

VAPROX™ HYDROGEN PEROXIDE STERILANT

Reorder Number: PB006

ACTIVE INGREDIENT:

Hydrogen Peroxide 35%

INERT INGREDIENT: 65%

**KEEP OUT OF REACH OF
CHILDREN
DANGER
OXIDIZER
CORROSIVE**

SEE BACK PANEL FOR ADDITIONAL
PRECAUTIONARY STATEMENTS

For use in VHP® Industrial Equipment only.
Shade from radiant heat. Stow away from powdered
metals and permanganates.

STATEMENT OF PRACTICAL TREATMENT

Do not get in eyes. IN CASE OF EYE CONTACT:

Immediately flush with plenty of water for at least 15 minutes, lifting upper and lower lids intermittently. Call a physician.

Do not take internally. IF SWALLOWED: Drink plenty of water immediately to dilute. Do not induce vomiting. Never give anything by mouth to an unconscious person. Call a physician.

Note to Physician: Probable mucosal damage may contraindicate the use of gastric lavage.

Avoid breathing vapors. USE ONLY WITH ADEQUATE VENTILATION. IF INHALED:

Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Call a physician.

Avoid contact with skin and clothing. IN CASE OF SKIN CONTACT: Immediately flush skin with plenty of water for 15 minutes while removing contaminated clothing and shoes. Get medical attention if irritation persists. Wash contaminated clothing and shoes promptly. Discard contaminated shoes in a fireproof container.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

DANGER: Corrosive. Causes eye and skin damage. Do not get in eyes, on skin or clothing. Wear goggles or face shield and rubber gloves when handling. Harmful or fatal if swallowed. Do not breathe vapor or spray mist. Avoid contamination of food. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

Physical or Chemical Hazards

Liquid hydrogen peroxide is a strong oxidant and poses a FIRE, EXPLOSION OR CONTAINER RUPTURE HAZARD. Avoid excessive heat, contamination, or contact with combustible materials. Clothing, shoes, or other combustible materials that have come in contact with hydrogen peroxide must be immediately and thoroughly washed with water. If allowed to dry in the materials, a fire may result. Discard shoes in a fireproof container.

IN CASE OF FIRE use water only.

When handling an open container, wear a NIOSH/MSHA approved respirator as necessary, chemical splash goggles or full face shield, vinyl or neoprene gloves and other protective clothing and boots.

CONTAIN SPILLS and dilute with 20 parts of water.

After diluting the spill, sodium metabisulfide or sodium

sulfite (1.9 lbs. of SO₂ equivalent per 500 ml of peroxide) may be used to destroy the peroxide. SEE EQUIPMENT MANUAL AND MATERIAL SAFETY DATA SHEET FOR ADDITIONAL INFORMATION.

DIRECTIONS FOR USE

It is a violation to use this product in a manner inconsistent with its labeling.

This product is intended for use as a non-medical/non-healthcare sterilant (i.e., for industrial use only). This product is for use in STERIS VHP® industrial equipment only, and by trained personnel. For sterilization of empty, pre-cleaned, sealed enclosures up to 40 ft³, apply 2.2 grams of product per minute for 90 minutes. See Equipment Manual for operating procedures of the STERIS VHP industrial equipment.

STORAGE AND DISPOSAL

Store cartridges at or below 77°F or 25°C. Do not expose to cyanide, hexavalent chromium compounds, other oxidizers, reducers, combustible materials, or flammable vapors.

PESTICIDE DISPOSAL

Rinse cartridges with 20 parts water and then empty into sink with running water. Hydrogen Peroxide is classified as a DOT oxidizer and a hazardous waste under U.S. EPA hazardous waste regulations and it is a violation of federal law to improperly dispose of pesticides.

CONTAINER DISPOSAL

Rinse cartridge with running water and dispose of with normal nonincinerated waste.
