Antimicrobials Division (7510C)
1200 Pennsylvania Avenue, NW
Washington, D.C. 20004

EPA Reg. Number:

57787-31

Date of Issuance:

MAY 19 2005

Term of Issuance:

Conditional

Name of Pesticide Product:

ProTeam 3" High Tech Tabs

NOTICE OF PESTICIDE:

Reregistration
 Registration

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

Haviland Consumer Products, Inc.
421 Ann Street, N.W.
Grand Rapids, Michigan 49504-2075

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.

2. Make the following label changes:

- a. Revise the EPA Registration Number to read, "EPA Reg. No. 57787-31"
- b. Revise the "Precautionary Statements" to read:

DANGER: Fatal if inhaled. Corrosive. Causes skin burns and irreversible eye damage. Harmful if swallowed or absorbed through skin. Do not breathe dust. Do not get in eyes, on skin or on clothing. Wear protective eyewear (safety glasses) and

rubber gloves when handling this product. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse. Wash hands before eating, drinking, chewing tobacco, or using the toilet.

- c. Under the "Directions for Use" change the word "CAUTION " to read: "NOTICE".
- d. Under the "Storage and Disposal" statement add the following sentence:

Do not contaminate food or feed by storage or disposal.
- e. Under the "Storage and Disposal" statement change the word "DISPOSAL" to read: "CONTAINER DISPOSAL".
- f. You must place a "EPA Establishment Number" on your label. Please contact the Information Services Branch (John Jamula) at (703) 305-6426.
- g. The Child Resistance Packaging (CRP) is required.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

This product is specially formulated for use in automatic type feeders. It provides highly effective pool water sanitization and algae control when used in this manner. This combination of ingredients enhances the water quality to reduce potential eye and skin irritation. This product is formulated to dissolve more cleanly and uniformly in automatic feeders thereby reducing plugging, fouling, maintenance requirements and adjustments.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Read entire container and use strictly in accordance with precautionary statements and directions. Prior to using this product, the filter system should be properly cleaned and backwashed and the pool water pH adjusted to 7.2-7.6. It is recommended that the pool be superchlorinated to establish a chlorine residual of 2 ppm of free chlorine.

INITIAL APPLICATION: This product is specially designed for use in floaters and automatic type feeders except for bromine only type feeders (See Notice below). Prior to adding this product to the feeder, refer to the operating instructions provided by the manufacturer of the unit. Add to the feeder an initial supply of tablets. Close the feeder, making sure the lid is securely tightened. Adjust the feeder to the lowest setting according to the manufacturer's instructions. Approximately 3 to 4 days after adding the initial supply of tablets to the feeder, turn off the pump, open the feeder and observe the quantity of tablets remaining. If more than 1/2 of the tablets are gone contact your ProTeam® dealer for recommendations on how to reduce your feed rate. If at least 1/2 of the tablets remain in the feeder, turn pump back on and check the residual of sanitizer in the pool water using a ProTeam® test kit. Adjust the feeder to provide a sanitizer level within the ideal range of 1.0-1.5 ppm in the pool water.

ROUTINE MAINTENANCE: Test pool water regularly (at least weekly) and check feeder weekly, refilling as needed. Add initial product and adjust the feeder as needed to maintain an ideal sanitizer level of 1.0-1.5 ppm in the pool water. Regular use of a ProTeam® test kit is recommended to make certain adequate levels of sanitizer and proper pH are being maintained in the pool water.

CAUTION: Do not use this product in automatic brominators. Use of this product through a bromine type feeder could cause an adverse chemical reaction or explosion resulting in serious bodily injury, death or property damage.

Reentry into treated swimming pools is prohibited above levels of 3 ppm chlorine.

PRECAUTIONARY STATEMENTS - HAZARD TO HUMANS AND DOMESTIC ANIMALS.

DANGER Corrosive. Causes irreversible eye damage and skin burns. May be fatal if inhaled. Do not get in eyes, on skin or clothing. Do not breathe dust. Wear goggles or face shield and protective rubber gloves when handling this product. Harmful if absorbed through skin. Harmful if swallowed. Wash thoroughly with soap and water after handling and before eating, drinking, or using tobacco. Remove contaminated clothing and wash before reuse.

PHYSICAL OR CHEMICAL HAZARDS STRONG OXIDIZING AGENT. Do not mix with other chemicals. Mix only with water. Never add water to product. Always add product to large quantities of water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product.

Such use may cause a violent reaction leading to fire and explosion. Contamination with moisture, organic matter or other chemicals will start a chemical reaction and generate heat, hazardous gas, possible fire and explosion. In case of contamination or decomposition, do not reseal container. If possible, isolate container in open air or well ventilated area. Flood area with large volumes of water.

ENVIRONMENTAL HAZARDS: THIS PESTICIDE IS TOXIC TO FISH AND AQUATIC ORGANISMS.

Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product into sewer system without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or the regional office of EPA.

NOTE: Buyer assumes all responsibility for safety and use not in accordance with directions.

*The ProTeam® SYSTEM is a patented method for treatment of swimming pools. Additional patents pending.

FIRST AID:

- 1. If Swallowed:** Call a poison control center or doctor immediately for treatment advice. Chemtrec 1-800-424-9300. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.
- 2. If On Skin Or Clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. Chemtrec 1-800-424-9300.
- 3. If Inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call poison control center or doctor for further treatment advice. Chemtrec 1-800-424-9300.
- 4. If In Eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. Chemtrec 1-800-424-9300. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

* **Note to Physician:** Probable mucosal damage may contraindicate the use of gastric lavage.*

STORAGE AND DISPOSAL:

STORAGE: Keep this product dry in a tightly sealed container when not in use. Store in a cool, dry, well-ventilated area away from heat or open flame. In case of decomposition, isolate container (if possible) and flood area with large amounts of water to dissolve all material before discarding the container.

DISPOSAL: Do not reuse empty container. Disposal Instructions: Call your local solid waste agency or 1-800-CLEANUP (253-2687) for proper disposal of empty containers and unused product.
