DIBROM® Fly & Mosquito Spray

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS & DOMESTIC ANIMALS

CAUTION

Do not get on skin, eyes or clothing. Harmful if swallowed. Avoid breathing spray mist. Concentrate may cause skin damage. Use waterproof gloves when handling concentrate. In case of contact, immediately remove contaminated clothing and flush skin or eyes with plenty of water. For eyes, get medical attention. Avoid wetting the hides of animals.

STATEMENT OF PRACTICAL TREATMENT

If swallowed, give water to drink and telephone for medical advice. DO NOT make person vomit unless directed to do so by medical personnel. If medical advice cannot be obtained, then take person and product container to nearest medical emergency treatment center or hospital. For skin contact, immediately wash skin with plenty of soap and water. In case of eye contact, wash eyes immediately with fresh water for at least 15 minutes. See a doctor if eye or skin irritation persists. If inhaled, remove person from exposure area.

Note to Physicians: Emergency Information — call (415) 233-3737. This product contains an aromatic petroleum distillate and an aspiration hazard may exist. Naled is a cholinesterase inhibitor. If signs and symptoms of cholinesterase inhibition appear, atropine is antidotal. 2-PAM may also be used in conjunction with atropine but should not be used alone.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds and other wildlife. Keep out of lakes, streams or ponds. Do not apply where runoff is likely to occur. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water by cleaning of equipment or disposal of wastes.

This product is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees are actively visiting the treatment area.

PHYSICAL OR CHEMICAL HAZARDS

COMBUSTIBLE. KEEP OUT OF REACH OF CHILDREN. DO NOT USE OR STORE near heat, open flame, sparks or hot surfaces. USE ONLY IN WELL VENTILATED AREA. Keep container closed. Clean up spills immediately. Liquid evaporates and forms vapor (fumes) which can catch fire and burn with explosive violence. Invisible vapor spreads easily and can be set on fire by many sources such as pilot lights, welding equipment and electrical motors and switches. Fire hazard is greater as liquid temperature rises above 85°F.

DO NOT weld, heat or drill this container. Replace cap or bung. Empty container still contains hazardous or explosive vapor or liquid.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

READ ENTIRE LABEL. USE STRICTLY IN ACCORDANCE WITH PRECAUTIONARY STATEMENTS AND DIRECTIONS, AND WITH APPLICABLE STATE AND FEDERAL REGULATIONS.

DIRECTIONS

DIBROM Fly & Mosquito Spray is suitable for use in: Fly Guns, Micro Foggers, Heat Generating Foggers, Dairy Barn Foggers, Hydro Guns or suitable automatic atomizing application equipment. May corrode metal spray equipment. Flush sprayers out occasionally with kerosene to prevent possible corrosion.

USE UNDLUTED. Apply as a finely atomized space spray using applicator adjusted to produce particle sizes 5 to smaller than 30 microns.

GENERAL USE — In and Around Dwellings, Open Air Theaters, Restaurants, Drive-ins, also:
