US ENVIRONMENTAL PROTECTION AGENCY
OFFICE OF PESTICIDES PROGRAMS
REGISTRATION DIVISION (TS-767)
WASHINGTON, DC 20460

EPA REGISTRATION NO.

58673-2

DATE OF ISSUANCE

JUL 1 1998

TERM OF ISSUANCE

NOTICE OF PESTICIDE: REGISTRATION
 REREGISTRATION
(Under the Federal Insecticide, Fungicide,
and Rodenticide Act, as amended)

NAME OF PESTICIDE PRODUCT

Chlorinating Pellets

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Better Water Industries, Inc.
P. O. Box G 209 N Tyler St.
Tyler, MN 56178

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) and section 4 when the Agency requires all registrants to similiar products to submit such data.
2. Add the phrase "EPA Registration No. 58673-2" to your label before you release the product for shipment.

Submit one copy of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

A stamped copy of the label is enclosed for your records.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

For Dry Pellet Chlorinators and Temporary Well Sanitation
3/8" diameter tablet-1 gram

PRECAUTIONARY STATEMENTS-

HAZARDS TO HUMANS AND DOMESTIC ANIMALS-DANGER! *Highly Corrosive *Causes Skin and Eye Damage *May be Fatal if Swallowed *Irritating to Nose and Throat *Wear goggles or face shield and rubber gloves when handling. Avoid breathing dust. **Remove and wash contaminated clothing and shoes before reuse.**

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

PHYSICAL AND CHEMICAL HAZARDS: Strong oxidizing agent! Mix only with water. Use only a clean, dry utensil made of metal or plastic each time product is taken from the container. **Do not add this product to any dispensing device containing remnants of any other product. Such use may cause violent reaction leading to fire or explosion.** Contamination with moisture, acids, organic matter, other chemicals or easily combustible materials such as petroleum or paint products may start a chemical reaction with generation of heat, liberation of hazardous gases and possible generation of heat, liberation of hazardous gases and possible generation of a fire or explosion. In case of contamination or decomposition, do not reseal container. If possible isolate container in open air or well-ventilated area. Flood with large volumes of water, if necessary.

BETTER WATER IND. INC.
CHLORINATING PELLETS

Calcium Hypochlorite Mixture-Pellet Form

EPA Reg. No. 58673-E

EPA Est. No. 58673-MN-01

ACTIVE INGREDIENT: Calcium Hypochlorite..73%

INERT INGREDIENTS:.....27%

Minimum 70% Available Chlorine

Pellet Weight 1 gram, Net Weight ____ lbs.

KEEP OUT OF REACH OF CHILDREN

DANGER

See additional precautionary statements on side label. **PRACTICAL TREATMENT(First Aid):**

EYE/SKIN CONTACT: Flush with plenty of water for at least 15 minutes, while removing contaminated clothing and shoes. For eye contact, get immediate medical attention. If skin irritation occurs, get medical attention. **INHALATION:** Remove to fresh air. If signs of irritation or discomfort occur, take immediately to a hospital or physician. **SWALLOWING:** If swallowed, drink large quantities of water. Do not induce vomiting. Take immediately to a hospital or physician. If vomiting occurs, administer additional water. If unconscious, or in convulsions, take immediately to a hospital. Do not attempt to induce vomiting or give anything by mouth to an unconscious person.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

These pellets are to be used in pellet dispenser for automatically treating well water in those areas where treated water supplies are not available.

This product is intended to be used for treating water by placing the pellets at the base of a well to sanitize until consumed. It is not intended to replace safe and properly constructed wells. EPA recommends for human consumption. 2-8 ppm to be determined by using a test kit provided with the pellet dispenser. One pellet normally treats 29 gallons of average well water. These pellets are designed to dissolve in less than 1 hour. Consult the manufacturer's installation and adjustment instructions so that the required chlorine residual can be maintained at all times.

ACCEPTED
JUL 1 1998
Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for the pesticide registered under EPA Reg. No. 58673-2

PUBLIC WELLS - Before using, flush the casing with a 50 ppm available chlorine solution (1 ounce (35 pellets) of calcium hypochlorite for each 100 gallons of water). The solution should be fed by gravity into the well and thoroughly mixed and agitated. The well should stand overnight or for twelve hours under chlorination. It may then be pumped until bacterial examination of a representative raw water sample will indicate whether further treatment is necessary.

After the initial treatment, begin feeding a 1% available chlorine solution of this product with a hypochlorinator, as directed above, until a free available chlorine residual of at least 0.2 ppm and no more than 0.6 ppm is attained throughout the distribution system. Check the water frequently with a chlorine test kit. Bacteriological sampling must be conducted at a frequency no less than that prescribed by the National Interim Primary Drinking Water Regulations. Contact your local Health Department for further details.

STORAGE AND DISPOSAL: Read before using. Keep in original container in a cool, dry, well-ventilated place. Keep container closed when not in use. Keep away from heat sources, sparks, open flames and lighted tobacco products. Use only a clean, dry utensil made of metal or plastic each time product is taken from the container.

Container Disposal: Do not reuse container. Residual material remaining in empty container can react to cause fire. Thoroughly flush empty container with water then destroy by placing in trash collection.

Pesticide Disposal:Wastes resulting from the use of this product may be disposed of on-site or at an approved waste disposal facility. Do not contaminate water, food, or feed by storage or disposal. **In Case of Fire:** Drench with water. Calcium hypochlorite supplies oxygen; therefore, attempts to smother fire with a wet blanket, carbon dioxide, or a dry chemical extinguisher are ineffective. **In Case of Spill or Leak:** Use extreme caution. Contamination may cause fire or violent reaction. If fire or reaction occurs in area of spill, douse with plenty of water. Otherwise sweep up spilled material, using a clean, dry shovel and broom and dissolve spilled material in water. Then immediately use solution as directed.

Net Wt. this container _____ lbs. Lot No. _____

To produce 50 ppm available chlorine solution use 1 ounce (35 pellets) calcium hypochlorite for each 100 gallons of water.

Refer to following to determine Well Capacity (Gallons per linear ft.):

Diameter of Well	Gal per linear ft.	Cont. Diameter of Well	Cont. Gal per linear ft.
1-1/4"	.1	13"	6.9
2"	.2	14"	8.0
3"	.4	16"	10.5
4"	.7	18"	13.2
5"	1.1	20"	16.3
6"	1.5	24"	23.5
8"	2.6	30"	36.7
10"	4.1	36"	52.9
