of milk of magnesia or aluminum hydroxide gel in an equal amount of water. If these are not available, give milk, white of 2 or 3 eggs or gelatin solution. Never give anything by mouth to an unconscious person. Call physician immediately.

DIRECTIONS FOR USE

374

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. -

This product is a fast dissolving stabilized chlorine germicide and algaecide.

FOR SWIMMING POOLS: FOR USE IN CONCRETE POOLS ONLY

1. Turn off pump before application.
2. Brush algae spots with a steel brush before adding this product.
3. Sprinkle this product directly over the pool walls and floor on which algae appears. Use approximately 1 pound per 10000 gallons of pool water. For severe cases the dosage may be diluted.
4. Filter pump can be turned on after this product has been in the pool for at least 8 hours.
5. Brush pool again with stainless steel brush.
6. Do not use pool until chlorine residual falls below 3 ppm.

SUPERCHLORINATE

1. Check residual chlorine with a reliable test kit. If below 1.0 ppm broadcast over the deepest end of the pool 4 oz. of this product for every 12,000 gallons of water. Repeat application until a 1.0 to 1.5 ppm residual chlorine is obtained.
2. In extremely hot weather or extreme bathing loads, a shock dosage of chlorine may be obtained by broadcasting this product directly into pool water. 1 oz. for each 6000 gallons of pool water will provide 1.1 ppm of chlorine.
3. Be sure to measure pH immediately after application and at least once each week with a reliable pool test kit. Adjust pH to 7.2 to 7.8 if necessary by adding a sulfable agent such as sodium bisulfate to decrease pH or soda ash to increase pH. Follow instructions for use on labels of these products.

NOT RECOMMENDED FOR USE WITH VINYL LINER POOLS

HOW TO ESTIMATE GALLON CAPACITY OF YOUR POOL

Measure Length (L), Width (W) and average Depth (D) in feet

For square or rectangular pools:

$$L \times W \times D \times 7.5 = \text{Gallons}$$

For circular pools:

$$L \times W \times D \times 5.9 = \text{Gallons}$$

For oval with straight sides pools:

$$L \times W \times D \times 6.7 = \text{Gallons}$$

For Irregular Size Pools, Consult Pool Builder

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

STORAGE: Keep product dry in tightly closed container when not in use. Store in a cool dry, well ventilated area away from heat or open flame. Keep contents and container dry and off wet floors. In case of decomposition isolate container, if possible, and flood with large amount of water to dissolve all material before discarding.

CONTAINER DISPOSAL: Do not reuse empty container. Securely wrap container in several layers of newspaper and discard in trash. Rinse thoroughly before discarding in trash.

PRECAUTIONARY STATEMENTS
HAZARD TO HUMANS AND DOMESTIC ANIMALS

DANGER

CORROSIVE:

CAUSES EYE DAMAGE.

Protect eyes when handling. May be harmful or fatal if swallowed. May cause chemical burns. Contact with other materials may cause fire or explosion or result in dangerous pressure, especially if heated. Contact with water or moist air liberates irritating and hazardous gases. Do not get in eyes, skin or on clothing. Avoid breathing dust or fumes. Wash thoroughly after handling.

SPILL: Sweep up and while providing adequate ventilation, flush away by flood with water.

IN CASE OF FIRE: Use water spray to cool containers exposed to heat and flood with water to dilute material. Noxious fumes can be formed. Wear full protective clothing and self-contained breathing apparatus.

ENVIRONMENTAL HAZARD

THIS PESTICIDE IS TOXIC TO FISH AND AQUATIC ORGANISMS.

Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollution Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior discharge. Do not discharge effluent containing this product into sewer system without previously notifying the sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of EPA.

GENERAL NOTES: This product is a concentrated form of chlorine. It is 100% soluble, since it is granular. This product can be added to the pool without the splashing associated with liquids. This product is fast-dissolving. It maintains its high strength for at least one year if kept in a cool dry place. It contains a built-in stabilizer to reduce chlorine loss in sunlit pools. It contains no scale forming minerals which can collect on the walls of the heater tubes and on the sides of the pool.
