Subject: Dr. T's Snake-A-Way Snake Repellent
EPA Reg. No. 58630-1
Modification to Environmental Hazards Statement
Your submission of March 13, 1999

Dear Sir:

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, is acceptable provided that you make the following changes and submit one (1) copy to us before you ship your product:

- ✓1. On your front panel, replace "EPA File Symbol 58630-R" with "EPA Reg. No. 58630-1". Your product has already been registered.
- ✓2. The Net Weight of your product [32 lbs (14.54 kg)] must appear on your label, preferably on the Front Panel.
- ✓3. Revise your Storage and Disposal statement to read as follows:

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

STORAGE: Store in a cool, dry, well-ventilated place inaccessible to children and pets.

DISPOSAL: Do not reuse empty contained. Rinse thoroughly. Securely wrap in newspaper and discard in trash.

- √4. Revise the scientific names that appear under Directions for Use. Correct Genus Crotalus to Genus Crotalus, and Genus Elaphe to Genus Elaphe. However, keep Thamnophis Marcianus as it is. The word "Genus" should **not** be underlined, while full names should.

This registration will be subject to cancellation in accordance with FIFRA sec. 6(e) if you do not comply with these conditions. Your release for shipment of the product bearing the amended labeling constitutes acceptance of these conditions.

A stamped label is enclosed for your records.

Sincerely,

Daniel B. Peacock, Biologist
Insecticide-Rodenticide Branch
Registration Division (7504C)

Enclosure: Stamped label

EPA Est. No. 58630-GA-1

Net weight 22 lbs (10 kg)

ACCEPTED
with COMMENTS
in EPA Letter Dated:

APR 15 1999

Under the Federal Insecticide,
Fungicide, and Rodenticide Act
as amended, for the pesticide
registered under EPA Reg. No.

58630-1

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Harmful if swallowed, avoid breathing vapors. Avoid contamination of food and feed. Avoid prolonged skin contact.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish. Do not apply directly to water, or to areas where surface water is present or to inter-tidal areas below the mean water mark.

DIRECTIONS FOR USE

Apply this product only as directed on label.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

Storage: Store in a cool, dry, well-ventilated place. *Keep out of reach of children and pets*

Disposal: Do not reuse ^{empty} container. Rinse thoroughly ~~before discarding into trash.~~

Securely wrap in newspaper and discard in trash.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

USE RESTRICTIONS: FOR OUTDOOR USE ONLY. APPLY ONLY AS DIRECTED ON LABEL. To repel rattlesnakes (Genus Crotalus) and checkered garter (Thamnophis Marcianus) from areas around houses, cabins, trailers, garages, utility houses, barns, woodpiles, sand piles, trash cans, and flower beds. May also be used around the periphery of gardens. Do not use this product at sites where snakes are believed to be already present as the deterrent effects of the product might tend to confine snakes to the treated areas.

Do not apply this product in gardens or in fields of crops grown for food or feed. Do not use this product near streams, ponds, pools, or water supplies.

Tests of this product have suggested that it can be effective deterrent for the types of snakes listed above. While the product might deter other types of snakes as well, it is not expected to consistently repel snakes of the following types: corn snakes and other rat snakes (Genus Elaphe); and "moccasin" snakes such as cottonmouths and copperheads (Genus Agkistrodon).

APPLICATION DIRECTIONS: Using gloves, apply SNAKE-A-WAY IN BANDS SURROUNDING THE AREA TO BE PROTECTED. Use bands 4 to 5 inches wide to repel checkered garter snakes. For rattlesnakes, use bands 8 to 12 inches wide. In yards, lightly sprinkle SNAKE-A-WAY over the area within the treatment band.

When the odor of SNAKE-A-WAY becomes faint, its effectiveness may be diminished. If this occurs during a season when snakes are active, retreat with enough of the product to restore the original odor intensity. Retreatment may also be necessary after heavy rains.

RATS AND MICE:

USE RESTRICTIONS: FOR OUTDOOR USE ONLY. APPLY ONLY AS DIRECTED ON LABEL. This product may be used to limit damage by house mice (Mus musculus), Norway rats (Rattus norvegicus), or roof rats (R. Rattus) to garbage bags placed near along streets or alleys for garbage collection.

Do not use this product in gardens or in fields of crops grown for food or feed. Do not use this product near streams, ponds, pools, water supplies, or sewers.

APPLICATION DIRECTIONS: Using gloves, apply SNAKE-A-WAY, in lightly sprinkled band around the area where garbage bags are placed. Beginning no more than one foot out from the outermost bags, lightly broadcast SNAKE-A-WAY until band of product is 24 inches wide circles the bags.

When the odor of SNAKE-A-WAY becomes faint, its effectiveness may be diminished. Retreatment may also be necessary after heavy rain, washing-type rains.

Notice: Buyer assumes all risk of use, storage, and handling of this material not in strict accordance with label directions.
