Dear Dr. Gerberg:

Subject: Allethrin Registration Standard
Mosquito Shield (Mosquito Coil)
EPA Reg. No. 58841-1
Submission: February 20, 1989

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable subject to the comments listed below. Five copies of the finished labeling must be submitted prior to releasing the product for shipment.

The signal word "CAUTION" and "Keep out of Reach of Children" needs to be moved onto the front panel.

As new labels are prepared, please change the active ingredient percentage to include related compounds. The label should read:

For best results use in a confined area with little or no breeze. Place one coil every 8 to 10 feet on patios, cabanas and campsites.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

1. Carefully separate both coils. Do not force them apart as they may break.
2. Unfold the provided metal stand
3. Place center-most opening in coil onto lip of metal stand. Light outer tip of coil with a match or cigarette lighter. As the coil begins to burn, blow out the flame. The smoldering tip will release a thin fume that will repel mosquitoes for over 5 hours, at which time the entire coil will have been reduced to a white ash.
4. For shorter protection times, segments of the coil maybe broken off and inserted into the stand. Ignite as above.
