STORAGE AND DISPOSAL

STORAGE: Store in a cool, dry, well-ventilated area away from heat and fire. Do not store in a plastic storage area. Do not contaminate water, food, or feed by storage or disposal. Personal contact or handling, containers after 4 wear protective clothing. Open containers only in a well-ventilated area. Use appropriate protective clothing and respiratory protection if necessary.

RETURN OF CYLINDERS

Cylinders are the property of: Shadow Mountain Products, 8779 Highway 24, Hollister, CA 95023. Cylinders are to be returned to the manufacturer. 1. When a cylinder is empty, the valve should be closed, the safety cap screwed onto the valve outlet, and the protection bonnet replaced prior to its return to the shipper. 2. Do not ship cylinders without safety caps or valve protection bonnets. 3. When a cylinder is partially full and there is no further requirement for the product, contact Shadow Mountain Products for return instructions. 4. Containers should never be refilled by the consumer or used for any other product or purpose.

SHIPPING

This fumigant is classified in the U.S. Department of Transportation Hazardous Materials Regulations as Chloropicrin Liquid class 2.3 and is exempt from specifications, packaging, marking, and labeling are allowed. Describe empty cylinders as having not contained Chloropicrin Liquid. Do not ship with food, feeds or clothing.

HANDLING

1. The valve protection bonnet and safety cap should be removed only when fumigant is about to be removed from the cylinder. The safety cap and valve protection bonnet must be replaced when the cylinder is not in use. 2. Cylinders should never be subjected to rough handling or to abnormal mechanical shock such as dropping, bumping, dragging, or sliding. 3. Ropes, slings, hooks, lumps, and similar handling devices should not be used for unloading cylinders. 4. A suitable hand truck, fork truck, or similar device to which the cylinders can be firmly secured should be used for transporting the heavier cylinders.

SPILL OR LEAK PROCEDURE

Evacuate immediate area of spill or leak. Use SCBA combination or self-contained breathing apparatus for entry into affected area to correct problem. Move leaking or damaged containers outdoors or to an isolated location. Observe strict safety precautions. Work upwind if possible. Allow spilled material to evaporate, or to absorb on material to dry and earth or similar absorbent material which may be limited of an site or at an approved disposal facility. Do not permit entry into spill area or cleanup by unprotected persons until concentration of chloropicrin is determined to be less than 0.1 ppm.

DISPOSAL

Do not contaminate water, food, or feed by storage or disposal. Pesticide wastes are toxic. Proper disposal of insecticide, spray mixture, or residue is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency or the Hazardous Waste representative of the nearest EPA Regional Office for guidance.
