

US ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (75-767) WASHINGTON, DC 20460	EPA REGISTRATION NO. 58300-2	DATE OF ISSUANCE MAY 16 1990
	TERM OF ISSUANCE Until Reregistration	
	NAME OF PESTICIDE PRODUCT Dynamite and/or Dynamit 2001 Plus	

NOTICE OF PESTICIDE: REGISTRATION
 REREGISTRATION
 (Under the Federal Insecticide, Fungicide,
 and Rodenticide Act, as amended)

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Dynamite
 24 Bonds
 1874

1161/363616
18/14

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is registered, and distributed, in accordance with FIFRA Act, (c)(7)(A) provided that you:

1. Submit and/or file a copy of your pesticide label with registration/reregistration of your product under FIFRA Act, (c)(7)(A) (when the Agency receives all registration of similar products for that pesticide).

2. Mark the label in accordance with the label before you release the product for shipment:

- 1. Mark the product, "EPA Registration No. 58300-2."
- 2. The composition of your product label should indicate an aspiration, emesis, or other means of relief, such as vomiting and vomiting was induced. If your product is a contact insecticide or nerve gas, please advise the IF Swallowed.

- c. Delete the paragraph beginning "This is specially processed Diatomaceous Earth fossil product and is ...". Words or phrases implying that a product possesses unique characteristics because of its composition are not acceptable. In addition the statement is misleading since this is not a diatomaceous earth product, but a product composed of diatomaceous earth, piperonyl butoxide and pyrethrin.
- d. As currently written the sites of application and pests controlled are lumped together. For the layperson more specific directions regarding where to apply the product to control specific pests should be given. We suggest you revise the directions similar to that appearing on the label under EPA Registration No. 6330-1, i.e.,

For roaches and silverfish: Dust lightly paying special attention to cracks and hidden surfaces around pipes...etc.
Ants, crickets, boxelder bugs: Dust lightly areas around windows...etc.

3. The additional products labels submitted with you May 8, 1990 letter are being returned. They must be resubmitted as application for new registration since the directions for use and precautionary statements are different than the subject product label. Note also that the ingredient statement "Multipurpose Contact Insecticide" is different than the subject product formulation.

4. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely yours,

George T. LaRocca
 Product Manager 15
 Insecticide-Rodenticide Branch
 Registration Division (H7505C)

DYN-O-MITE[®]

WARRANTY STATEMENT

Seller warrants that this product conforms to the ingredient statement on the label. Since conditions of use, such as weather and compatibility with other chemicals will vary, seller makes no claims other than those stated on label.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in any manner inconsistent with its labeling.

APPLICATION

SHAKE WELL BEFORE USE. Turn to the desired spout, aim and squeeze. Apply light coat of dust to areas around the range, refrigerator, dishwasher, washer and dryer, under sinks, around toilets, motor housings, hollow furniture legs, under furniture, and perimeter of all rooms, window tracks and crevices. Also apply to attics, basements, crawl spaces, and perimeter of all storage areas.

CONTROLS: Cockroaches, silverfish, bedbugs, ants, flies and crickets.

STORAGE & DISPOSAL

Store in cool dry area out of reach of children. Do not reuse empty container. Wrap in newspaper and put in trash container.
