Campbell Chemicals, Inc.  
1664 Headland Drive  
St. Louis, MO 63026

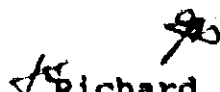

Attn: Mr. Carl Campbell

Subject: Camicide Insect Spray Formula #50  
EPA Reg. No. 58284-11  
Submission: September 18, 1991

The proposed amendment to the registration for the product cited above under the Federal Insecticide, Fungicide, and Rodenticide Act, updating the label, is acceptable subject to the comments listed below. Five copies of the finished labeling must be submitted prior to releasing the product for shipment. A stamped copy of the label is enclosed for your records.

- 1) Delete Refined Petroleum Oil from the active ingredients and include its percentage under the heading Inert Ingredients.
- 2) Add a footnote to the ingredient statement to read:  
Contains petroleum distillate."
- 3) Delete the statement "General Classification."
- 4) Change the statement "Do not contaminate water by cleaning equipment or disposal wastes" to read "Do not contaminate water when disposing of equipment washwater."
- 5) Expand the Statement of Practical Treatment for If Swallowed to include the statement, "Do not induce vomiting because of aspiration hazard."
- 6) Submit an updated Confidential Statement of Formula (CSF). A blank form is enclosed for your use.

Sincerely,

  
Richard F. Mountfort  
Product Manager 10  
Insecticide/Rodenticide Branch  
Registration Division (H7505C)

## DIRECTIONS FOR USE GENERAL CLASSIFICATION

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Always use a good insecticide sprayer designed for the specific application. Spray into space to kill flying insects. Spray surfaces as directed to kill crawling insects. Follow directions for best results.

**APPLICATION:** For Space Spraying, adjust the nozzle faucet lever to the position shown to produce a very fine cloud of mist. For best results before spraying, close all openings and turn off air conditioning and ventilation systems.

**INDOORS:** To Kill Flies, Mosquitoes, Gnats, Small Flying Moths, Wasps: Discharge spray mist into corners and upward in center of room. Spray at the rate of 1/2 oz. per 100 cu. ft. of room space. For wasps, application to nests should be made in the evening, when insects are at rest. Spray into hiding and breeding places, contacting as many insects as possible. Do not remain in treated area. Leave room closed for ten minutes. Ventilate thoroughly before re-entry. Repeat as needed.

To Kill Roaches, Waterbugs, Silverfish, Crickets, Spiders: Apply directly into infested areas and onto infested surfaces. Contact as many insects as possible. Where possible, spray heavily all cracks, crevices, under cabinets, sinks, around drains, floors, and any place where these pests crawl, nest or breed. Repeat weekly or as needed to maintain lasting control.

To Kill Fleas: Fleas infesting premises can be controlled quickly and effectively by spraying floors and cracks of the infested area. Treat hark in carpet and upholstered furniture. Spray liberally in these areas, as well as along baseboards, wall cracks and sleeping quarters of animals. Repeat as necessary.

To Kill Ants: Spray along ant trails, into nests, porch landings, banking supports, foundations or the sides of houses up to window level. Spray into all openings from which the ants emerge. Repeat as necessary.

To Kill Brown Dog Ticks: The pest is to be directly contacted with the spray. Apply the spray liberally to floors, floor coverings, bases of walls, cracks, crevices and especially sleeping area of animals. The bedding of the animal quarters should be thoroughly treated and allowed to dry before replacing. Repeat as necessary.

**OUTDOORS:** To Kill Flies, Mosquitoes and Gnats on the Patio or Back Yard: Standing upward of the area to be sprayed, spray area to be treated. Use enough material to adequately cover the area. Also treat shrubbery and other areas where these insects hide.

### STORAGE AND DISPOSAL

**Disposal:** Do not reuse empty container. Wrap and put in trash collection. **Storage:** Store in a cool dry place. Keep container closed.

### Precautionary Statements Hazards to Humans & Domestic Animals

**CAUTION:** Harmful if swallowed. Do not apply directly to food. Cover or remove all food and food handling surfaces. Do not apply as a space spray while food handling operations are in progress. This product may be applied as a contact, mist or spray while food handling is in progress when this product is used following all the directions and precautions on this label. Keep this product out of direct sunlight. Avoid breathing of vapor or contact with eyes or skin. Vacate premises after treatment and ventilate before reoccupying. In hospitals, remove patients from room prior to treatment. Room should be ventilated for two hours after spraying. Do not return patients to room until after ventilation. Avoid contamination of foodstuffs. Cover or remove food before using. After using this product, food contact surfaces and equipment should be washed with an effective cleaning compound followed by a potable water rinse. Remove pets, birds, and cover fish aquariums before spraying.

**ENVIRONMENTAL HAZARDS:** This product is toxic to fish. Do not use in areas where fish or reptiles may be exposed to the spray. Keep out of lakes, streams or ponds. Do not contaminate water by cleaning of equipment or disposal of wastes. Do not apply where runoff is likely to occur. Do not apply when weather conditions favor drift from areas treated. Apply this product only as specified on this label.

WARNING! FLAMMABLE! KEEP AWAY FROM HEAT OR OPEN FLAME

### STATEMENT OF PRACTICAL TREATMENT

If Swallowed: Contact a physician or poison control center immediately. **If on Skin:** Remove contaminated clothing and wash affected areas with soap and water. **If in Eyes:** Flush eyes with plenty of water. Get medical attention if irritation persists. **If Inhaled:** Remove victim to fresh air. Apply artificial respiration, if indicated.

**Important Note:** Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith.
