Notification

Dear Sir/Madam:

Becker Underwood, Inc. is notifying the Agency that we are revising our label for Rejex-it AG-145 (EPA Reg. No. 58035-13). Specifically, the revisions outlined in this notification are:

- In response to an August 27, 2001 telephone conversation with Jim Downing, we are revising the terms used in the dilution and application directions from "small areas" and "large areas" to "household use" and "agricultural/commercial use." This revision is to correct a change made in our February 13, 2001 notification.
- We are deleting the statement "Rejex-it AG-145 has been formulated from Food Grade ingredients ..." This revision is based on a June 20, 2001 letter we received from the Agency on a similar product (Rejex-it TP-40; EPA Reg. No. 58035-7).

This notification is consistent with the provisions of PR Notice 98-10 and EPA regulations at 40 CFR Part 152.46, and no other changes have been made to the labeling or the confidential statement of formula of this product. I understand that it is violation of 18 USC Section 1001 to willfully make any false statement to EPA. I further understand that if this notification is not consistent with the terms of PR Notice 98-10 and 40 CFR Part 152.46, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA.

Please call me at 703-847-7407 if you have any questions or if I may be of further assistance.

Sincerely,

Catherine B. Rice
