CINNACURE ™ P1005 ™

Broad Spectrum Fungicide/Insecticide

Controls Powdery Mildew, Rhizoctonia, Pythium and Dollar Spot. Controls/repels a variety of pests including Aphids, Mites, Whiteflies (includes silverleaf and greenhouse), Thrips (including western flower), Algae, Moss, and Liverworts/Hornworts/Pearlworts.

A Curative and Preventative Fungus Control

ACTIVE INGREDIENTS: Cinnamaldehyde		5.0%
INERT INGREDIENTS:		95.0%
Ti	OTAL	100.00%

KEEP OUT OF REACH OF CHILDREN NOTIFICATION CAUTION

MAY 1 5 1997

See back panel for additional precautionary statements.

STATEMENT OF PRACTICAL TREATMENT

IF ON SKIN: Wash with plenty of soap and warm water. Get medical attention if irritation persist.

IF IN EYES: In case of contact, immediately flush eyes with plenty of water. Get medical attention if irritation persists.

EPA Reg. No. 58866-11

EPA Est. No. 58866-CA-1

International & United States Patents Pending

PROGUARD INC. SUISUN, CA 94585

NET CONTENTS:

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS CAUTION

Harmful if absorbed through skin. Causes eye irritation. Avoid contact with eyes, skin or clothing. Wash thoroughly with soap and water after handling. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

Personal Protective Equipment:

Applicators and other handlers must wear.

- 1. Long-sleeved shirt and long pants.
- 2. Waterproof gloves.
- 3. Shoes plus socks.

Follow manufacturer's instructions for cleaning /maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

ENVIRONMENTAL HAZARDS

Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water by cleaning of equipment or disposal of wastes.

PHYSICAL OR CHEMICAL HAZARDS

Do not use, pour, spill or store near heat or open flame.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Do not apply this product through any type of irrigation system.

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.

AGRICULTURAL USE REQUIREMENTS

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR part 170. This Standard contain requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE). The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard.

Do not enter or allow worker entry into treated areas during the restricted entry interval (REI) of 4 hours, , .

PPE required for early entry to treated areas that is permitted under the Worker Protection, Standard and that involves contact with anything that has been treated, such as plants, soil, water is: Coveralls, waterproof gloves, shoes plus socks.

4/5

USER SAFETY RECOMMENDATIONS:

User should:

1. Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.

Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.

SHAKE WELL BEFORE USE. USE DILUTION IMMEDIATELY. DO NOT STORE DILUTED SOLUTION.

- This product may be applied using either hand or ground broadcast spray equipment.
- Do not mix CINNACURE™ with oxidizing agents such as bleach, or strong acids or bases as they will destabilize the product.
- Apply in early to mid-morning or late afternoon. This is especially important with adults of whiteflies and thrips which tend to be less active at these times.
- Spraying directly onto pest(s) or disease(s) increases effectiveness.
- Spray solution should be used within several hours of preparation for maximum effectiveness. Cinnacure™ in diluted solution should be maintained at pH between 3-8. Use outside of the pH range may cause product degradation.
- Do not apply to wilted or obviously stressed plants, or to newly transplanted material prior to root establishment.

Turfgrass: Rhizoctonia, Pythium and Dollar Spot. Dilute 2 gals. per 100 gals. of water (2.6 fl. ozs./gal. of water or 18 fl. ozs. per 7 gal. of water). Apply 305 gallons of dilute solution per acre (7 gallons per 1,000 sq. ft.) As a preventative treatment, apply when conditions are favorable for disease development or apply when disease first appears. Avoid overlapping of sprays. Repeat as necessary.

FLORICULTURE, OUTDOOR FIELD FLOWERS, BEDDING PLANTS, LANDSCAPE ORNAMENTALS AND INTERIOR PLANTS such as:

Ornamentals, Roses, Flowers, Carnations and Chrysanthemums: Powdery Mildew, Aphids, Two-spotted Spider Mites, White Flies, Thrips. Outdoors, dilute 10 gals./ 100 gals. of water (13 fl. ozs./gal. of water). Apply when disease or insects first appear. In greenhouses or indoor environments, dilute 7 fl. ozs. per 1 gal. of water. Apply as a thorough foliar spray including underside of leaves. Repeat as necessary. As a preventative measure, apply at three week intervals.

Algae, Algae Scum or Moss on Turfgrass: For prevention or eradication of algae, algae scum or moss, dilute 10 gals./100 gals. of water (13 fluid ounces per gallon of water). Apply on a 28 day schedule. Apply 305 gallons per acre (7 gallons per 1000 sq. ft.). When algae, algae scum or moss is well established, every attempt should be made to dry out the afflicted areas. Once dry, spiking or verticutting should be done to enhance turfgrass recovery in conjunction with treatment. Under severe algae, algae scum or moss conditions use a higher rate and apply on 14 day schedule. Only a preventative program of treatment will prevent a recurrence of the algae, algae scum or moss when environmental conditions are favorable for growth.

Glasshouse Algae, Moss and Liverworts/Hornworts/Pearlworts: For prevention or eradication of algae, moss, liverworts, hornworts or pearlworts on glass, other glasshouse structural surfaces or in containers, pots or storage bins, apply at the rate of 7.7 ozs. per 1 gal. of water as needed. When algae, moss or liverworts are well established, every attempt should be made to dry out the afflicted area. Do not spray directly on glasshouse plants. Spray in a manner that minimizes contact with desired plants. Only a preventative program of treatment will prevent a recurrence of the algae, moss, liverwort, hornwort or pearlwort when environmental conditions are favorable for growth.

4040

1/5

Algae or Moss on Structural or Decorative Surfaces: For prevention or eradication of algae and moss on residential structures (e.g., wood and/or concrete walls, steps, stairs, foundation, seats, walkways, etc.), apply at the rate of 12.8 ozs. per 1 gal. of water as needed. When algae or moss is well established, every attempt should be made to dry out the afflicted areas. Do not spray on plants, animals or plastic surfaces. Only a preventative program of treatment will prevent a recurrence of the algae when environmental conditions are favorable for algae or moss growth.

Moss and Liverworts/Hornworts/Pearlworts in Containers, Pots or Storage Bins: For prevention or eradication of moss, liverworts, hornworts and pearlworts in containers, pots or storage bins, apply at the rate of 7.7 ozs. per 1 gal. of water as needed. When moss, liverworts, hornworts and pearlworts are well established, every attempt should be made to dry out the afflicted areas. Do not spray directly on plants. Spray in a manner that minimizes contact with desired plants. Do not spray on plants, animals or plastic surfaces. Only a preventative program of treatment will prevent a recurrence of moss, liverwort, hornwort or pearlwort when environmental conditions are favorable for growth.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal. Store in original container. Store in a cool dry place. Do not store near food or feedstuffs.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.
