Richard Westman Manager/Environmental, Health, Safety, & Compliance Department Haviland Consumer Products Inc. 421 Ann Street, NW Grand Rapids, MI 49504-2075

Subject:

Combat 60

EPA Registration No. 57787-23

Application Date: September 3, 2003 EPA Received Date: September 12, 2003

Dear Mr. Westman:

The following amendment, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, is acceptable with the conditions listed below:

## **Proposed Amendment**

Update First Aid Statements and Disposal Sections

### **Conditions**

### Revise the label as follows:

- Revise the First Aid Statements by including the phrase "Have the product container or label with you when calling a poison control center or doctor, or going for 1. treatment."
- Revise the Environmental Hazards Statement by changing "...oceans or public waters..." to read "...oceans or other waters.." and "...notifying the sewage treatment 2. diffine the local sawage treatment plant authority."

waters to the local sawage treatment plant authority.									
plant authority." to read Hothy concurrences

If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice. Chemirec, 1-800-424-9300. If in uyes: Hold eye open and ringe slowly and gently with water for 15-20 manutes. Remove contact lenses, if present, after the first 5 24oz. minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. Chemtred 1-800-124-9300. Note to Physician; Probable mucosal damage may contraindicate the use of gastric lavage. ENVIRONMENTAL HAZARDS: THIS PRODUCT IS TOXIC TO FISH AND AQUATIC ORGANISMS. Do not discharge effuent containing this product into lakes, streams, ponds, estuaries, oceans or public waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the 22oz. permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sever systems without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA. 4 Ed DIRECTIONS FOR USE It is a violation of Federal law to use this product in a manner inconsistent with its labeling. This product is used to control the growth of algae is swimming pools, exterior spas, whiripcols, hot tabs, decorative touritains, and ponds that do not contain fish. For maximum effectiveness pools, spas, whiripcols, hot tabs, [1] 6 180z decorative fountains, and ponds containing heavy growth of algae should be cleaned prior to using this product. Dated: For pools having just visible algae growth add an initial dose of 11 to 17 fluid cunces of this product per 10,000 gallions of water and remove settled algae debris by cleaning. For treatment of a treshly cleaned and filled pool add initially 6 to 11 fluid cunces of this product per 10,000 gallions of water. Subsequent additions of 2 to 4 fluid cunces of this product per 10,000 gallons of water should be made every 5 to 7 days after initial treatment for maintenance. Spas, whiripools, hot tubs, decorative fountains, and ponds having just visible algae growth require an initial dose of 1 to 2 fluid ounces of this product per 1,000 gallons of water. For treatment of a treathly cleaned spa, whiripool, hot tub, decorative fountain, or pond, add initially 0.6 to 1.8 fluid nunces of this product per 1,000 gallons of water. Subsequent additions of 0.2 to 0.4 fluid ounces of this product should be made every 5 to 7 days after initial treatment for maintenance 14oz. This product will prevent growth of most algae during the off-cascon winter months when pools are not in use. For pools which have been properly treated during the swimming season and are free of visible algae, and 8 to 10 fluid ources of algaectice per 10,000 gettors of water. If at the end of swimming season pools have some visible algae growth, add 12 to 17 fluid ounces per 10,000 gallons. It is necessary that a uniform distribution of alignocide throughout the water and the pool be made for maximum effectiveness. If pool is not covered, it may be necessary 12oz. to repeat the treatment one or more times during the season. This product is compatible with those chemicals normally used to treat pools and spea and is effective at both acid and alkaline pH. This product can be used in pools and spas treated with chlorine chemicals and may reduce the amount of those chemicals normally required. However, do not mix this product with concentrated dry or liquid 10oz. chlorine amducts. STORAGE AND DISPOSAL STORAGE: Keep this product dry in a tightly sealed container when not in use. Store in a cool, dry, well-ventilated area away from heat or open flame. In case of decomposition, isolate container (it possible) and flood area with large imounts of water to dissolve all material before discarding the container. 8oz. DISPOSAL: Do not reuse empty container. Disposal instructions: Call your local solid waste agency or 1-800-CLEANUP (253-2687) for proper disposal of empty containers and unused product. 60Z. EPA Reg.
