MASTER LABEL - BACK PANEL (Page 2 of 3)

Tests of this product have suggested that it can be an effective deterrent for the types of snakes listed above. While the product might deter other types of snakes as well, it is not expected to consistently repel snakes of the following types: corn snakes and other rat snakes (Genus Elaphe); and "moccasin" snakes such as cottonmouths and copperheads (Genus Agkistrodon).

APPLICATION DIRECTIONS: Using gloves, apply SNAKE-A-WAY IN BANDS SURROUNDING THE AREA TO BE PROTECTED. Use bands 4 to 5 inches wide to repel checkered garden snakes. For rattlesnakes, use bands 8 to 12 inches wide. In yards, lightly sprinkle Snake-A-Way over the area within the treatment band.

When the odor of Snake-A-Way becomes faint, its effectiveness may be diminished. If this occurs during the season when snakes are active, retreat with enough of the product to restore the original odor intensity. Retreatment may also be necessary after heavy rains.

RATS AND MICE:

USE RESTRICTIONS: FOR OUTDOOR USE ONLY. APPLY ONLY AS DIRECTED ON LABEL. This product may be used to limit damage by house mice (Mus musculus), Norway rats (Rattus norvegicus), or roof-rats (R. rattus) to garbage bags placed near residences and other buildings or to garbage bags placed along streets or alleys for garbage collection.

Do not use this product in gardens or in fields of crops grown for food or feed. Do not use this product near streams, ponds pools, or water supplies, or sewers.

APPLICATION DIRECTIONS: Using gloves, apply in a lightly sprinkled band around the area where garbage bags are placed. Beginning no more than one foot out from the outermost bags, lightly broadcast until band of product is 24 inches wide. When the odor becomes faint, its effectiveness may be diminished. Retreatment may also be necessary after heavy, washing-type rains.

STORAGE: Store in original container in a cool, dry, and well-ventilated location inaccessible to children, domestic animals, and pets.

PESTICIDE DISPOSAL: Waste resulting from the use of this product may be disposed of on-site or at an approved waste disposal facility. Pesticide wastes are toxic.
