Term of Issuance: Conditional

Name of Pesticide Product: ALGAE
INHIBITOR

NOTICE OF PESTICIDE:
 Registration
 Reregistration

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):
Haviland Products, Inc.
1855 Turner, N.W.
Grand Rapids, MI 49504

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c) (7) (A) provided that you:

1. Submit and/or cite all data required, for registration/ reregistration of your product under FIFRA sec. 3(c) (5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.
2. Make the following label changes:
 - a. Revise the EPA Registration Number to read, "EPA Reg. No. 57787-20".
 - b. Under the "First Aid" statement, If swallowed, delete, "Drink promptly large quantity of milk, egg whites, gelatin solution or if these are not available..."
 - c.

DIRECTIONS FOR USE

Do not use water containing residue from use of this product to irrigate crops used for food or feed.

It is a violation to use this product in a manner inconsistent with its labeling.

INITIAL APPLICATION FOR SWIMMING POOLS

(To A Clear Pool)

Two gallons of this product to each 50,000 gallons of water or ratio thereof. If algae growth is visible apply the initial dose. Vacuum pool after 24 hours to remove dead algae. If algae is still visible repeat dose as necessary until pool is free of visible algae.

CONTINUED APPLICATION

Two quarts of this product in 50,000 gallons of water every 3 to 5 days or as needed to maintain 2ppm active. Quaternary Test Kits are available for this use.

BOOSTER APPLICATION

Two quarts of this product in 50,000 gallons after a heavy or prolonged rainfall or when there is a heavy bathing load.

This product, when used as directed, will help improve the appearance and cleanliness of the swimming pool water. It helps inhibit the growth of unsightly algae.

This product, when properly stored for prolonged periods of time, will not lose its effectiveness or strength.

This product is compatible with many swimming pool chemicals and when used as directed it is not harmful to the metal paint, plastic or tile surfaces of the swimming pool.

This product requires no special equipment for treating swimming pool water. The correct use dilution may be added directly to the pool in any spot, or added to the water-circulation equipment.

STORAGE AND DISPOSAL

STORAGE: Store in original containers and place in locked storage area. Keep from freezing. Do not contaminate water, food or feed by storage or disposal.

SPILL OR LEAK PROCEDURES: Small spills may be mopped up or flushed away with water or absorbed on some absorbent material and incinerated.

PESTICIDE DISPOSAL: Securely wrap original container in several layers of newspaper and discard in trash.

CONTAINER DISPOSAL: Do not reuse container (bottle, cans, jars). Rinse thoroughly before discarding in trash.

ENVIRONMENTAL HAZARD

THIS PESTICIDE IS TOXIC TO FISH. Do not discharge into lakes, ponds, streams, actuaries, oceans, or public waters unless this product is specifically identified and addressed in a NPDES permit. Do not discharge effluent containing this product into sewer systems without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.
