

U.S. ENVIRONMENTAL PROTECTION AGENCY
 Office of Pesticide Programs
 Registration Division (H7505C)
 401 "M" St., S.W.
 Washington, D.C. 20460

EPA Reg. Number:

57787-23

Date of Issuance:

APR - 3 1997

Term of Issuance:

Conditional

Name of Pesticide Product:

COMBAT 60

NOTICE OF PESTICIDE:

- Registration
- Reregistration

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

Haviland Products, Inc.
 1855 Turner N.W.
 Grand Rapids, MI 49504

Notes: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.
2. Change the label by revising the EPA Registration Number to read, "EPA Reg. No. 57787-23".
3. Submit two copies of the revised final printed label for the record.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

EPA Reg. No. 57787-23

The Confidential Statement of Formula (CSF) dated February 26, 1997 is in compliance with PR Notice 91-2, it agrees with the label and it is acceptable.

Revise the Environmental Hazard Statement to read: This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or public waters unless in accordance with the requirements of a National pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

Under the Statement of Practical Treatment (First Aid), please incorporate : If In Eyes - Flush with plenty of water for at least 15 minutes. Consult a physician if irritation occurs. In case of Skin Contact - Wash thoroughly with soap and water. Remove and wash contaminated clothing before reuse. Get medical attention if irritation occurs.

If you have any questions concerning this letter, please contact Zenobia Jones at (703) 308-6198.

Sincerely,

Robert S. Brennis
Acting Product Manager (32)
Antimicrobial Program Branch
Registration Division (7505W)

ACTIVE INGREDIENT:

Poly (oxyethylene(dimethylimino) ethylene-	
(dimethylimino) ethylene dichloride).....	60%
INERT INGREDIENTS.....	40%
	100%

This product contains 5.76 lb. of active ingredient per gallon and weighs 9.6 lb. per gallon.

KEEP OUT OF THE REACH OF CHILDREN

CAUTION

STATEMENT OF PRACTICAL TREATMENT
(FIRST AID)

DIRECTIONS FOR USE

4 of 4

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This product is used to control the growth of algae in swimming pools, exterior spas, whirlpools, hot tubs, decorative fountains and ponds that do not contain fish. For maximum effectiveness pools, spas, whirlpools, hot tubs, decorative fountains and ponds containing heavy growth of algae should be cleaned prior to using this product.

For pools having just visible algae growth add an initial dose of 11 to 17 fluid ounces of this algacide per 10,000 gallons of water and remove settled algae debris by cleaning. For treatment of a freshly cleaned and filled pool add initially 6 to 11 fluid ounces of this algacide per 10,000 gallons of water. Subsequent additions of 2 to 4 fluid ounces of this product per 10,000 gallons of water should be made every 5 to 7 days after initial treatment for maintenance.

Spas, whirlpools, hot tubs, decorative fountains, and ponds having just visible algae growth require an initial dose of 1 to 2 fluid ounces of this product per 1000 gallons of water. For treatment of a freshly cleaned spa, whirlpool, hot tub, decorative fountain or pond, add initially 0.6 to 1.1 fluid ounces of this product per 1000 gallons of water. Subsequent additions of 0.2 to 0.4 fluid ounces of this product should be made every 5 to 7 days after initial treatment for maintenance.

This product will prevent growth of most algae during the off-season winter months when pools are not in use. For pools which have been properly treated during the swimming season and are free of visible algae, add 8 to 10 fluid ounces of algacide per 10,000 gallons of water. If at the end of the swimming season pools have some visible algae growth, add 12 to 17 fluid ounces per 10,000 gallons. If it is necessary that a uniform distribution of algacide throughout the water and the pool be made for maximum effectiveness. If pool is not covered, it may be necessary to repeat the treatment one or more times during the season.

This algacide is compatible with those chemicals normally used to treat pools and effective at both acid and alkaline pH. This algacide can be used in pools treated with chlorine chemicals and may reduce the amount of those chemicals normally required. However, do not mix this algacide with concentrated dry or liquid chlorine products.

STORAGE AND DISPOSAL

STORAGE: Do not contaminate water, food or feed by storage or disposal. Keep container closed when not in use. Leaking or damaged containers should be placed in a plastic bag and discarded in trash. Mop up spills with clear water. All pesticides should be kept out of reach of children and stored away from food.

DISPOSAL: Do not reuse empty container. Wrap container and place in trash.
