### MOSQUITO MOSQUITO SHIELD COILS

Repels Mosquitoes During Outdoor Use

#### DIRECTIONS FOR USE

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.

1. Carefully separate both coils. Do not leave them apart so they may breath.
2. Light the preformed metal stand.
3. Place center-most opening in coil onto tip of metal stand. Light center tip of coil with a match or cigarette lighter. As the coil tip begins to burn, blow out the flame. The surrounding tip will release a fine toxin that will repel mosquitoes for about 5 hours, at which time the entire coil will have been reduced to a white ash.
4. For a better protection shield, separate the coil metal break off and inserted into the opening in the metal igniter as above.
