

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Avoid contact with skin, eyes, clothing. Wash thoroughly after handling and before eating or smoking.

STATEMENT OF PRACTICAL TREATMENT

IF ON SKIN: Wash thoroughly with soap and water.
IF IN EYES: Flush with plenty of water.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish. Do not apply directly to water. Do not contaminate water by disposal of used strips. Use this product only as specified on this label.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Directions for Use In Poultry Houses: Caged Layer: Hang one strip in the center of each cage of up to five (5) birds as an aid in the prevention and control of the Northern fowl mites and lice in poultry. Use the enclosed wire to suspend the strip so that it is 1 to 2 inches below the back height of the shortest bird in each cage. Control of heavy mite infestations may require use of more than one strip per cage of five (5) birds for one to three months.

Breeder: Use a hog ring to suspend strip center front of each nest hole. Add one additional strip for each five (5) roosters, strategically placed, where rooster will have daily contact. Properly positioned strips will prevent mites and lice for up to two (2) years.

STORAGE AND DISPOSAL

STORAGE: Do not contaminate water, food, or feed by storage or disposal. Keep container sealed when not in use.

PESTICIDE DISPOSAL:

Remove strips when cleaning cages. Securely wrap used strips in a plastic bag or several layers of newspaper and discard in trash.

CONTAINER DISPOSAL:

Dispose of empty bag in a sanitary landfill or by incineration, or, if allowed by State and local authorities, by burning. If burned, stay out of smoke.
