**Subject: Amended Labeling; Updates for PR Notice 2007-4
Rose & Flower Insect Spray, EPA Reg. No. 59144-22
Your Submission Dated August 5, 2010**

Dear Ms. Davis:

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable with the following label revision provision(s):

Storage and Disposal section comment(s):

1. To facilitate inclusion of language from PR Notice 2007-4, revise the existing "**Pesticide/Container Disposal:**" subsection to read "**Pesticide/Container Disposal:** Nonrefillable container. Do not reuse or refill this container. **If empty:** Offer for recycling if available, or place in trash. **If partially filled:** Call your local solid waste agency for disposal instructions. Never place unused product down and indoor or outdoor drain."

A copy of your label stamped "Accepted with Comments" is enclosed for your records. Please submit two (2) copies of the final printed labeling, incorporating the above changes, before releasing the product for shipment. If these conditions are not complied with, the registration will be subject to cancellation in accordance with section 6(e) of FIFRA. Your release for shipment of the product bearing amended labeling constitutes accepting of these conditions.

If you have any questions about this label review, please contact Mr. Carmen Rodia at (703) 306-0327 or via e-mail at Rodia.Carmen@epa.gov.

Sincerely yours,

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This product may be used indoors and out-of-doors or in a home greenhouse throughout the season, or as a pre-harvest treatment when other insecticides are prohibited due to residue restrictions and use limitations.

Shake Well Before Each Use.

This product is ready-to-use. To control insects named in the chart, apply to provide thorough coverage of upper and lower leaf surfaces. Repeat treatment weekly, or as needed, to control infestations. Vegetables may be treated on the day of harvest.

Roses & Flowers

Plants	Insects

Spinach	Aphids, Cabbage Looper, Webworms
Tomatoes	Colorado Potato Beetles, Flea Beetles, Green Peach Aphid, Spider Mites, Stink Bug, White Flies

Note: This spray is not residual, therefore for best insect control on vegetables apply two applications one week apart. A light mist on the plant foliage is all that is necessary. Do not spray to point of runoff.

Indoor Insect Control

For use as a space spray, adjust sprayer to give a fine floating mist to control Flies, Fruit Flies, Gnats, Mosquitoes and Small Flying Insect Moths. Cover or remove exposed food and food handling surfaces. Close windows and doors and shut off ventilating systems. Direct the spray mist toward the upper portions of the enclosure, filling the room with the mist and hitting as many insects as possible with the spray. Use 2 to 4 ounces per 1,000 cubic feet of space. Keep area closed for at least 30 minutes. Vacate treated areas and ventilate before reoccupying. Repeat treatment as necessary.

Storage and Disposal

Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: Store in original container in a cool, dry (preferably locked) storage area inaccessible to children and pets. **Pesticide/Container Disposal:** Non-refillable container; do not reuse or refill this container. If empty: Offer for recycling, if available; otherwise discard in trash. If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

(Per PR Notice 2007-4 the batch code/lot number will appear on the label or container.)
