

U.S. ENVIRONMENTAL PROTECTION AGENCY
 Office of Pesticide Programs
 Antimicrobials Division (7510P)
 1200 Pennsylvania Ave., N.W.
 Washington, D.C. 20460

EPA Reg. Number:

57787-39

Date of Issuance:

6/6/23

NOTICE OF PESTICIDE:

Registration
 Reregistration
 (under FIFRA, as amended)

Term of Issuance:

Unconditional

Name of Pesticide Product:

Hava-Algaecide 7.4

Name and Address of Registrant (include ZIP Code):

Haviland Consumer Products, Inc.
 421 Ann Street
 Grand Rapids, MI 49504
 Electronic Transmittal: [Julie.ownbey@tsgconsulting.com]

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Antimicrobials Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA).

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is unconditionally registered in accordance with FIFRA section 3(c)(5) provided that you:

1. Submit and/or cite all data required for registration/reregistration/registration review of your product when the Agency requires all registrants of similar products to submit such data.
2. The data requirements for storage stability and corrosion characteristics (Guidelines 830.6317 and 830.6320) are not satisfied. A one year study is required to satisfy these data requirements. You have 18 months from the date of registration to provide these data.

Signature of Approving Official:

Demson Fuller, Product Manager 32
 Regulatory Management Branch I,
 Antimicrobials Division (7510P)

Date:

6/6/23

3. Make the following label changes before you release the product for shipment:
 - Revise the EPA Registration Number to read, “EPA Reg. No. 57787-39.”
4. Submit one copy of the revised final printed label for the record before you release the product for shipment.

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the Agency. See FIFRA section 2(p)(2). If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process, FIFRA section 12(a)(1)(B). Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA’s Office of Enforcement and Assurance.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records. Please also note that the record for this product currently contains the following CSFs:

- Basic CSF dated 08/23/2022

If you have any questions, please contact Wanda Henson by phone at (202) 566-0650, or via email at henson.wanda@epa.gov

Sincerely,

Demson Fuller, Product Manager 32

[**Note to Reviewer:** In accordance with 40 CFR 156.68(d), all first aid statements, as prescribed, will appear on the front panel of the product label.]

FIRST AID

Have the product container or label with you when calling a poison control center or doctor or going for treatment. For general information on product use, etc., call the National Pesticides Information Center (NPIC) at 1-800-858-7378, Monday – Friday, 8:00 am – 12:00 pm Pacific Time; email: npic@ace.orst.edu; or website: <http://npic.orst.edu/>. You may also contact the Poison Control Center 1-800-222-1222 for emergency medical treatment information. For emergency information call CHEMTREC at 1-800-424-9300.

IF SWALLOWED:

Call a poison control center or doctor immediately for treatment advice.

Have person sip a glass of water if able to swallow.

Do not induce vomiting unless told to do so by a poison control center or doctor.

Do not give anything by mouth to an unconscious person.

IF ON SKIN OR CLOTHING:

Take off contaminated clothing.

Rinse skin immediately with plenty of water for 15-20 minutes.

Call a poison control center or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth- to- mouth if possible.

Call a poison control center or doctor for further treatment advice.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes.

Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

Call a poison control center or doctor for treatment advice.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION. Harmful if swallowed or absorbed through the skin. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using restroom. Remove and wash contaminated clothing before reuse.

[Optional Commercial Instructions] **USER SAFETY REQUIREMENTS**

- Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry.

{Text between [brackets] are optional and may not appear on final label}

{Text between {braces} are comments, notes, similar that will not appear on the final label.}

- Discard clothing and other absorbent materials that have been drenched or heavily contaminated with this product's concentrate. Do not reuse them.
- User must wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.
- User must remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
- Users must remove PPE immediately after handling this product. As soon as possible, wash thoroughly and change into clean clothing.

{Statement for end-use products in containers less than 5 gallons (liquid)}

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic invertebrates. This product is for use in swimming pools only.

{Statement for end-use products in containers greater than 5 gallons (liquid)}

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic invertebrates and may contaminate water through runoff. This product is for use in swimming pools only. Equipment wash water/rinsate and/or treated effluent must not be discharged where it will drain into lakes, streams, ponds or other public water bodies as injury to non-target plants and animals may occur.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Read all directions for use carefully before applying. When using other products in conjunction with this product, follow the instructions on those products. NEVER mix different products together in the same bottle or pail. Pool use may resume after applying this product to the water AND when chlorine levels are at or below 4 ppm.

[Optional Instructions, May not appear on label]

Discharge Directions for [Commercial] and [Residential] [Pool,] [Spa,] [Hot Tub,] and [Fountain] Uses

Before draining a treated [pool,] [spa,] [hot tub,] or [fountain] contact your local sanitary sewer and storm drain authorities and follow their discharge instructions. Do not discharge treated pool or spa water to any location that flows to a gutter, storm drain or natural water body unless discharge is allowed by state and local authorities. For end-use products, NPDES permit language is not required and must be removed if currently on the label.

{Algae treatment and prevention for swimming pool, use directions}

[This product]{or}[EPA Registered Product Name] can eliminate all existing algae growth and prevent future growth in swimming pools. When used according to directions, [This product]{or}[EPA Registered Product Name] is effective against all algae types including green, blue-

**Master Label
Hava-Algaecide 7.4**

**EPA Reg. No. 57787-xx
Revision Date: 05-11-23**

{Text between [brackets] are optional and may not appear on final label}

{Text between {braces} are comments, notes, similar that will not appear on the final label.}

green, yellow-mustard, and black algae. Safe for all surfaces. [[This product]{or}[EPA Registered Product Name] can be used routinely with most chlorine and bromine sanitizing systems for water that will remain algae free during the year. Avoid use with biguanide treated water and salt pools.

[Directions to be used for prevention of pool algae]

PRIOR TO APPLICATION

Clean the pool filter following the manufacturer’s instructions for rinsing or backwashing. Adjust pH of pool water to 7.4 or lower. Brush all surfaces. Black algae growth must be brushed vigorously. Pools with heavy algae growth should be vacuumed. If the pool is properly equipped, algae growth should be vacuumed directly out of the pool to waste.

TREATMENT OF VISABLE POOL ALGAE: Superchlorinate pool water prior to application of this product and circulate 1 to 2 hours before applying this product. Pools with light to medium pool algae growth, add 4 fluid ounces of [This product]{or}[EPA Registered Product Name] per 10,000 gallons of water directly to the pool with the pool pump operating. Pools with heavy algae growth, add 8 fluid ounces per 10,000 gallons of water. Brush pool surfaces to increase circulation and to remove algae from pool walls and bottoms. Black algae must be brushed vigorously before and after application for best results. After applying [This product]{or}[EPA Registered Product Name], continuously operate pool pump for 48 hours. In cases of persistent algae, repeat brushing and product application after 3-4 days. Once pool is clear, clean the filter with a cleaning solution for swimming pool filters.

[Directions to be used for winterize/close pools during off-season care]

PRIOR TO APPLICATION

Resolve any existing pool water issues prior to closing such as excessive algae or cloudy water. Clean the pool filter following the manufacturer’s instructions for rinsing or backwashing. Adjust pH of pool water to or between 7.2-7.6, total alkalinity 80-120 ppm and calcium water hardness 200-400 ppm. Pools should be brushed down and free from any floating or surface debris.

TREATMENT FOR [OFF-SEASON] [WINTER] [CARE]: Water should be superchlorinated or shocked using a chlorine-free oxidizing shock, according to label directions. At least two hours after water has been superchlorinated or shocked, add 16 ounces of [[This product]{or}[EPA Registered Product Name] for every 10,000 gallons of water. Circulate for two hours, then proceed with closing procedures for your geography, such as covering the pool or reduced circulation time.

[Optional Step #1, Weekly Application] ALGAE FREE MAINTENANCE

Master Label
Hava-Algaecide 7.4

EPA Reg. No. 57787-xx
Revision Date: 05-11-23

{Text between [brackets] are optional and may not appear on final label}

{Text between {braces} are comments, notes, similar that will not appear on the final label.}

This product can be used regularly with all other pool maintenance products to keep pools clear and free from algae. At least twice weekly, adjust pH (7.2-7.6), total alkalinity (80-120 ppm) and free available chlorine levels (1-4 ppm) to appropriate levels. After any necessary water balance adjustments, add an initial dose of 8 ounces of [Algae Kil CB 7]{or}{this product} [[This product]{or}[EPA Registered Product Name] for every 10,000 gallons of water to the pool. Every other week afterwards, add 4 ounces of [Algae Kil CB 7]{or}{this product} for every 10,000 gallons of water to the pool. Brush or vacuum surfaces weekly regardless of appearance.

{Text between [brackets] are optional and may not appear on final label}

{Text between {braces} are comments, notes, similar that will not appear on the final label.}

[Optional Step #2, Three Month Application] ALGAE FREE MAINTENANCE

This product can be used in conjunction with all the other necessary pool maintenance products to keep pools clear and free from algae. At least twice weekly, adjust pH (7.2-7.6), total alkalinity (80-120 ppm) and free available chlorine levels (1-4 ppm) to appropriate levels. After any necessary water balance adjustments, add 16 ounces of [[This product]{or}[EPA Registered Product Name] for every 10,000 gallons of water to the pool. Reapply every 3 months. Brush or vacuum surfaces weekly regardless of appearance.

[Optional Step #3, Four Month Application] ALGAE FREE MAINTENANCE

This product can be used in conjunction with all the other necessary pool maintenance products to keep pools clear and free from algae. At least twice weekly, adjust pH (7.2-7.6), total alkalinity (80-120 ppm) and free available chlorine levels (1-4 ppm) to appropriate levels. After any necessary water balance adjustments, add 24 ounces of [[This product]{or}[EPA Registered Product Name] for every 10,000 gallons of water to the pool. Reapply every 4 months. Brush or vacuum surfaces weekly regardless of appearance.

[Optional Step #4, [Winter][Closing][Off-Season] Application]

This product can be used to help pools remain free and clear from algae during the off-season. To prepare for the off-season, remedy any existing water quality issues, then adjust pH (7.2-7.6), total alkalinity (80-120 ppm). Pools should be brushed down and free from any floating or surface debris. Water should be superchlorinated or shocked using a chlorine-free oxidizing shock, according to label directions. At least two hours after water has been shocked, add 16 ounces of [[This product]{or}[EPA Registered Product Name] for every 10,000 gallons of water. Circulate for two hours, then proceed with closing procedures for your geography, such as covering the pool or reduced circulation time.

General Precautions and Restrictions

- Undiluted product or concentrations above 1.0 ppm Cu may be injurious to crops, grass, ornamentals and other foliage. Do not apply in such a way that the concentrated product comes in contact with crops, ornamentals, grass or desirable plants.
- Do not allow back-flush filter water to come in contact with desirable plant species. Water treated with this product should not be discharged water into lakes, streams, or ponds. Disperse discharge evenly over lawn or yard.

{Text between [brackets] are optional and may not appear on final label}

{Text between {braces} are comments, notes, similar that will not appear on the final label.}

{Optional water volume calculator}

How to Estimate Gallon Capacity of Your Pool:

Measure length (L), Width (W) and average Depth (D) in feet.

- For square or rectangular pools: $L \times W \times D \times 7.5 = \text{Gallons}$.
- For circular or elliptical pools: $L \times W \times D \times 5.9 = \text{Gallons}$.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

Storage: Store in original container in a cool, dry place inaccessible to children or persons unfamiliar with its use.

Pesticide Disposal: Product or rinsate that cannot be used must be diluted with water before disposal in a sanitary sewer.

Container Handling: Nonrefillable container. Do not reuse or refill this container. Offer for recycling if available. If not, discard in trash.
