AND POLLUTION PREVENTION

Subject: **COMBAT 60**
EPA Registration Number: 57787-23
Application Date: July 21, 2010
Receipt Date: August 8, 2010

Dear Ms. Fortier:

The following amendment, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide (FIFRA), as amended, is acceptable with conditions.

Proposed Amendment

- Update the "Storage & Disposal" section per 2007-4
- Revising the "Directions for Use" section per 2000-6

General Comments

A stamped label with conditions is enclosed for your records. Submit a copy of your final printed label before distributing or selling the product bearing the revised labeling.

If you have further questions concerning this letter, then please contact me by telephone at (703) 308-6416 or by e-mail at campbell-mcfarlane.jacqueline@epa.gov or Stacey Grigsby by telephone at (703) 308-6440 or by email at grigsby.stacey@epa.gov. When you are submitting information or data in response to this letter, send a copy of this letter to accompany the submission in order to facilitate processing.

Sincerely,

Jacqueline Campbell-McFarlane

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed. Avoid breathing vapors. Avoid contact with skin, eyes, or clothing.

FIRST AID
<p>Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For emergency information call CHEMTREC at 1-800-424-9300.</p> <p>If Swallowed:</p> <ul style="list-style-type: none"> • Call Poison Control Center or doctor immediately for treatment advice. • Have person sip a glass of water if able to swallow. • Do not induce vomiting unless told to do so by the poison control center or doctor. • Do not give anything by mouth to an unconscious person. <p>If on Skin or Clothing:</p> <ul style="list-style-type: none"> • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes. • Call a Poison Control Center or doctor for treatment advice. <p>If Inhaled:</p> <ul style="list-style-type: none"> • Move person to fresh air. • If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. • Call a Poison Control Center or doctor for further treatment advice. <p>If in Eyes:</p> <ul style="list-style-type: none"> • Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. • Call a Poison Control Center or doctor for treatment advice.
<p>Note to Physician: Probable mucosal damage may contraindicate the use of gastric lavage.</p>

ENVIRONMENTAL HAZARDS

(Containers less than 5 gallons) – This product is toxic to fish and aquatic organisms.

(Containers greater than or equal to 5 gallons) - This product is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

{Optional intro statement 1 – when directions for swimming pool, spa, and closing use are on product.}
[Combat 60] or [This product] is used to control the growth of all types of algae in swimming pools, spas, whirlpools, hot tubs, and decorative fountains. Using [Combat 60] or [this product] weekly prevents algae outbreaks from occurring. This formula is non-foaming and is the preferred choice for use in fountains, stand alone spas, or spas attached to swimming pools. [Combat 60] or [This product] is compatible with pools or spas that are sanitized with chlorine or bromine. Continued use of [Combat 60] or [this product] may reduce the amount of chemicals normally required to maintain your pool, spa, hot tub, or fountain. [Combat 60] or [This product] can be used during the colder months when swimming pools are covered or no longer in use.

{Optional Marketing Statement, shown in [] below}

[There are three important steps to follow to maintain sparkling clean water in your pool:]

[Step 1 – Add SANITIZER to control bacteria.]

[Step 2 – Add SHOCK to destroy contaminants.]

[Step 3 – Add ALGAECIDE to prevent algae before it starts.]

[All three steps are vital to achieve sparkling clean water.]

{Optional intro statement 2 – when directions for swimming pool use only are on product.}

[Combat 60] or [This product] is used to control the growth of all types of algae in swimming pools. Using [Combat 60] or [this product] weekly prevents algae outbreaks from occurring. This formula is non-foaming and is compatible with pools that are sanitized with chlorine or bromine. Continued use of [Combat 60] or [this product] may reduce the amount of chemicals normally required to maintain your pool.

{Optional intro statement 3 – when directions for spa use only are on product.}

[Combat 60] or [This product] is used to control the growth of all types of algae in spas, hot tubs, whirlpools and fountains. This formula is non-foaming and is the preferred choice for use in fountains, stand alone spas, or spas attached to swimming pools. [Combat 60] or [This product] is compatible with spas that are sanitized with chlorine or bromine. Continued use of [Combat 60] or [this product] may reduce the amount of chemicals normally required to maintain your spa, hot tub, or fountain.

{Optional intro statement 4 – when directions for swimming pool, off-season use only are on product.}

[Combat 60] or [This product] is used during the colder months when swimming pools are covered or no longer in use. This formula is non-foaming and is compatible with pools that are sanitized with chlorine or bromine.

Swimming Pools:

When using other products in conjunction with this product, follow the instructions on those products. NEVER mix different products together in the same bottle or pail. Always add this product directly to water with the pool pump on. Clean the pool filter as necessary following the manufacturer's instructions for backwashing or using a filter cleaning solution. Adjust pH of pool water to the ideal range of 7.4 – 7.6. In pools sanitized with chlorine, adjust stabilizer levels to 30 – 50 ppm. Maintain available chlorine levels in the range of 1 – 3 ppm.

For treatment of freshly filled, cleaned, or restored pools, add 6 to 11 fluid ounces of [Combat 60] *or* [this product] per 10,000 gallons of water directly into the pool. Maintenance additions of 2 to 4 fluid ounces of [Combat 60] *or* [this product] per 10,000 gallons of water must be made every 5 to 7 days after initial treatment. After heavy rain, add an additional 2 fluid ounces per 10,000 gallons of water.

Prior to using this product, pools with heavy algae growth, ~~should~~must be vacuumed. If the pool is properly equipped, the vacuumed algae growth ~~should~~must be vacuumed directly out of the pool to waste. For pools having light to medium algae growth, add 11 to 17 fluid ounces of [Combat 60] *or* [this product] per 10,000 gallons of water directly to the pool. Brush pool to increase circulation and to remove algae from pool walls and bottoms.

Pool use may resume 15 minutes after applying this product to the water.

Spas:

When using other products in conjunction with this product, follow the instructions on those products. NEVER mix different products together in the same bottle or pail. Always add this product directly to water with the circulation pump on. Clean the spa filter as necessary using a filter cleaning solution. Adjust pH of spa water to the ideal range of 7.4 – 7.6. Maintain available chlorine levels in the range of 1 – 3 ppm.

For treatment of a freshly filled, cleaned, or restored spa, whirlpool, hot tub, or decorative fountain, add initially 0.6 to 1.1 fluid ounces of this product per 1,000 gallons of water directly into the spa or hot tub. Maintenance additions of 0.2 to 0.4 fluid ounces of this product per 1,000 gallons of water ~~should~~must be made every 5 to 7 days after initial treatment.

For spas, whirlpools, hot tubs, and decorative fountains having light to medium algae growth, add 1 to 2 fluid ounces of this product per 1,000 gallons of water directly into the spa or hot tub. Brush spa to increase circulation and to remove algae from spa walls and bottoms.

Spa use may resume 15 minutes after applying this product to the water.

Swimming Pools (Off-Season Winter Months):

When using other products in conjunction with this product, follow the instructions on those products. NEVER mix different products together in the same bottle or pail. Clean the pool filter as necessary following the manufacturer's instructions for backwashing or using a filter cleaning solution. Prepare your pool for the closing season by adjusting pH of pool water to the ideal range of 7.4 – 7.6.

[Combat 60] *or* [This product] will prevent growth of algae during the off-season winter months when pools are not in use. When pool is balanced and free of visible algae, add 6 to 10 fluid ounces of this product per 10,000 gallons of water. If pool has some visible algae growth, add 12 to 20 fluid ounces of this product per 10,000 gallons of water. Add this product with the pump running before draining to

MASTER LABEL

desired winter levels and placing winter cover. It is necessary that a uniform distribution of this product throughout the pool be made for maximum effectiveness. If pool is not covered, it may be necessary to repeat the treatment additional times during the season, consult your dealer.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

(Household / Residential Use)

Keep this product dry in a tightly sealed container when not in use. Store in a cool, dry, well-ventilated areas and away from heat or open flame, and children or persons unfamiliar with its use. In case of decomposition, isolate container (if possible) and flood area with large amounts of water to dissolve all material before discarding the container.

Nonrefillable container. Do not reuse or refill this container. Securely wrap original container in several layers of newspaper and discard in trash or offer for recycling if available.

(Commercial / Industrial / Institutional Use)

PESTICIDE STORAGE: Keep this product dry in a tightly sealed container when not in use. Store in a cool, dry, well-ventilated area, away from heat or open flame. In case of decomposition, isolate container (if possible) and flood area with large amounts of water to dissolve all material before discarding the container.

PESTICIDE DISPOSAL: Pesticide wastes may be hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container. Triple rinse (or equivalent). Then offer for recycling if available or puncture and dispose of in a sanitary landfill, or by incineration, or, if allowed by state and local authorities, by burning. If burned stay out of smoke.
