NOTICE OF PESTICIDE: REGISTRATION
 REREGISTRATION
(Under the Federal Insecticide, Fungicide,
and Rodenticide Act, as amended)

NAME OF PESTICIDE PRODUCT
WSA Model WSA31™ Ice Maker Water
Treatment Unit

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Water Safety Products, Inc.
302 S. Independence St.
Richmond, VA 23220

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

1. This product is registered under the Federal Insecticide, Fungicide, and Rodenticide Act, 7 U.S.C. 136(a)(1)(A).

2. The registrant is required to comply with the labeling requirements of 40 CFR 156.101(a)(1) which require that all registrants of similar products to permit such use:

2. Make the labeling changes listed below prior to release the product for shipment:

- a. Add the phrase "EPA Registration No. 59243-3."
- b. The following comments must appear in close proximity in the order listed, on the front of the label panel that is customarily viewed when setting on display in channels of trade:

- (1) Product Name: WSA Model WSA31™ Ice Maker Water Treatment Unit
- (2) "Water Treatment Unit"
- (3) "Model WSA31™ Ice Maker Water Treatment Unit"

Bacteriostatic Water Treatment Unit

PRODUCT DESCRIPTION

The Bacteriostatic Water Treatment Unit is designed to provide a continuous supply of bacteriostatic water for use in medical and laboratory applications. The unit is compact and easy to install, and it requires no special ventilation or exhaust. The water produced is safe for use in the preparation of ophthalmics, injections, and other sterile solutions. The unit is available in two models, one with a 4-gallon capacity and one with a 2-gallon capacity. The 4-gallon model is the most popular and is recommended for most applications. The 2-gallon model is suitable for smaller applications or for use in areas with limited space. The unit is made of stainless steel and is completely corrosion-resistant. It is also easy to clean and maintain. The unit is designed to last for many years of service.
