(

Subject: Residual Claim for Fleas and Ticks Green Charm Home Pest Insect Control EPA Registration No. 59144-7 Your Application Dated October 23, 1992

The amendment referred to above, submitted in connection with registration under FIFRA sec. 3(c)(7)(A), is acceptable provided that you:

 Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec.
3(c)(5) when the Agency requires all registrants of similar products to submit such data.

2. Make the labeling changes listed below before you release the product for shipment bearing the amended labeling:

- a. In the Environmental Hazards section, replace the sentence which begins "Do not apply directly to water..." with the statement "Do not apply directly to water, to areas where surface water is present or to intertidal a eas below the mean high water mark."
- b. Under the "General Information" section of the Directions for Use, the instruction against spraying the product into conduits, motor housings, junction and switch boxes, or other electrical equipment, should be moved from this section and placed under the Physical and Chemical Hazards heading.

3. Submit five (5) copies of your final printed labeling before you release the product for shipment.

If these conditions are not complied with, the registration

will be subject to cancellation in accordance with FIFRA sec. f(e). Your release for shipment of the product bearing the amended labeling constitutes acceptance of these conditions.

A stamped copy of the labeling is enclosed for your records.

It has come to our attention during the review of this submission that a current Confidential Statement of Formula (CSF) was to have been submitted with your response to the Chlorpyrifos Data Call-In. Please refer to our letter of January 7, 1992. We have not received the CSF. Your response to the DCI (dated November 22, 1991) listed a different source of technical chlorpyrifos than what is listed on the CSF in our files (dated November 8, 1990). Therefore, we do not know what technical source of chlorpyrifos is being used to formulate this product. A merent CSF must be submitted within 30 days of the date of this letter.

Sincerely,

DHE

Dennis H. Edwards, Jr. Product Manager 19 Insecticide-Rodenticide Branch Registration Division (H7505C)
