NOTE: Changes in labeling, formula differing in substance from that accepted in connection with this registration must be submitted to, and accepted by the Registration Division, prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an endorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

DATE

- n
f
- e. The first two paragraphs...in your use directions can be placed above the "DIRECTIONS FOR USE".
 - f. The inclusion of your packer on your label is optional.
3. For our records submit a revised Confidential Statement of Formula without the corrections made by hand. Insert the correct value for Block #17.
 4. Within 15 months of this Notice of Registration, submit the results of a one(1) year Storage Stability Study (40 CFR 158.20, Guideline No. 63-17).
 5. Submit five (5) copies of your final printed labeling before your release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely,

W.H. Miller

Precautionary Statements

Hazardous to humans and domestic animals

irritation

Harmful if swallowed. Avoid contact with skin and eyes. Wash contaminated skin promptly with soap and warm water. For eyes, flush with water. Get medical attention if any irritation persists. Avoid contamination of food and foodstuffs.

Directions for use

It is a violation of Federal law to use this product in a manner inconsistent with this labelling.

From Australia, the "GET OFF MY GARDEN"™ water crystal is a new kind of pet repellent. Enveloped in suspended water crystals; the repellent provides longer-lasting continuous action by slowly releasing a strong, highly perfumed odor, confusing both dogs, and cats, sense of smell.

"GET OFF MY GARDEN"™ is effective in most weather conditions. In dry weather, the moisture of the crystals is drawn into the soil. Rain may actually cause the crystals to grow. The repellent remains effective.

OUTDOORS: To prevent your pet, or stray animals from soiling flower beds, areas of lawn, trees, shrubbery or evergreen, first remove any droppings and hose down any areas where droppings or urine had been deposited and where animals could be attracted. Then, lightly scatter the product at the edges of flower and vegetable gardens, trunks of trees, the bases of shrubbery and evergreens, patches of lawn, etc., lightly every day, or every other day, with this product. Reapply as often as necessary. Replace cap after use.

Avoid direct contact with soft-stemmed plants, leaves and food crops. Only lightly scatter around new or soft lawns as it could cause spotting or burning.

NOTE: This product is not likely to break the established urination patterns of dogs, unless it is used as a training aid.

Storage and Disposal

Storage: Store only in original container in a dry place inaccessible to children and pets.

Disposal: Do not reuse empty container. Rinse thoroughly. Securely wrap in newspaper and discard in trash.
