25 | 18

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA) section 3(c)(7)(A) provided that you:

1. Submit/cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) or FIFRA section 4 when the Agency requires all registrants of similar products to submit such data.
2. Add the phrase, "EPA Registration No. 58998-19" and Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labelling.

General Information

Biobit Technical Powder contains the active protein crystal produced by Bacillus thuringiensis subsp. kurstaki. The mode of action of Biobit Technical Powder is similar to that of other Bacillus thuringiensis products. Biobit Technical Powder must be **INGESTED** by the target insect larvae. Upon ingestion, the protein is activated under the specific gut conditions of the target insect. The gut of the target insect is paralyzed and feeding ceases almost immediately. Death occurs 2-5 days later.

Biobit Technical Powder may be used in formulating any registered pesticide. Prior approval of the formulation by the U.S. Environmental Protection Agency is required.

Storage and Disposal

Do not contaminate water, food or feed by storage or disposal.

Storage: Store in a cool, dry place. Keep containers of partially used Biobit Technical Powder tightly closed. Store at temperatures below 90 degrees F. Storage at temperatures below 50 degrees F is recommended for optimal shelf life.

Pesticide

Disposal: Wastes resulting from the use of the product may be disposed of on site or at an approved waste disposal facility in accordance with federal and local regulations.

Container

Disposal: Do not reuse empty container. Completely empty bag or liner by shaking and tapping sides and bottom to loosen clinging particles. Then dispose of bag or liner in a sanitary landfill, or by incineration if allowed by state and local authorities. If drum is contaminated and cannot be reused, dispose of in the same manner.
