PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS CAUTION

Harmful if swallowed. Avoid contact with eyes and skin. Wash contaminated skin promptly with soap and warm water. For eyes, flush with water. Get medical attention if any irritation persists. Avoid contamination of food and foodstuffs.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with this labeling.

From Australia, "Get Off My Garden" water crystal is a new kind of pet repellent. Enclosed in suspended water crystals, the repellent provides longer-lasting continuous action by slowly releasing a strong, highly perfumed odor, confusing both dogs' and cats' senses of smell.

"Get Off My Garden" is effective in most weather conditions. In dry weather, the moisture of the crystals is drawn into the soil. Rain may occasionally cause the crystals to grow. The repellent remains effective.

OUTDOORS: To prevent your pet or stray animals from soiling flower beds, areas of lawn, trees, shrubbery or evergreen, first remove any droppings and hose down any areas where droppings or urine have been deposited and where animals might be attracted. Then, lightly scatter the product at the edges of flower and vegetable gardens, trunks of trees, the bases of shrubbery and evergreens, patches of lawn, etc. Lightly, reapply every 3 or 4 days, if necessary, until habits are broken. Replace cap after use. Contents treats approx. 500 sq ft.

Avoid direct contact with soft-stemmed plants, leaves and food crops. Only lightly scatter around new or soft lawns as the product could cause spotting or burning. Do not apply directly onto vegetables.

Note: This product is not likely to break the established urination patterns of dogs, unless it is used as a training aid.

STORAGE AND DISPOSAL

Storage: Store only in original container in a dry place inaccessible to children and pets.
Disposal: Do not reuse empty container. Rinse thoroughly. Securely wrap in newspaper and discard in trash.
