NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an endorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

1. Submit/cite all labels for similar products to submit such data.
2. Make the labeling changes listed below on the registration label for shipment:
  - a. Add the phrase "EPA registered" to the label.
  - b. Under the Statement of Practical Use, add "Do not use on vomiting" and "Do not use on alcohol."
  - c. In the first sentence at the top of the registration label, delete "all". This term is too inclusive. The description should include the various types of wood products intended to be treated.
3. Submit one (1) copy of your final printed labeling before you release the product for shipment.

disposing of equipment washwaters.

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Weather Warrior Clear Wood Sealer II is a clear, water-repellent, wood preservative, designed to protect wood against decay, stain-causing fungi and surface mold. In addition, this product has been especially formulated to penetrate into wood and repel water which will reduce swelling and shrinking and increase dimensional stability and protection against the elements.
