KILLS

DIRECTIONS FOR USE

Application Directions

Apply in small amounts directly into cracks and crevices using a bulbous duster or other suitable equipment capable of applying insecticides directly into cracks and crevices, in points between different elements of construction, between equipment and floors, openings leading to voids and hollow spaces in walls, equipment legs and bases, conduits, motor housing and electrical switch boxes where cockroaches hide.

Care should be taken to avoid depositing the product onto exposed surfaces or introducing the materal into the air. Avoid contamination of food or food processing surfaces.

2. NONFOOD AREAS (INCLUDING SOME SERVING AREAS)

INCLUDES garbage rooms, lavatories, floors drains (to sewer) entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage (after canning or bottling). Also includes some SERVING AREAS.

NONFOOD SERVING AREAS

SERVING AREAS are facilities where food is served, such as dining rooms, but not where food is prepared or held. These areas are considered NONFOOD AREAS when food is <u>not</u> exposed and the facility is <u>not</u> in operation.

Follow application directions in this section. If food is exposed and the facility is in operation, follow application direction under FOOD SERVING AREAS.

BEST AVAILABLE COPY

Application Directions

Apply as a spot treatment to selective surfaces such as baseboards, under elements of constructions into cracks and crevices. Avoid treating surfaces likely to be contacted by food.
