### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling

For maximum insect control, a combination localized surfact application and space treatment is recommended.

SPACE SPRAY For rapid control of house flies, fruit flies, mosquitoes, flying moths and gnats. Close doors and windows and shut off ventilating systems. Use a good sprayer adjusted to deliver a fine mist, directing spray toward the upper portions of the enclosure and filling the room with mist. Use 1/2 to 1 oz of spray for each 1000 cu. It of space. Keep area closed to: at least 10 minutes after spraying. Vacate area after treatment and ventilate before reoccupying

VAPOR SPRAY Camicide Liquid Spray is a potent spray that permits its use as a fog or vapor treatment in special electric, steam or compressed air equipment. Use in accordance with manufacturers' directions for the individual type of applicator selected. Desages vary with different generators, but many such applicators are designed to give most effective results when the material is used at 1 pint to each 8 000 - 15 000 cu ft of space in all cases, dosages should be sufficient to thoroughly fill the enclosure with fog or vapor insects controlled will be the same as given for "Space Spray" above.

SURFACE SPRAY. To control cockroaches, sity writish, crickets, solders, clover mites, scorpions, use Camicide Liquid Ir. a coarse droplet spray using approximately 1 gat of material to each 750 sq. ft. of surface Spray intested areas thoroughly and direct the liquid behind baseboards, moldings, cabinets, shelves, sinks, door and window frames, pipes, toward drains and dark corners and into cracks, crevices, recesses and similar hiding places, contacting insects whe ever possible

Against Ant Infestations, trent shelves, cabinets and storage areas. spray ant runs, trails, Jasebo ads, thresholds and other places of entry and treat nests liberally

To Control Bedbugs effectively, apply liberally to top, ends, sides and bottom of mattresses, spraying thoroughly all tufts, seams and folds Spray springs and frames, directing the liquid into all cracks and lock joints. Treat walls, baseboards, moldings, floors, closets, ic from furniture and picture frames with particular attention to protected bedbug hiding and breeding places.

To Control Carpet Beetles effectively, apply to floor areas and baseboards Spray directly into cracks, crevices and under carpets where insects may be found. Treat both the underside and top side of infested carpets. Spray inside of trunks, closets and infested areas of shelving. AS A CONTACT SPRAY Camicide Liquid Spray is also very effective when used as a contact spray against mosquitoes, gnats, wasps, hornets and scorpions. When these insects are present, contacting them with a fine mist will provide immediate kill. Soraving walls, ceilings lights moldings, screen doors and door frames, beams and light cords will make these locations what available as realing or hiding places for these insects
