CAUTION**

Statements of Practical Treatment

IF SWALLOWED: Call a physician or Poison Control Center immediately. Induce vomiting by giving victim 1 or 2 glasses of water and touching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious or convulsing person. **IF IN EYES:** Flush eyes with plenty of water. Get medical attention. **IF ON SKIN:** Wash affected area with soap and warm water.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Harmful if swallowed. Avoid contact with eyes, skin, or clothing. Avoid breathing spray mist. Wash hands after using. Keep children and domestic animals off treated areas until this material has been washed into the soil.

ENVIRONMENTAL HAZARDS

Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not apply when weather conditions favor drift from target areas. Do not contaminate water when disposing of equipment washwaters. Do not contaminate domestic or irrigation waters.

See Side/Back Panel for Additional Precautionary Statements

Net Contents 153.6 Fluid Ounces - Treats 300 Square Feet

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

LIQUID EDGER KILLS BERMUDAGRASS, JOHNSONGRASS QUACKGRASS AND OTHER DEEP ROOTED PERENNIALS. ALSO KILLS ANNUALS, SUCH AS BROME, FOXTAIL, WILD OATS, BURR CLOVER, MALLOW AND MORNING GLORY.

The contents of this container will treat 300 square feet. It can be used around the home and in commercial areas for the control of a wide variety of broadleaf and grassy weeds in and along driveways, sidewalks, on patios, around commercial buildings, in parking lots, filling stations, and other areas of unwanted vegetation. It may also be used as the initial step in a lawn renovation program. Liquid Edger is deactivated on contact with the soil. Spray weeds to point of runoff. Wilting will occur in 1 to 3 days and browning in about 5 to 7 days. Best kill is obtained when plants are young and growing vigorously during hot sunny weather.

HOW TO USE SPOT WEED TREATMENT

This product is "ready-to-use". Applicator should wear waterproof gloves during treatment. For treatment of individual weeds (spot treatment) remove the cap which covers the applicator head, invert jug several inches above ground and sprinkle liquid to treat weeds in and along sidewalks, patio blocks, driveways and spot weed control in the lawn. Product will cause brown or yellowing dead spots in lawn. Repeat as needed for continued weed edging.

TREATMENT FOR LAWN REJUVENATION

The area should be mowed before treatment. For broadcast application to renovate portions of a lawn, the contents of this container will treat up to a measured area of 300 sq.ft. Invert the container and sprinkle directly onto weedy growth. May also be applied with a garden pressure sprayer. A second application 5 days later may be required for complete kill of Bermudagrass and other deep rooted perennials. When foliage is all brown the area should be raked and bare spots prepared for seed. About 5 days after last treatment, water thoroughly and then seed at the recommended rate for a new lawn. Seed should be raked into soil and kept moist to hasten germination. Do not allow Liquid-Edger to come in contact with the foliage, root or bark areas of desirable plants since injury may occur.

STORAGE and DISPOSAL

Do not contaminate water, food or feed by storage or disposal. **STORAGE:** Store product in original container in a cool, dry, locked place out of reach of children. **PESTICIDE DISPOSAL:** Securely wrap original container in several layers of newspaper and discard in trash. **CONTAINER DISPOSAL:** Do not reuse empty container. Rinse thoroughly before discarding in trash.

NOTICE: GRO TEC, INC. warrants that this product conforms to the chemical description on its label. When used in accordance with label directions under normal conditions, this product is reasonably fit for its intended purposes. Since timing, method of application, weather, plant and soil conditions, mixture with other chemicals, and other factors affecting the use of this product are beyond our control, no warranty is given concerning the use of this product contrary to label directions or under conditions which are abnormal or not reasonably foreseeable. The user assumes all risks of any such use. (59144-EN.PMS/EPA critns of 01-03-95/ves/mtd 01-10-95/accpt's 06-22-95/in/lab/06-26-95/blt pts added 05-13-98 as Notif)
