U.S. ENVIRONMENTAL PROTECTION
AGENCY

Office of Pesticide Programs
Antimicrobials Division (7510-P)
1200 Pennsylvania Avenue N.W.
Washington, D.C. 20460

NOTICE OF PESTICIDE:

Registration
 Reregistration

(under FIFRA, as amended)

EPA Reg.

Number:

58616-6

Date of

Issuance:

Oct. 18, 2007

Term of Issuance: page 1 of 2

Conditional

Name of Pesticide Product:

3024

Name and Address of Registrant (include ZIP Code):

ProChem Tech International Inc.
51 Prochem Tech Drive, P.O. Box 214
Brockway, PA. 15824

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and, submit acceptable responses required for re-registration of your product under FIFRA section 4.
2. Change EPA File Symbol 58616-A to EPA Registration Number 58616-6.
3. Change the percentage of Inert Ingredients to 85.1%.
4. Move the Storage and Disposal sections to the end or bottom of the label.
5. All instances of the advisory instruction "should," must be changed to the mandatory instruction "must" as indicated on label.
6. Insert the word "of" as indicated in the directions for Pulp and Paper Mills.

A copy of our review, D342807, of your product chemistry data submission is enclosed. Submit one copy of the finished final printed label prior to releasing this product for sale. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e).

Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the conditionally approved label is enclosed for your records.

ProChemTech International Incorporated 3024

MICROORGANISM CONTROL CHEMICAL

Activated 3024 is an effective agent for controlling algal, bacterial, and fungal slime in condensing and cooling equipment in which recirculating water is used as the cooling medium and in reservoirs or ponds which serve as the source of boiler feedwater or cooling water. Activated 3024 can also be used to control bacterial, fungal, and algal slime in decorative fountains, air washers, food, beverage, and industrial process pasteurizers, pulp & paper mills, and wastewater treatment plants.

ACTIVE INGREDIENTS

Sodium bromide

INERT INGREDIENTS

Total

14.9%

100.0%

Total available bromine = 34.8%

FOR INDUSTRIAL AND COMMERCIAL USE ONLY

KEEP OUT OF REACH OF CHILDREN

CAUTION

FIRST AID

If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, and then continue rinsing the eye. Call a poison control center or doctor for further treatment advice.

If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for further treatment advice.

If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, and then give artificial respiration, preferably mouth to mouth if possible. Call a poison control center or doctor for further treatment advice.

If Swallowed: Call a poison control center or doctor for further treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

Have the product label or container with you when calling a poison control center or doctor, or going for treatment. You may also contact 1(800)225-3924 for emergency medical treatment information.

PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

HARMFUL IF SWALLOWED
CAUSES EYE AND SKIN IRRITATION
IRRITATING TO NOSE AND THROAT

Wash thoroughly with soap and water after handling.
Remove contaminated clothing and wash before reuse.

ENVIRONMENTAL HAZARDS

Activated product is toxic to fish and aquatic organisms. Do not discharge effluent containing activated product into lakes, streams, ponds, estuaries, oceans, or public waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing activated product to sewer systems without previously notifying the sewerage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the USEPA.

STORAGE AND DISPOSAL

STORAGE: Do not contaminate water, food, or feed by storage, disposal, or cleaning of equipment.
PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide and rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest USEPA Regional Office for guidance.

CONTAINER DISPOSAL

Do not reuse empty container. Triple rinse (or equivalent), then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill. Empty, triple rinsed containers can be returned to the nearest ProChemTech facility for recycling.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

3024 is designed to be activated by an electrolysis unit, which converts bromide in the product into active bromine solution. The produced active bromine solution is then introduced into the system to be treated as a bactericide, slimicide, and/or algacide for treating recirculating and once-through cooling water systems, pulp & paper mills, air washers, pasteurizers, and wastewater treatment plants. This product can be applied to most applications in which chlorination has been used.
