Lo-Chlor Chemicals
 c/o Skip Greggs, Agent
 Horner Marketing Services
 5755 Powerline Road
 Ft. Lauderdale, Florida 33309

Dear Mr. Greggs:

Subject: Lo-Chlor Pool Algicide
 EPA Reg. no. 58412-1
 Re: Labeling Amendment
 Your submission dated May 12, 1994

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable subject to the comment listed below. Please submit five (5) copies of your final printed labeling incorporating these changes before releasing your product for shipment. A stamped copy is enclosed for your records.

Update your ingredient statement to conform to the format required in the Registration Standard for copper sulfate. This statement must run parallel with, and be clearly distinguished from, other text on the panel. Preferably, the ingredient statement should appear immediately below the product name. For example:

Active Ingredient:
 xxxxxx*.....xxxxxx%
 Inert Ingredients:.....xxxxxx%
 Total.....100.00%
 (*Copper as elemental?????????????????????)

Please note the asterisk after the active ingredient. This is to denote the amount of copper as elemental. The amount of copper as elemental should appear after the total of the active ingredient statement. (Refer to the above example).

Sincerely,

KSJ

BEST AVAILABLE COPY

**TO CONTROL ALGAE IN YOUR SWIMMING POOL
SIMPLY ADD
LO-CHLOR POOL ALGICIDE
EVERY THREE MONTHS**

**YOUR POOL WATER WILL SPARKLE LIKE
NEVER BEFORE**

**KEEP ALGAE AT BAY
THE LO-CHLOR WAY
DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling

DOSAGE RATES

EVERY THREE MONTHS: 16 fl oz LO-CHLOR POOL ALGICIDE per 10,000 gallons pool water (or 500ml per 40,000L) will prevent algae growth in all pool types

SEVERE ALGAE TREATMENT: 32 fl oz LO-CHLOR POOL ALGICIDE per 10,000 gallons pool water (or 1 Litre per 40,000L)

WINTER DOSE: 16 fl oz LO-CHLOR POOL ALGICIDE per 10,000 gallons pool water (or 500ml per 40,000L)

GENERAL DIRECTIONS

1. Maintain pool water in the pH range 7.2 to 7.8. Adjust pH to 7.2 for severe algae.
2. Ensure that filtration system is working properly and that filtration cycle is adequate.
3. A regular brushing program will assist in the removal of stubborn algae.
4. Calculate the volume of LO-CHLOR POOL ALGICIDE required for your pool.
5. Add the product directly to the pool, distributing it over as wide an area as possible.
6. Whilst LO-CHLOR POOL ALGICIDE controls algae it is important that adequate levels of sanitisers (chlorine) be maintained to control bacterial growth.

PRECAUTIONARY STATEMENTS

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION**

LO-CHLOR POOL ALGICIDE may cause eye irritation and skin damage. Do not get in eyes or on clothing. In case of contact, wash thoroughly. For eye flush with plenty of water and get medical attention immediately. Harmful if swallowed. Do not induce vomiting or give anything by mouth to an unconscious person. If swallowed call a doctor.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Treated effluent should not be discharged in lakes, ponds or public water.

DISPOSAL

Do not re-use empty container. Wrap container and put in trash collection.

NOTICE

Neither M.I. International Pty Ltd nor the seller of this product can accept any responsibility where the product is not used according to directions and for the manner in which it was intended.
