c. Add the following statement to your product labeling:

"This product is not cleared for use in paper or adhesives which may come in contact with food."

3. Submit the following studies using the 95% powder material within one year of the date stamped on this notice of conditional registration:

Acute Eye Irritation Study Acute Oral LD50 Study Acute Inhalation LC50 Study Dermal LD50 Study Acute Skin Irritation Study Dermal Sensitization Study

)

- 4. You must have submitted the above data by June 18, 1998 for the Agency to review.
- 5. This conditional registration will expire automatically on December 31, 1999. If you fail to satisfy the conditions imposed in the registration, EPA may issue a Notice To Cancel under Section 6(e) of FIFRA.
- 6. Submit two copies of the revised final printed label for the record.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely,

Marshall Swindell

Acting Product Manager (33) Regulatory Management Branch 1 Antimicrobial Division (7510W)

SUTTOCIDE A 50% SOLUTION

PRECAUTIONARY STATEMENTS

CMASTIC ANNALS

WARNING: Causes substantial but temporary eye injury, Harmful if swallowed or absorbed through the skin. Do not get in eyes, on skin or on clothing. Wear goggles and gloves when handling and before eating, drinking, or using tobacco products. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

ENVIRONMENTAL HAZARDS

Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge, Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

DIRECTIONS FOR USE

SUTTOCIDE A 50% SOLUTION is a biocidal agent used to inhibit the growth of bacteria and fungi, it is for indoor commercial and industrial use and is generally effective at concentrations of 0.1% to 0.5% (2 to 10 gallons of SUTTOCIDE A 50% SOLUTION per 1,000 gallons of the product being treated. This will yield 1,000 to 5,000 ppm of active ingredient). The concentration of SUTTOCIDE A 50% SOLUTION necessary for acceptate preservation will depend on a variety of factors including the use of other raw materials which may provide nutrients for bacterial growth. To determine more precise application rates, all products should be subject to microbial challenge testing.

Manufactured by:

SUTTON LABORATORIES

Division of International Specialties Products, Inc. 116 Summit Avenue Chatham, NJ 07928 A Broad Spectrum Preservative and Biocide

ACTIVE INGREDIENT-

TOTAL:

100.0%
